## AT THE COURT AT OSBORNE HOUSE, ISLE OF WIGHT,

The 23rd day of July, 1889.

PRESENT:

The QUEEN'S Most Excellent Majesty in Council.

WHEREAS by the Merchant Shipping Act Amendment Act, 1862, it is enacted that whenever it is made to appear to Her Majesty that the rules concerning the measurement of tonnage of merchant ships for the time being in force under the principal Act have been adopted by the Government of any foreign country, and are in force in that country, it shall be lawful for Her Majesty by Order in Council to direct that the ships of such foreign country shall be deemed to be of the tonnage denoted in their certificates of registry or other national papers, and thereupon it shall no longer be necessary for such ships to be re-measured in any port or place in Her Majesty's Dominions, but such ships shall be deemed to be of the tonnage denoted in their certificates of registry or other papers in the same manner, to the same extent, and for the same purposes in, to, and for which the tonnage denoted in the certificates of registry of British ships is to be deemed the tonnage of such ships:

And whereas by the Merchant Shipping Act, 1876, it is enacted that "where Her Majesty has power "under the Merchant Shipping Act, 1854, or any Act "passed or hereafter to be passed amending the same "to make an Order in Council, it shall be lawful for "Her Majesty from time to time to make such Order "in Council, and by Order in Council to revoke, alter, "or add to any order so made:"

And whereas it was made to appear to Her Majesty that the rules concerning the measurement of tonnage of merchant ships in force under the Merchant Shipping Act, 1854, had been adopted by the Government of His Majesty the German Emperor, with the exception of a difference in the mode in certain steamers of estimating the allowance for engine room, and such rules were in force in that country and came into operation on the 1st day of January, 1873:

And whereas by Order in Council dated the 26th day of June, 1873, Her Majesty was pleased to direct as follows:

1. As regards sailing ships, that merchant sailing ships of the said German Empire the measurement whereof should, after the said 1st day of January, 1873, have been ascertained and denoted in the registers and other national papers of such sailing ships testified by the date thereof should be deemed to be of the tonnage denoted in such registers and other national papers in the manner and to the same extent and for the same purpose in, to, and for which the tonnage denoted in the certificate of registry of British sailing ships is deemed to be the tonnage of such ships.
2. As regards steam ships, that merchant ships belonging to the said German Empire which are propelled by steam, or any other power requiring engine room, the measurement whereof should, after the said 1st day of January, 1873, have been ascertained and denoted in the registers and other national papers of such steam ships testified by the dates thereof, should be deemed to be of the tonnage denoted on such registers or other national papers in the same manner and to the same extent, and for the same purpose in, to, and for which the tonnage denoted in the certificate of Registry of British ships is deemed to be the tonnage of such ships. Provided nevertheless, that should the

owner or master of any such German steam ship desire the deduction for engine room in his ship to be estimated under the rules for engine-room measurement and deduction applicable to British ships instead of under the German rule, the engine room should be measured and the deduction calculated according to the British rules.

And whereas it has been made to appear to Her Majesty that a new Imperial Ordinance, which came into operation on the 20th day of June, 1888, stipulates that the owners of German steamships may have the net tonnage of their vessels calculated according to British as well as according to German rules, and shall have issued to them a separate certificate to be used in foreign countries, showing the net tonnage calculated according to British rules:

And whereas it has been made to appear desirable to Her Majesty that the provisions of the said recited Order in Council of the 26th day of June, 1873, should be revoked, and a new Order in Council made and substituted in lieu thereof:

Now, THEREFORE, Her Majesty, in virtue of the powers vested in Her by the said recited Acts, and by and with the advice of Her Privy Council, is pleased to direct that the said recited Order of the 26th day of June, 1873, shall be and the same is hereby revoked, and in lieu thereof, and in substitution therefor, Her Majesty is hereby pleased, by and with the advice of Her Privy Council, to direct as follows:—

1. As regards sailing ships, that merchant sailing ships of the said German Empire, the measurement whereof after the said 1st day of January, 1873, has been ascertained and denoted in the registers and other national papers of such sailing ships, testified by the date thereof, shall be deemed to be of the tonnage denoted in such registers and other national papers in the same manner and to the same extent, and for the same purpose into and for which the tonnage denoted in the certificate of registry of British sailing ships is deemed to be the tonnage of such ships.
2. As regards steamships, that merchant ships belonging to the said German Empire, which are propelled by steam or any other power requiring engine room, the measurement whereof shall, after the 1st day of January, 1873, have been ascertained and denoted in the registers and other national papers of such steamships, testified by the dates thereof shall be deemed to be of the tonnage denoted on such registers or other national papers in the same manner and to the same extent, and for the same purposes in, to, and for which the tonnage in the certificate of registry of British ships is deemed to be the tonnage of such ships. Provided, nevertheless, that if the owner or master of any such German steam ship desires the deduction for engine room in his ship to be estimated under the rules for engine room measurement and deduction applicable to British ships instead of under the German rule, the engine room shall be measured and the deduction calculated according to the British rules; and that, in the event of any such steamship possessing a certificate of tonnage or other national paper issued as aforesaid on or after the 20th day of June, 1888, denoting the net registered tonnage of such ship under the British rules, the ship shall be deemed to be of the tonnage so denoted thereon.

### INTERPRETATION.

"Lake or River Service" refers to service on the inland waters which must have been performed in a capacity not lower than 3rd engineer on a steamer having an aggregate piston area of not less than 2,000 circular inches, 2 months of such service being considered only as equivalent to one month's actual sea service.

"Coasting Trade" refers to service in steamships plying between any port or place in Canada, and any other port or place in Canada, not being a port or place on the inland waters. Service in the coasting trade must amount to half as much again as service in the foreign trade.

"Workshop service" refers to an apprenticeship to an engineer, or as a journeyman mechanic employed in a factory, or workshop, making and repairing steam engines.

"Engineer on the watch" refers to the actual charge of the propelling engines, responsible for the bells, and in a capacity which affords opportunity of obtaining practical experience as an engineer. Service in the capacity of greaser, or fireman, will not be accepted.

"Sea service" or "Foreign Trade" refers to service in steamships engaged in the foreign sea trade, and plying between some port or place in the Dominion, and some port or place outside the Dominion, not being a port or place on any of the inland waters.

2. ## AT THE GOVEARNMENT HOUSE AT OTTAWA.

Saturday, 7th day of June, 1890.

PRESENT :

## HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, in pursuance of the provisions of Item one of Section 10, of the Act 53 Victoria, chapter 20, intituled "An Act to amend the Acts respecting the duties of Customs," and by and with the advice of the Queen's Privy Council for Canada, is pleased to establish the following Regulations respecting the manner of determining the strength of imported Acetic and Pyroligneous Acid and Vinegar, and the same are hereby established accordingly, namely :

1. Samples of about one gill each, taken indiscriminately from one package of ten if in barrels, or one in twenty if in other packages, of all importations of acetic and pyroligneous acids and vinegar dutiable under Item one of Section 10 of the Act above cited shall be submitted to test, and the result shall determine the amount of duty payable thereon.

2. The testing shall be done at such ports and by such officers as the Minister of Customs may direct and in the following manner, viz :

3. A standard solution of sodium hydrate (Na H.O.) of such strength that two volumes thereof shall exactly neutralize one volume of such acid or vinegar when of the standard strength of proof, shall be from time to time furnished by the Minister of Customs to the Officers to whom he may assign the duty of testing the strength of such acids or vinegar, together with two specially graduated burettes and such other apparatus as may be by him deemed advisable, as well as a solution of phenol-phthalein to be used as an indicator.

4. The solutions shall be by the officers to whom entrusted at all times kept in well-stoppered bottles in a cool place, and any of the soda solution once taken from the bottle shall not be again returned thereto.

5. The shorter of the two burettes supplied shall be used for the acid or vinegar and the longer for the soda solution. They shall be at all times kept perfectly clean and immediately before using each rinsed with a small quantity of the acid, vinegar or soda for which it is to be used — such rinsings to be carefully disposed of in such manner as to ensure that it shall not become mingled with any of that used in making the test.

6. The acid or vinegar burette shall then be filled with the sample to be tested to a point about one inch above the upper 0 line, and carefully drawn off by means of the pinch-cock through the rubber tube exactly down to the 0 line, the bottom of the meniscus or curved line of the liquid exactly touching the line when the eye is on the same level.

The drawing down must be carefully done and in such manner as to ensure the exclusion of all air bubbles from the rubber tube both below and above the pinch cock. A slight pressure with the thumb and finger will send them to the surface.

7. The acid or vinegar shall then be cautiously drawn into the receiving cup until the bottom of the meniscus touches the upper 3 line.

There shall then be added to the quantity so drawn into the receiving cup, distilled water of not less than about an equal quantity to that of the acid or vinegar therein in case such acid or vinegar is apparently weak or is light colored, and a greater quantity in proportion to its apparent or suspected strength, using for very strong acid or dark colored vinegar four or five times its bulk, the exact quantity being immaterial.

8. To the acid or vinegar so reduced shall then be carefully added by means of a small pipette, ten drops of the phenol-phthalein, and the mixture carefully stirred with a glass rod or agitated with a rotary motion in such manner as to ensure its perfect admixture with the diluted acid or vinegar.

9. The larger burette shall be filled in like manner with the soda solution, the same precautions being taken to expel the air bubbles etc.

10. The soda solution shall then be carefully and slowly drawn into the receiving cup containing the acid or vinegar and phenol-phthalein mixture, the contents of the cup being constantly stirred with the glass rod or agitated by a rotary motion in manner to ensure a perfect mingling of the solution with the contents of the cup, the eye being kept constantly on the contents of the cup to detect the first indications of an approaching neutralization of the acid contained therein, which will be by the instantaneous appearance of a distinct though fleeting red-purple color on the surface of the contents of the cup at the point where the soda strikes when falling thereon.

At this point great care shall be taken and the soda solution allowed to fall into the cup drop by drop, until by the addition of one single drop the whole contents of the cup assumes the red purple color which does not disappear on stirring or agitating, but remains permanent.

11. The quantity of the soda solution thus used as shown by the graduation marks on the burette indicates the strength of the acid or vinegar; thus, if the quantity used is less than 6 on the scale, the acid or vinegar is under proof as defined by the Act item above cited; if the quantity used is 6 on the scale, the sample is exactly the strength of proof; if the quantity used is 7 on the scale, the sample is one degree over proof, and so on, the figures on the scale indicating the exact degrees of strength.

12. In order to check the test, the acid or vinegar remaining in the burette shall then be carefully run down to the lower 0 line and the contents then drawn from such line down to the lower 3 line into the contents of the receiving cup, a little more distilled water and five drops of the phenol-phthalein added thereto, and the soda solution again added in the same manner as above, and if the same quantity of soda solution or an excess not exceeding two drops is required to restore the permanent red purple color, the test shall be considered as satisfactory, and the result shall govern the duty payable under the terms of the said item of the said Section 10 of the Act above referred to.

His Excellency is also pleased to order that the Order in Council of the 27th day of June, 1884, as well as Section 4 of chapter 13 of the Consolidated Orders in Council dated the 25th day of July, 1888, establishing the standard for imported vinegar, shall be and the same are hereby cancelled.

Clerk, Privy Council.

## NOTICE TO MARINERS.

### No. 29 of 1890.

### I. POSITION OF RED CAN BUOY IN THE WEST NARROWS OF BEAUJEU CHANNEL.

The red wooden can buoy at the west narrows of Beaujeu Channel, in the River St. Lawrence, below Quebec, which was on the 13th instant, moved southward of the position which it had occupied in previous years, as advertised in Part IX of Notice to Mariners No. 21 of 1890, has been returned to its former position, which, as shewn on chart 318, would be

Lat. N. 47° 4' 0"
Long. W. 70° 30 50

From the present position of the buoy Crane Island lighthouse bears S. W. by W. ⅝ W., the south diamond beacon N. ¼ W., and the south beacon at Macpherson Point N. by E. ¾ E.

This change has been made because it was found that, in its late position, though more accurately marking the limits of the shoalest water, it necessitated a dangerously abrupt turn to enter or leave the Beaujeu Channel.

Pilots are, however, warned that the recent survey by Staff Commander Maxwell, R. N., shows patches with only 22 feet of water within a radius of 1¼ cables southward and south-eastward of this buoy. The best water to enter the Beaujeu Channel clear of these patches, with nowhere less than 27 feet, will be found on a N. N. E. and S.S.W. line passing close to the gas buoy on its westward side.

This notice affects Admiralty Charts Nos. 310, 316, 318 and 2516.

### II. INTERVALS BETWEEN BLASTS OF PROPOSED FOG ALARM AT CAPE NORMAN

The intervals between the blasts of the fog horn at Cape Norman, in the Strait of Belle Isle, when established, will be thirty-five seconds, instead of five seconds as stated in Notice to Mariners No. 30 of 1889. The alarm will consequently be single blasts of five seconds' duration, with intervals of thirty-five seconds between them.

This notice affects Admiralty charts Nos. 232*b*, 282, 703, 1430 and 2516. The interval is correctly given in No. 5 of Canadian List of Lights and Fog Signals.

WM. SMITH,
Deputy Minister of Marine.

### ARRÊTÉ EN CONSEIL.

### EXTRADITION ENTRE LA GRANDE-BRETAGNE ET LES ETATS-UNIS.

AU CHATEAU DE WINDSOR,
21 mars 1890.

PRÉSENTS :

Sa Très Excellente Majesté la REINE.

Le lord Président,
Le duc de Rutland,
Le lord Chambellan,
Le comte de Coventry,
Sir William Field.

CONSIDÉRANT que par les *Actes d'Extradition*, 1870 et 1873, il est statué, entre autres choses, que chaque fois qu'un arrangement aura été conclu avec un Etat étranger au sujet de la reddition à cet Etat des criminels fugitifs, Sa Majesté pourra ordonner par arrêté en conseil que les dits actes s'appliqueront à l'égard de l'Etat étranger en question ; et que Sa Majesté pourra, par le même ou par un arrêté subséquent, restreindre l'opération du dit arrêté et limiter son application aux criminels fugitifs qui se trouvent ou sont supposés se trouver dans la partie des possessions de Sa Majesté spécifiées dans l'arrêté, et en rendre l'exécution sujette aux conditions, exceptions et restrictions qui pourront être jugées convenables ; et que si, par quelque loi adoptée après la sanction de l'Acte de 1870 par la législature de toute possession britannique, il est pourvu à l'extradition des criminels fugitifs qui se trouvent ou sont soupçonnés se trouver dans cette possession britannique, Sa Majesté pourra, par un arrêté en conseil, appliquer les dits actes à l'égard de tout Etat étranger, ou par tout arrêté subséquent suspendre la mise en opération, dans toute telle possession britannique, des dits actes ou de toute partie de ces actes, en tant qu'ils se rapportent à cette puissance étrangère, et aussi longtemps que ces lois continueront d'y être en vigueur, mais pas plus longtemps ;

Et considérant que dans un acte du parlement du Canada, passé en 1886, intitulé "Acte concernant l'extradition de criminels fugitifs," il est pourvu à la reddition des criminels fugitifs qui se trouvent ou pourront se trouver au Canada ;

Et considérant que par un arrêté de Sa Majesté en conseil, en date du dix-septième jour de novembre mil huit cent quatre-vingt-huit, il est décrété que l'opération des Actes d'extradition de 1870 et 1873 sera suspendue au Canada tant que les dispositions du dit acte du parlement du Canada de 1886 continueront en vigueur et pas plus longtemps ;

Et considérant qu'une convention a été conclue le douzième jour de juillet mil huit cent quatre-vingt-neuf, entre Sa Majesté et les Etats-Unis d'Amérique, pour l'extradition mutuelle des criminels fugitifs, laquelle convention est rédigée comme suit :—

"Considérant que le Xe article du traité conclu entre Sa Majesté Britannique et les Etats-Unis d'Amérique le neuvième jour d'août mil huit cent quarante-deux, pourvoit à l'extradition de personnes accusées de certains crimes ;

"Et considérant que les hautes parties contractantes désirent aujourd'hui que les dispositions du dit article embrassent certains crimes qui n'y sont pas spécifiés, et s'appliquent aux fugitifs trouvés coupables des crimes spécifiés dans le dit article et dans la présente convention ;

"Les dites hautes parties contractantes ont nommé pour leurs plénipotentiaires à l'effet de conclure une convention dans ce but, savoir :—

"Sa Majesté la Reine du Royaume-Uni et de la Grande-Bretagne et d'Irlande : Sir Julian Pauncefote, chevalier grand-croix de l'Ordre très-distingué de

Saint-Michel et Saint-George, chevalier commandeur du très-honorable Ordre du Bain, et envoyé extraordinaire et ministre plénipotentiaire de Sa Majesté Britannique près les Etats-Unis ;

« Et le Président des Etats-Unis d'Amérique : James G. Blaine, Secrétaire d'Etat des Etats-Unis ;

« Lesquels, après s'être communiqué leurs pleins pouvoirs respectifs, trouvés en bonne et due forme, ont conclu les articles suivants :—

“ARTICLE I.

“ Les dispositions du dit Xe article sont par la présente rendues applicables aux crimes additionnels ci-dessous :—

“ 1. Homicide, lorsque volontaire.

“ 2. Contrefaçon ou altération de monnaie ; mise en circulation de monnaie contrefaite ou altérée.

“ 3. Détournement ; larcin ; recel d'argent, objets de valeur ou autre propriété, sachant qu'ils ont été détournés, volés ou obtenus frauduleusement.

“ 4. Fraude (abus de confiance) par un administrateur, banquier, agent, commissionnaire, curateur, directeur, membre ou fonctionnaire d'une société quelconque, pour autant que le fait est puni par les lois en vigueur.

“ 5. Faux serment ou subornation de témoins.

“ 6. Viol ; enlèvement ; vol d'enfant ; sequestration et détention illégale.

“ 7. Vol avec effraction ; bris de maison ou de boutique.

“ 8. Piraterie, d'après le droit des gens.

“ 9. Révolte ou complot de révolte par deux ou plusieurs personnes à bord d'un navire en haute mer, contre l'autorité du capitaine ; submersion, échouement ou destruction d'un navire en mer, ou tentative ou complot ayant ce crime pour but ; attaque à bord d'un navire en haute mer dans le but de porter de graves lésions corporelles.

“ 10. Crimes et délits contre les lois des deux pays établies pour la suppression de l'esclavage de la traite des esclaves.

“ L'extradition aura également lieu pour complicité à un des crimes mentionnés dans la présente convention ou dans le susdit Xe article, pourvu que cette complicité soit punissable par les lois des deux pays.

“ARTICLE II.

“ Un criminel fugitif ne sera pas extradé si le délit pour lequel l'extradition est demandée est considérée comme un délit politique, ou si l'individu prouve que la demande d'extradition a été faite en réalité dans le but de le poursuivre ou de le punir pour un délit d'un caractère politique.

“ Aucune personne livrée par l'une des hautes parties contractantes à l'autre, ne sera sujette d'être jugée ni ne sera jugée ni punie pour aucun crime ou délit politique, ou aucun acte s'y rattachant, commis antérieurement à son extradition.

“ S'il s'élève quelque question quant à savoir si un cas tombe sous l'empire du présent article, la décision des autorités du gouvernement dans la juridiction duquel se trouverait alors le fugitif, sera définitive.

“ARTICLE III.

“ Aucune personne livrée par l'une ou l'autre des hautes parties contractantes ne sera susceptible d'être jugée ni ne sera jugée pour aucun crime ou délit commis antérieurement à son extradition, autre que le délit pour lequel elle a été extradée, avant qu'elle n'ait eu l'occasion de retourner dans le pays qui l'a extradée.

“ARTICLE IV.

“ Tous les objets saisis en la possession de l'individu réclamé au moment de son arrestation, qu'ils soient le produit du crime ou du délit imputé, ou de nature à servir de pièce de conviction, seront, en tant que possible et si l'autorité compétente de l'Etat requis en a ordonné la remise, livrés lorsque l'extradition aura lieu. Toutefois, les droits des tiers au sujet des articles susdits seront dûment respectés.

“ARTICLE V.

“ Si l'individu réclamé par l'une des deux hautes parties contractantes en exécution de la présente convention est aussi réclamé par une ou plusieurs autres puissances, du chef d'autres crimes ou délits commis sur leurs territoires respectifs, son extradition sera accordée à l'Etat dont la demande est la plus ancienne en date,

“ Les définitions du présent article, et aussi des articles II et IV inclusivement de la présente convention, s'appliqueront à l'extradition pour délits spécifiés dans le susdit Xe article, aussi bien qu'à l'extradition pour délits spécifiés dans la présente convention.

“ARTICLE VI.

“ L'extradition de fugitifs en vertu des dispositions de la présente convention et du dit Xe article se fera, tant dans les possessions de Sa Majesté que dans les Etats-Unis, en conformité des lois concernant l'extradition alors en vigueur dans l'Etat requis.

“ARTICLE VII.

“ Les dispositions du dit Xe article et de la présente convention s'appliqueront aux personnes trouvées coupables des délits qui y sont respectivement nommés et spécifiés, pour lesquels sentence n'aura pas été exécutée.

“ Dans le cas d'un criminel fugitif réputé avoir été trouvé coupable d'un crime pour lequel son extradition est demandée, une copie du dossier du procès, et de la sentence du tribunal qui l'a jugé, dûment attestée, sera produite, ainsi que la preuve que le prisonnier est bien la personne mentionnée dans la sentence.

“ARTICLE VIII.

“ La présente convention ne s'appliquera pas à aucun des crimes y spécifiés qui ont été commis, ou à aucune condamnation qui aura été prononcée antérieurement à l'entrée en vigueur de la convention.

“ARTICLE IX.

“ La présente convention sera ratifiée et les ratifications seront échangées à Londres aussitôt que possible,

“ Elle sera exécutoire dix jours après sa promulgation, dans les formes prescrites par les lois des hautes parties contractantes, et continuera en vigueur jusqu'à ce que l'une ou l'autre des hautes parties contractantes ait signifié son désir d'y mettre fin, et pas plus longtemps.

“ En foi de quoi les soussignés ont signé la présente convention, et y ont apposé le cachet de leurs armes.

“ Faite en double, à la cité de Washington, ce douzième jour de juillet, mil huit cent quatre-vingt-neuf.

“[L.S.] JULIAN PAUNCEFOTE,
“[L.S.] JAMES G. BLAINE.”

Et attendu que les ratifications de la dite convention ont été échangées à Londres le onzième jour de mars mil huit cent quatre-vingt-dix :

C'est pourquoi Sa Majesté, par et de l'avis de son Conseil privé, et en vertu de l'autorité que lui confèrent les dits actes cités, ordonne et il est par le présent ordonné, que le et après le quatrième jour d'avril mil huit cent quatre-vingt-dix, les dits actes s'appliqueront dans le cas des Etats-Unis d'Amérique, et de la dite convention avec les Etats-Unis d'Amérique.

Pourvu, toujours, et il est par le présent ordonné que l'opération des dits Actes d'extradition 1870 et 1873 sera suspendue dans la Puissance du Canada, en tant qu'il s'agit des Etats-Unis d'Amérique et la dite convention, tant que les dispositions de l'acte canadien de 1886 resteront en vigueur, et pas plus longtemps.

## A OSBORNE HOUSE, ILE DE WIGHT.

Le 23e jour de juillet 1889.

PRÉSENTE :

Sa Très Excellente Majesté la REINE en Conseil.

CONSIDÉRANT que par l'*Acte d'amendement de la marine marchande de* 1862, il est statué que lorsqu'il sera représenté à Sa Majesté que les règlements concernant le mesurage du tonnage des bâtiments marchands alors en vigueur en vertu de l'acte principal, ont été adoptés par le gouvernement d'un pays étranger et sont en vigueur dans ce pays, il sera loisible à Sa Majesté de déclarer, par un arrêté en conseil, que les bâtiments de ce pays étranger seront censés avoir le tonnage indiqué sur leurs certificats d'enregistrement ou autres papiers nationaux, et que dès lors il ne sera plus nécessaire pour ces bâtiments d'être mesurés de nouveau dans un port ou lieu quelconque des possessions de Sa Majesté, mais que ces bâtiments seront censés être du tonnage inscrit sur leurs certificats d'enregistrement ou autres papiers, de la même manière, au même degré et pour toutes les fins pour lesquelles le tonnage inscrit sur les certificats d'enregistrement des bâtiments britanniques est censé être le tonnage de ces bâtiments :

Et considérant que par l'*Acte de la marine marchande de* 1876, il est statué, que "lorsque Sa Majesté a le "droit, en vertu de l'*Acte de la marine marchande de* " 1854, ou de tout autre acte passé ou devant être passé "plus tard, amendant le susdit acte, à rendre un "arrêté en conseil, il sera loisible à Sa Majesté de rendre "de temps à autre un tel arrêté en conseil, et par ce "dernier de révoquer, modifier ou étendre tout arrêté "du conseil ainsi rendu ;"

En considérant qu'il a été représenté à Sa Majesté que les règlements concernant le mesurage du tonnage des bâtiments marchands maintenant en vigueur sous l'autorité de l'*Acte de la marine marchande de* 1854, ont été adoptés par le gouvernement de Sa Majesté l'Empereur d'Allemagne, à l'exception d'une différence dans le mode adopté par certains vapeurs d'estimer l'espace pour la chambre des machines, et que ces règlements étaient en vigueur dans ce pays-là et sont entrés en vigueur le 1er jour de janvier 1873 ;

Et considérant que par arrêté en conseil du 26 juin 1873, Sa Majesté a bien voulu ordonner comme suit :—

1. En ce qui concerne les bâtiments à voiles,—Que les bâtiments marchands à voiles du dit Empire Allemand, dont le mesurage, le et après le 1er jour de janvier 1873, a été terminé et inscrit dans les certificats d'enregistrement et autres papiers nationaux du bord, attestés par leurs dates, seraient censés être du tonnage inscrit dans ces certificats ou autres documents nationaux, de la même manière, au même degré et pour toutes les fins pour lesquelles le tonnage inscrit sur le certificat d'enregistrement des bâtiments marchands britanniques est censé être le tonnage de ces bâtiments.
2. En ce qui concerne les navires à vapeur,—Que les bâtiments marchands appartenant au dit Empire Allemand, et mûs par la vapeur ou autre force motrice, exigeant une chambre des machines, et dont le mesurage, le et après le 1er jour de janvier 1873, a été déterminé et inscrit dans les certificats d'enregistrement ou autres documents nationaux du bord, attestés par leurs dates, seraient censés être du tonnage inscrit dans ces certificats ou autres documents nationaux, de la même manière, au même degré et pour toutes les fins pour lesquelles le tonnage inscrit sur le certificat d'enregistrement des bâtiments britanniques est censé être le tonnage de ces bâtiments ; pourvu, toutefois, que si le propriétaire ou le capitaine d'un bâtiment à vapeur allemand désire que la déduction pour la chambre des machines de son bâtiment soit évaluée suivant les règlements concernant le mesurage de la chambre des machines et sa déduction applicables aux bâtiments à vapeur britanniques, au lieu de l'être d'après les règlements allemands, la chambre des machines soit mesurée et la déduction soit calculée suivant les règlements anglais.

Et considérant qu'il a été démontré à Sa Majesté qu'une nouvelle ordonnance royale, qui est devenue en opération le 20me jour de juin 1888, stipule que les certificats de tonnage des bâtiments à vapeur allemand peuvent indiquer leur tonnage net calculé d'après les règlements anglais aussi bien que d'après les règlements allemands, et pourront recevoir un certificat distinct devant servir dans les pays étrangers indiquant le tonnage net calculé d'après les règlements anglais :

Et considérant qu'il a été démontré à Sa Majesté qu'il était opportun que les prescriptions de l'arrêté en conseil précité du 26 juin 1873 fussent révoquées, et que le dit arrêté fût remplacé par un autre :

A ces causes, il a plu à Sa Majesté, en vertu des pouvoirs qui lui sont conférés par les actes précités, et de l'avis et avec le consentement de son Conseil Privé, d'ordonner que le dit arrêté en conseil du 26 juin 1873 soit révoqué, et le dit arrêté est par le présent révoqué, et pour en tenir lieu, il a plu à Sa Majesté, de l'avis et du consentement de son Conseil Privé, d'ordonner comme il suit :

1. En ce qui concerne les bâtiments à voiles :—Que les bâtiments marchands à voiles du dit Empire Allemand, dont de mesurage, le et après le dit 1er jour de janvier 1873, a été déterminé et inscrit dans les certificats d'enregistrement et autres papiers nationaux du bord de ces bâtiments à voiles, attestés par leurs dates, seront censés être du tonnage inscrit dans ces certificats ou autres documents nationaux, de la même manière, au même degré et pour toutes les fins pour lesquelles le tonnage inscrit sur le certificat d'enregistrement des bâtiments marchands britanniques est censé être le tonnage de ces bâtiments ;
2. En ce qui concerne les navires à vapeur :—Que les bâtiments marchands appartenant au dit Empire Allemand, et mûs par la vapeur ou autre force motrice exigeant une chambre des machines, et dont le mesurage, le et après le 1er jour de janvier 1873, a été déterminé et inscrit dans les certificats d'enregistrement ou autres documents nationaux du bord de ces vapeurs, attestés par leurs dates, seront censés être du tonnage inscrit dans ces certificats ou autres documents nationaux, de la même manière, au même degré et pour toutes les fins pour lesquelles le tonnage inscrit sur le certificat d'enregistrement des bâtiments britanniques est censé être le tonnage de ces bâtiments ; pourvu, toutefois, que si le propriétaire ou le capitaine d'un bâtiment à vapeur allemand désire que la déduction pour la chambre des machines de son bâtiment soit évaluée suivant les règlements concernant le mesurage de la chambre des machines et sa déduction applicables aux bâtiments à vapeur britanniques, au lieu de l'être d'après les règlements allemands, la chambre des machines soit mesurée et la déduction soit calculée suivant les règlements anglais, et que si ce vapeur possède un certificat de tonnage ou autre document national émis comme susdit le ou après le 20e jour de juin 1888, indiquant le tonnage net enregistré de tel navire à vapeur évalué en conformité des règlements anglais, le tonnage du dit vapeur sera censé être le tonnage ainsi inscrit.

### MINISTÈRE DES CHEMINS DE FER ET CANAUX.

OTTAWA, 1890.

MONSIEUR,—Considérant que l'article 9 de l'Acte 49 Victoria, chapitre 98, Statuts Revisés du Canada 1886, statue que "tous les percepteurs des douanes, employés "des canaux, et tous autres fonctionnaires publics, "lorsqu'ils y seront appelés, devront coopérer avec le "percepteur des droits et péages et ses aides, afin "d'empêcher le transport des bois de service ou en "grume, et de leurs dérivés ou produits, jusqu'à ce "que les droits et péages dont ils sont grevés soient "garantis."

## HOTEL DU GOUVERNEMENT À OTTAWA,

Samedi, le 7e jour de juin 1890.

PRÉSENT :

## SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

Il plait à Son Excellence, en conformité des dispositions de l'item un de l'article 10 de l'Acte 53 Victoria, chapitre 20, intitulé "Acte modifiant les actes relatifs aux droits de douane," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'établir les règlements suivants concernant le mode de déterminer la force de l'acide acétique et pyroligneux et du vinaigre, importés, et ces règlements sont en conséquence par le présent établis, savoir :

1. Des échantillons d'environ une roquille chacun, pris au hasard d'un colis sur dix si ce sont des barils, ou d'un sur vingt si ce sont d'autres colis, de toutes importations d'acide acétique et pyroligneux et de vinaigre imposables en vertu de l'item un de l'article 10 de l'acte précité, seront soumis à l'épreuve, et le résultat déterminera le montant des droits payables sur iceux.

2. L'épreuve sera faite aux ports et par les employés que le ministre des Douanes indiquera, et de la manière ci-dessous, savoir :—

3. Une solution étalon de sodium hydrate (Na H.O.) d'une force telle que deux volumes de cette solution puissent neutraliser exactement un volume de cet acide ou vinaigre lorsqu'il est de la force étalon de preuve, sera de temps à autre fournie par le ministre des Douanes aux employés qu'il chargera du devoir d'éprouver la force de ces acides ou vinaigre, ainsi que deux burettes spécialement graduées et tels autres appareils qui lui paraîtront nécessaires, ainsi qu'une solution de phénol-phtaléine qui servira d'indicateur.

4. Les employés auxquels seront confiées ces solutions les garderont toujours dans des bouteilles bien bouchées, dans un endroit frais, et toute partie de la solution de soude une fois sortie de la bouteille ne devra pas y être remise.

5. La plus courte des deux burettes fournies sera employée pour l'acide ou le vinaigre, et la plus longue pour la solution de soude. Elles seront toujours gardées parfaitement nettes, et immédiatement avant de s'en servir chacune devra être rinsée avec une petite quantité de l'acide, du vinaigre ou de la soude qui doit y être versé,—on doit veiller soigneusement à ce que ces rinçures ne se mélangent pas avec la solution qui sert à faire l'épreuve.

6. La burette à l'acide ou vinaigre sera alors remplie de l'échantillon à éprouver jusqu'à environ un pouce plus haut que la ligne 0 supérieure, et soigneusement soutirée jusqu'à la ligne 0 en bas au moyen du robinet à pression par le tube en caoutchouc, le fond du ménisque ou ligne courbe du liquide touchant exactement la ligne lorsque l'œil est au même niveau.

Le soutirage doit être fait avec précaution et de manière à assurer l'exclusion de toutes bulles d'air du tube de caoutchouc tant au-dessous qu'au-dessus du robinet à pression. Une légère pression avec le pouce et le doigt les fera remonter à la surface.

7. L'acide ou vinaigre sera alors tiré avec précaution dans le récipient jusqu'à ce que le fond du ménisque touche la ligne 3 supérieure.

Alors à la quantité ainsi tirée dans le récipient, on ajoutera de l'eau distillée en quantité presque égale à celle de l'acide ou vinaigre si cet acide ou vinaigre paraît faible ou d'une couleur pâle, et une plus grande quantité proportionnément à sa force apparente ou supposée, employant pour l'acide très fort ou le vinaigre d'une couleur foncée quatre ou cinq fois son volume, la quantité exacte étant d'aucune conséquence.

8. A l'acide ou vinaigre ainsi réduit ajoutez alors soigneusement au moyen d'une petite pipette, dix gouttes de phénol-phtaléine, et brassez le mélange soigneusement avec une tige de verre ou remuez-le par un mouvement rotatoire de manière à obtenir un mélange parfait avec l'acide ou le vinaigre dilué.

9. La grande burette sera remplie de la même manière avec la solution de soude, en prenant les mêmes précautions pour exclure les bulles d'air, etc.

10. La solution de soude sera alors soigneusement et lentement tirée dans le récipient contenant le mélange d'acide ou vinaigre et de phénol-phtaléine, le contenu du récipient étant constamment brassé avec la tige de verre ou agité par un mouvement rotatoire de façon à obtenir un mélange parfait de la solution avec le contenu du récipient, la vue étant constamment fixée sur le contenu du récipient afin de découvrir les premiers signes d'une proche neutralisation de l'acide y contenu, ce qui est indiquée par l'apparence instantanée d'une couleur rouge-pourpre distincte quoique passagère sur la surface du contenu du récipient au point que la soude touche en tombant.

Ici il faut beaucoup de soin, et la solution de soude doit être versée goutte à goutte jusqu'à ce que l'addition d'une seule goutte ait l'effet de donner à tout le contenu du récipient une couleur rouge pourpre qui ne disparaît pas lorsqu'on le brasse ou agite, mais reste permanente.

11. La quantité de la solution de soude ainsi employée d'après les marques graduées sur la burette indique la force de l'acide ou du vinaigre ; ainsi, si la quantité employée est moindre que 6 sur l'échelle, l'acide ou le vinaigre est au-dessous de preuve tel que défini par l'item de l'acte précité ; si la quantité employée est 6 sur l'échelle, l'échantillon est exactement de la force de preuve ; si la quantité employée est 7 sur l'échelle, l'échantillon est un degré au-dessous de preuve, et ainsi de suite, les chiffres sur l'échelle indiquant le degré exact de force.

12. Afin de vérifier l'épreuve, l'acide ou vinaigre restant dans la burette sera alors soigneusement diminué jusqu'à la ligne 0 inférieure, et le contenu alors soutiré de cette ligne jusqu'à la ligne 3 inférieure dans le contenu du récipient, un peu plus d'eau distillée et cinq gouttes de phénol-phtaléine ajoutées, et la solution de soude encore ajoutée comme plus haut, et s'il ne faut que la même quantité de solution de soude ou un excédant de pas plus de deux gouttes pour ramener la couleur rouge-pourpre permanente, l'épreuve sera considérée satisfaisante, et le résultat établira le droit payable en vertu du dit item du dit article 10 de l'acte précité.

Il plait aussi à Son Excellence d'ordonner que l'arrêté en conseil du 27e jour de juin 1884, ainsi que l'article 4 du chapitre 13 des arrêtés en conseil refondus datés le 25 juillet 1888, établissant le type pour le vinaigre importé, sera et il est par le présent annulé.

51-4 Greffier du Conseil privé.

## HOTEL DU GOUVERNEMENT À OTTAWA.

Mercredi, le 11e jour de juin 1890.

PRÉSENT :

## SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT qu'il sort maintenant de l'estacade de la Gatineau une espèce de bois appelée " bois à pulpe " pour laquelle il n'est pas établi de taux de péage par le tarif, et vu que ce bois est acheté et vendu à la corde (128 pieds cubes) et mis en radeau par rangées de 4 et 5 pièces de hauteur, ce qui rend impossible d'obtenir le nombre exact de pièces, il semble raisonnable que des péages soient imposés sur ce bois à tant par corde,—

En conséquence, il plait à Son Excellence, en vertu de l'autorité qui lui est conférée par " l'Acte des travaux publics," chapitre 36 des Statuts revisés, et par et avec l'avis du Conseil Privé de la Reine pour le Canada, d'imposer et autoriser la perception d'un péage au taux de huit (8) centins par corde sur le bois à pulpe sortant de l'estacade de la Gatineau, et ce péage est par le présent imposé et autorisé, et sera prélevé de la même manière et avec les mêmes pouvoirs que les autres droits sur les autres espèces de bois, et le mesurage sera établi par affidavit qui sera fourni sur demande au percepteur des droits de glissoires et d'estacades, et qu'il exigera soit du fabricant ou de l'acheteur.

JOHN J. McGEE,
51-4 Greffier du Conseil privé.

## AVIS AUX MARINS.

### N° 29 de 1890.

### I. POSITION DE LA BOUÉE-BOITE ROUGE DANS LE RÉTRÉCI OUEST DU CHENAL BEAUJEU.

La bouée-boîte rouge en bois, au rétréci ouest du chenal Beaujeu, fleuve Saint-Laurent en bas de Québec, qui, le 13 courant, fut placée au sud de la position qu'elle occupait autrefois, tel qu'annoncé dans la partie IX de l'Avis aux Marins n° 21 de 1890, a été remise à son ancienne place, ce qui, d'après la carte 318, serait

Lat. N. 47° 4' 0"
Long. O. 70° 30' 50"

D'après la position actuelle de la bouée le phare de l'île aux Grues est dans une direction S. O. par O. ⅝ O., la bouée sud en losenge N. ¼ O., et la bouée sud à la Pointe Macpherson N. par E. ¾ E.

Ce changement a été fait parce qu'on s'est aperçu que la bouée, là où elle était en dernier lieu, bien qu'elle marquait exactement les limites des eaux les moins profondes, nécessitait un détour brusque dangereux afin d'entrer dans le chenal Beaujeu ou en sortir.

En conséquence les pilotes sont avertis que le récent relevé hydrographique fait par le commandant Maxwell, M. R., indique des étendues qui n'ont que 22 pieds de profondeur dans un rayon d'une encâblure et un quart au sud et au sud-est de cette bouée. La meilleure eau pour entrer dans le chenal Beaujeu et éviter ces hauts-fonds, avec pas moins de 27 pieds, se trouve sur une ligne N.N.E. et S.S.O. qui passe tout près de la bouée à gaz au côté ouest.

Cet avis affecte les cartes de l'Amirauté, Nos. 310, 316, 318 et 2516.

WM. SMITH,
Sous-ministre de la Marine.

Ministère de la Marine,
Ottawa, 31 mai 1890.

☞Tous les relèvements sont magnétiques et sont donnés venant de la mer, les milles sont des milles marins, les hauteurs sont au-dessus des hautes eaux, et toutes les profondeurs sont à l'eau basse moyenne.

Les pilotes, capitaines et autres intéressés sont instamment priés d'envoyer tous renseignements quant aux dangers, changements pour faciliter la navigation, avis de nouvelles battures ou de nouveaux chenaux. erreurs dans les publications, ou autres faits touchant la navigation dans les eaux canadiennes, au "Sous-ministre de la marine, Ottawa, Canada." 51-3

## DEMANDES AU PARLEMENT.

### RÈGLES RELATIVES AUX AVIS DE BILLS PRIVÉS.

Dans le cas de toute demande de bill privé, proprement du ressort législatif du Parlement du Canada, suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, et ayant pour objet, soit la construction d'un pont, d'un chemin de fer, d'un chemin à barrières ou d'une ligne télégraphique ; soit la construction ou l'amélioration d'un port, d'un canal, d'une écluse, d'une digue ou d'une glissoire ou autre ouvrage semblable ; soit la concession d'un droit de passage d'eau, l'incorporation de professions ou métiers, ou d'une compagnie de banque ou autre compagnie par actions, soit la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, soit le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement de même nature à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande, et signé (excepté s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit :

*Dans les provinces de Québec et du Manitoba.*

Un avis doit être inséré dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

*Dans les autres provinces ou territoires.*

Un avis doit être inséré dans la *Gazette du Canada*, et et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie.

La publication de ces avis durera, dans chaque cas, la période de deux mois pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Un exemplaire des numéros des journaux, reproduisant la première et la dernière insertion de l'avis, devra être transmis au greffier de chaque Chambre.

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, le pétitionnaire ou les pétitionnaires devront, en même temps qu'ils donneront l'avis prescrit par la règle précédente, donner aussi, de la même manière, avis des péages qu'ils entendent exiger, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piliers pour le passage des radeaux et des navires ; et mentionner de plus s'ils se proposent de construire un pont mobile, et quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Il en sera imprimé 600 exemplaires en anglais et 200 en français ; la traduction devra être faite par les officiers de la Chambre, et l'impression par l'entrepreneur des impressions. Le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) une somme de $200, plus le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé—le dit paiement sera effectué immédiatement après la seconde lecture avant la prise en considération du bill par le comité.

L'honoraire payable sur tout bill privé, ne sera payé que dans la Chambre où il a pris naissance.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par l'une ou par l'autre Chambre après les dix premiers jours de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.
JOHN GEORGE BOURINOT,
Greffier des Communes.

### RÈGLES ADDITIONNELLES DE LA CHAMBRE DES COMMUNES CONCERNANT LES BILLS PRIVÉS.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle adopté par la Chambre, le 23 juin 1887, dont copie peut être obtenue du greffier de la Chambre ;

(*a*.) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression.

(*b*.) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets ;

(*c*.) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le traité du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer

à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

*(a.)* Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés, dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait :

*(b.)* Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

JOHN GEORGE BOURINOT,
Greffier des Communes.

### SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré, durant trois mois, entre l'expiration de la dernière session parlementaire avant l'avis et la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district ; autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire, faite en vertu de "l'Acte concernant les serments extrajudiciaires."

### FIRST CLASS ENGINEERS' CERTIFICATES VALID IN THE UNITED KINGDOM.

1. In addition to the qualifications required for a Second Class Engineer, the candidate must have had at least 12 months' sea service as engineer on the watch in the engine room of a steamship of not less than 100 nominal horse power, during which time he must have been in possession of Second Class Engineer's Certificate of Competency ;—

### INTERPRETATION.

"Lake or River Service" refers to service on the inland waters which must have been performed in a capacity not lower than 3rd engineer on a steamer having an aggregate piston area of not less than 2,000 circular inches, 2 months of such service being considered only as equivalent to one month's actual sea service.

"Coasting Trade" refers to service in steamships plying between any port or place in Canada, and any other port or place in Canada, not being a port or place on the inland waters. Service in the coasting trade must amount to half as much again as service in the foreign trade.

"Workshop service" refers to an apprenticeship to an engineer, or as a journeyman mechanic employed in a factory, or workshop, making and repairing steam engines.

"Engineer on the watch" refers to the actual charge of the propelling engines, responsible for the bells, and in a capacity which affords opportunity of obtaining practical experience as an engineer. Service in the capacity of greaser, or fireman, will not be accepted.

"Sea service" or "Foreign Trade" refers to service in steamships engaged in the foreign sea trade, and plying between some port or place in the Dominion, and some port or place outside the Dominion, not being a port or place on any of the inland waters.

## ARRÊTÉ EN CONSEIL.

## EXTRADITION ENTRE LA GRANDE-BRETAGNE, LA FRANCE ET LA TUNISIE.

---

AU CHATEAU DE WINDSOR,
1er mai 1890.

PRÉSENTS :

Sa Très Excellente Majesté la REINE.
Le lord Président,
Le comte de Coventry,
Le comte de Limerick.

CONSIDÉRANT que par les *Actes d'Extradition*, 1870 et 1873, il est statué, entre autres choses, que chaque fois qu'un arrangement aura été conclu avec un Etat étranger au sujet de la reddition à cet Etat des criminels fugitifs, Sa Majesté pourra ordonner par arrêté en conseil que les dits actes s'appliqueront à l'égard de l'Etat étranger en question ; et que Sa Majesté pourra, par le même ou par un arrêté subséquent, restreindre l'opération du dit arrêté et limiter son application aux criminels fugitifs qui se trouvent ou sont supposés se trouver dans la partie des possessions de Sa Majesté spécifiées dans l'arrêté, et en rendre l'exécution sujette aux conditions, exceptions et restrictions qui pourront être jugées convenables ; et que si, par quelque loi adoptée après la sanction de l'Acte de 1870 par la législature de toute possession britannique, il est pourvu à l'extradition des criminels fugitifs qui se trouvent ou sont soupçonnés se trouver dans cette possession britannique, Sa Majesté pourra, par un arrêté en conseil, appliquer les dits actes à l'égard de tout Etat étranger, ou par tout arrêté subséquent suspendre la mise en opération, dans toute telle possession britannique, des dits actes ou de toute partie de ces actes, en tant qu'ils se rapportent à cette puissance étrangère, et aussi longtemps que ces lois continueront d'y être en vigueur, mais pas plus longtemps ;

Et considérant que dans un acte du parlement du Canada, passé en 1886, intitulé "Acte concernant l'extradition de criminels fugitifs," il est pourvu à la reddition des criminels fugitifs qui se trouvent ou pourront se trouver au Canada ;

Et considérant que par un arrêté de Sa Majesté en conseil, en date du dix-septième jour de novembre mil huit cent quatre-vingt-huit, il est décrété que l'opération des Actes d'extradition de 1870 et 1873 sera suspendue au Canada tant que les dispositions du dit acte du parlement du Canada de 1886 continueront en vigueur et pas plus longtemps ;

Et considérant qu'un traité a été conclu le quatorzième jour d'août mil huit cent soixante-seize entre Sa Majesté et le Président de la République Française touchant l'extradition mutuelle des criminels fugitifs, dans le cas duquel traité les susdits actes du parlement ont été appliqués par un arrêté en conseil en date du seizième jour de mai mil huit cent soixante-dix-huit ;

Et considérant qu'un arrangement a été conclu le trente-unième jour de décembre mil huit cent quatre-vingt-neuf entre le gouvernement de Sa Majesté et le gouvernement de la République Française, agissant au nom du gouvernement de Son Altesse le Bey de Tunis, à l'effet d'étendre les dispositions du dit traité du 14 d'août 1876 à la Tunisie, lequel arrangement est ainsi conçu :—

"Le gouvernement de Sa Majesté Britannique d'une part, et le gouvernement de la République Française agissant au nom du gouvernement de Son Altesse le Bey de Tunis, de l'autre, en vue d'assurer autant que possible l'arrestation et la remise à la juridiction compétente des malfaiteurs qui cherchent à se soustraire par la fuite à l'action de la justice, sont convenus de ce qui suit :—

"Les dispositions de la Convention Franco-Anglaise du 14 août 1876, sont étendues à la Tunisie, sauf que le délai de quatorze jours stipulé par l'Article IX de la dite Convention est porté à deux mois.

"Le présent arrangement aura la même durée que la Convention d'Extradition à laquelle il se rapporte.

"En foi de quoi les soussignés, Son Excellence le comte de Lytton, Ambassadeur de Sa Majesté Britannique à Paris, et Son Excellence M. Spuller, ministre des Affaires Etrangères de la République Française, ont dressé le présent arrangement, et y ont apposé leurs cachets.

"Fait à Paris, le 31 décembre 1889.
"(L.S.) LYTTON,
"(L.S.) E. SPULLER."

C'est pourquoi Sa Majesté, par et de l'avis de son Conseil privé, et en vertu de l'autorité que lui confèrent les dits actes cités, ordonne et il est par le présent ordonné, que le et après le seizième jour de mai mil huit cent quatre-vingt-dix, les dits actes s'appliqueront dans le cas de la Tunisie, en conformité du dit arrangement avec la République Française.

Pourvu, toujours, et il est par le présent ordonné que l'opération des dits Actes d'extradition 1870 et 1873 sera suspendue dans la Puissance du Canada, en tant qu'il s'agit de la Tunisie et de la dite convention, tant que les dispositions de l'acte canadien de 1886 resteront en vigueur, et pas plus longtemps.

2–4 C. L. PEEL.

## OTEL DU GOUVERNEMENT À OTTAWA.

Jeudi, le 12e jour de juin 1889.

PRÉSENT :

### SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

Il plaît à Son Excellence, en vertu du pouvoir qui lui est conféré par l'article 8 de l'acte 53 Victoria, chapitre 20, intitulé "Acte modifiant les actes relatifs aux droits de douane," et par et avec l'avis du Conseil privé de la Reine pour le Canada, de faire les règlements suivants concernant le drawback à être accordé sur le maïs importé pour être séché au four et moulu en farine pour des fins comestibles, ou moulu en farine pour cet objet, savoir :—

1. Il est nécessaire que le maïs sur lequel le drawback est demandé, lorsqu'il est moulu en farine ou la farine provenant de ce maïs, ait été virtuellement séché au four en Canada (selon l'interprétation ordinaire du terme "séché au four"); et le fait que ce séchage au four a eu lieu doit être prouvé à la satisfaction du ministre des Douanes, et nul procédé partiel de séchage ou procédé autre que le séchage au four ne suffira pour donner droit au réclamant de bénéficier du drawback, dans le sens des présents règlements.

2. Le réclamant pour drawback sur ce maïs devra, avant de pouvoir le recevoir, prouver conclusivement quand, où et par qui ce maïs a été importé et déclaré à l'entrée, le montant des droits payés sur ce maïs, son parfait séchage au four avant d'être moulu, ou de la farine en provenant après mouture ; que ce maïs a été spécialement moulu pour des fins comestibles, et qu'il en a disposé ou en disposera pour telles fins seulement et nulle autre. Il prêtera aussi serment sur cette réclamation en la forme ci-dessous :—

"Je de jure solennellement par les présentes que depuis le jour de 189 , j'ai fait moudre spécialement pour des fins comestibles boisseaux de maïs, au moulin situé à ; que ce maïs a été aussi, avant d'être moulu (*ou la farine provenant de ce maïs, selon le cas*) par ou pour moi, et sous ma direction, séché au four ; qu'il est entièrement resté dans le four pas moins de heures, et que durant tout ce temps il a subi une chaleur suffisante pour le sécher au four.

"Que je n'ai pas sciemment permis, ni ne permettrai sciemment qu'aucune partie de cette farine provenant du maïs sur lequel un drawback peut être accordé, de sortir de ma possession ou de mon contrôle, sauf dans le but d'être employé comme comestible, ni ai-je connaissance qu'aucune telle farine a été ou est destinée à être employée pour d'autres fins, et que si j'apprends ou ai raison de croire qu'en aucun temps après qu'elle est sortie de ma possession ou contrôle, ou aucune partie d'icelle, elle a servi à d'autres fins que des fins comestible j'en informerai immédiatement les autotités douanières.

"De plus, je jure solennellement que les boisseaux de maïs ici mentionnés ont été déclarés à la douane au port de par le jour de 189 , et que de droits ont été payés sur ce maïs d'après l'entrée n° ; qu'aucun drawback n'a été jusqu'à présent réclamé ou payé sur icelui, et je réclame maintenant un drawback de 90 pour 100 (90%) du droit payé sur ce maïs en vertu du statut et des règlements à cet égard, se montant à

Signé et assermenté devant moi,
à ce
jour d 189 .

3. Toute personne qui obtient un drawback sur du maïs importé au moyen de fausses déclarations ou autres moyens irréguliers, ou qui, après avoir reçu ce drawback, applique cette farine de maïs ou aucune partie d'icelle à d'autres fins que des fins comestibles,—ou qui permet ou connive à cette application par aucune autre personne, ou toute personne qui a acheté cette farine de maïs de l'importateur ostensiblement pour fins comestibles et ensuite emploie ou permet à une autre personne d'employer cette farine de maïs à d'autres fins, ou sciemment vend ou dispose de cette farine de maïs à une autre personne dans le but d'être employée autrement que pour des fins comestibles, seront passibles des peines décrétées par l'Acte des douanes pour infraction aux lois du revenu.

Je suis, monsieur,
Votre obéissant serviteur,
Secrétaire.

## HOTEL DU GOUVERNEMENT À OTTAWA,

Samedi, le 7e jour de juin 1890.

PRÉSENT :

## SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

Il plait à Son Excellence, en conformité des dispositions de l'item un de l'article 10 de l'Acte 53 Victoria, chapitre 20, intitulé " Acte modifiant les actes relatifs aux droits de douane," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'établir les règlements suivants concernant le mode de déterminer la force de l'acide acétique et pyroligneux et du vinaigre, importés, et ces règlements sont en conséquence par le présent établis, savoir :

1. Des échantillons d'environ une roquille chacun, pris au hasard d'un colis sur dix si ce sont des barils, ou d'un sur vingt si ce sont d'autres colis, de toutes importations d'acide acétique et pyroligneux et de vinaigre imposables en vertu de l'item un de l'article 10 de l'acte précité, seront soumis à l'épreuve, et le résultat déterminera le montant des droits payables sur iceux.

2. L'épreuve sera faite aux ports et par les employés que le ministre des Douanes indiquera, et de la manière ci-dessous, savoir :—

3. Une solution étalon de sodium hydrate (Na H.O.) d'une force telle que deux volumes de cette solution puissent neutraliser exactement un volume de cet acide ou vinaigre lorsqu'il est de la force étalon de preuve, sera de temps à autre fournie par le ministre des Douanes aux employés qu'il chargera du devoir d'éprouver la force de ces acides ou vinaigre, ainsi que deux burettes spécialement graduées et tels autres appareils qui lui paraîtront nécessaires, ainsi qu'une solution de phénol-phtaléine qui servira d'indicateur.

4. Les employés auxquels seront confiées ces solutions les garderont toujours dans des bouteilles bien bouchées, dans un endroit frais, et toute partie de la solution de soude une fois sortie de la bouteille ne devra pas y être remise.

5. La plus courte des deux burettes fournies sera employée pour l'acide ou le vinaigre, et la plus longue pour la solution de soude. Elles seront toujours gardées parfaitement nettes, et immédiatement avant de s'en servir chacune devra être rinsée avec une petite quantité de l'acide, du vinaigre ou de la soude qui doit y être versé,—on doit veiller soigneusement à ce que ces rinçures ne se mélangent pas avec la solution qui sert à faire l'épreuve.

6. La burette à l'acide ou vinaigre sera alors remplie de l'échantillon à éprouver jusqu'à environ un pouce plus haut que la ligne 0 supérieure, et soigneusement soutirée jusqu'à la ligne 0 en bas au moyen du robinet à pression par le tube en caoutchouc, le fond du ménisque ou ligne courbe du liquide touchant exactement la ligne lorsque l'œil est au même niveau.

Le soutirage doit être fait avec précaution et de manière à assurer l'exclusion de toutes bulles d'air du tube de caoutchouc tant au-dessous qu'au-dessus du robinet à pression. Une légère pression avec le pouce et le doigt les fera remonter à la surface.

7. L'acide ou vinaigre sera alors tiré avec précaution dans le récipient jusqu'à ce que le fond du ménisque touche la ligne 3 supérieure.

Alors à la quantité ainsi tirée dans le récipient, on ajoutera de l'eau distillée en quantité presque égale à celle de l'acide ou vinaigre si cet acide ou vinaigre paraît faible ou d'une couleur pâle, et une plus grande quantité proportionnément à sa force apparente ou supposée, employant pour l'acide très fort ou le vinaigre d'une couleur foncée quatre ou cinq fois son volume, la quantité exacte étant d'aucune conséquence.

8. A l'acide ou vinaigre ainsi réduit ajoutez alors soigneusement au moyen d'une petite pipette, dix gouttes de phénol-phtaléine, et brassez le mélange soigneusement avec une tige de verre ou remuez-le par un mouvement rotatoire de manière à obtenir un mélange parfait avec l'acide ou le vinaigre dilué.

9. La grande burette sera remplie de la même manière avec la solution de soude, en prenant les mêmes précautions pour exclure les bulles d'air, etc.

10. La solution de soude sera alors soigneusement et lentement tirée dans le récipient contenant le

mélange d'acide ou vinaigre et de phénol-phtaléine, le contenu du récipient étant constamment brassé avec la tige de verre ou agité par un mouvement rotatoire de façon à obtenir un mélange parfait de la solution avec le contenu du récipient, la vue étant constamment fixée sur le contenu du récipient afin de découvrir les premiers signes d'une proche neutralisation de l'acide y contenu, ce qui est indiquée par l'apparence instantanée d'une couleur rouge-pourpre distincte quoique passagère sur la surface du contenu du récipient au point que la soude touche en tombant.

Ici il faut beaucoup de soin, et la solution de soude doit être versée goutte à goutte jusqu'à ce que l'addition d'une seule goutte ait l'effet de donner à tout le contenu du récipient une couleur rouge pourpre qui ne disparaît pas lorsqu'on le brasse ou agite, mais reste permanente.

11. La quantité de la solution de soude ainsi employée d'après les marques graduées sur la burette indique la force de l'acide ou du vinaigre ; ainsi, si la quantité employée est moindre que 6 sur l'échelle, l'acide ou le vinaigre est au-dessous de preuve tel que défini par l'item de l'acte précité ; si la quantité employée est 6 sur l'échelle, l'échantillon est exactement de la force de preuve ; si la quantité employée est 7 sur l'échelle, l'échantillon est un degré au-dessous de preuve, et ainsi de suite, les chiffres sur l'échelle indiquant le degré exact de force.

12. Afin de vérifier l'épreuve, l'acide ou vinaigre restant dans la burette sera alors soigneusement diminué jusqu'à la ligne 0 inférieure, et le contenu alors soutiré de cette ligne jusqu'à la ligne 3 inférieure dans le contenu du récipient, un peu plus d'eau distillée et cinq gouttes de phénol-phtaléine ajoutées, et la solution de soude encore ajoutée comme plus haut, et s'il ne faut que la même quantité de solution de soude ou un excédant de pas plus de deux gouttes pour ramener la couleur rouge-pourpre permanente, l'épreuve sera considérée satisfaisante, et le résultat établira le droit payable en vertu du dit item du dit article 10 de l'acte précité.

Il plait aussi à Son Excellence d'ordonner que l'arrêté en conseil du 27e jour de juin 1884, ainsi que l'article 4 du chapitre 13 des arrêtés en conseil refondus datés le 25 juillet 1888, établissant le type pour le vinaigre importé, sera et il est par le présent annulé.

Greffier du Conseil privé.

## HOTEL DU GOUVERNEMENT À OTTAWA.

Mercredi, le 11e jour de juin 1890.

PRÉSENT :

## SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT qu'il sort maintenant de l'estacade de la Gatineau une espèce de bois appelée “ bois à pulpe ” pour laquelle il n'est pas établi de taux de péage par le tarif, et vu que ce bois est acheté et vendu à la corde (128 pieds cubes) et mis en radeau par rangées de 4 et 5 pièces de hauteur, ce qui rend impossible d'obtenir le nombre exact de pièces, il semble raisonnable que des péages soient imposés sur ce bois à tant par corde,—

En conséquence, il plait à Son Excellence, en vertu de l'autorité qui lui est conférée par “ l'Acte des travaux publics,” chapitre 36 des Statuts revisés, et par et avec l'avis du Conseil Privé de la Reine pour le Canada, d'imposer et autoriser la perception d'un péage au taux de huit (8) centins par corde sur le bois à pulpe sortant de l'estacade de la Gatineau, et ce péage est par le présent imposé et autorisé, et sera prélevé de la même manière et avec les mêmes pouvoirs que les autres droits sur les autres espèces de bois, et le mesurage sera établi par affidavit qui sera fourni sur demande au percepteur des droits de glissoires et d'estacades, et qu'il exigera soit du fabricant ou de l'acheteur.

JOHN J. McGEE,
Greffier du Conseil privé.

## DEMANDES AU PARLEMENT.

### RÈGLES RELATIVES AUX AVIS DE BILLS PRIVÉS.

Dans le cas de toute demande de bill privé, proprement du ressort législatif du Parlement du Canada, suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, et ayant pour objet, soit la construction d'un pont, d'un chemin de fer, d'un chemin à barrières ou d'une ligne télégraphique ; soit la construction ou l'amélioration d'un port, d'un canal, d'une écluse, d'une digue ou d'une glissoire ou autre ouvrage semblable ; soit la concession d'un droit de passage d'eau, l'incorporation de professions ou métiers, ou d'une compagnie de banque ou autre compagnie par actions, soit la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, soit le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement de même nature à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande, et signé (excepté s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit :

*Dans les provinces de Quebec et du Manitoba.*

Un avis doit être inséré dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

*Dans les autres provinces ou territoires.*

Un avis doit être inséré dans la *Gazette du Canada*, et et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie.

La publication de ces avis durera, dans chaque cas, la période de deux mois pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Un exemplaire des numéros des journaux, reproduisant la première et la dernière insertion de l'avis, devra être transmis au greffier de chaque Chambre.

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, le pétitionnaire ou les pétitionnaires devront, en même temps qu'ils donneront l'avis prescrit par la règle précédente, donner aussi, de la même manière, avis des péages qu'ils entendent exiger, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piliers pour le passage des radeaux et des navires ; et mentionner de plus s'ils se proposent de construire un pont mobile, et quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Il en sera imprimé 600 exemplaires en anglais et 200 en français ; la traduction devra être faite par les officiers de la Chambre, et l'impression par l'entrepreneur des impressions. Le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) une somme de $200, plus le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé—le dit paiement sera effectué immédiatement après la seconde lecture avant la prise en considération du bill par le comité.

L'honoraire payable sur tout bill privé, ne sera payé que dans la Chambre où il a pris naissance.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par l'une ou par l'autre Chambre après les dix premiers jours de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.
JOHN GEORGE BOURINOT,
Greffier des Communes.

### RÈGLES ADDITIONNELLES DE LA CHAMBRE DES COMMUNES CONCERNANT LES BILLS PRIVÉS.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle adopté par la Chambre, le 23 juin 1887, dont copie peut être obtenue du greffier de la Chambre ;

(*a*.) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression.

(*b*.) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets ;

(*c*.) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer

à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(*a.*) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés, dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait ;

(*b.*) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

JOHN GEORGE BOURINOT,
Greffier des Communes.

SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré, durant trois mois, entre l'expiration de la dernière session parlementaire avant l'avis et la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district ; autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire, faite en vertu de "l'Acte concernant les serments extra-judiciaires."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $200.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

"The present arrangement shall have the same duration as the Convention of Extradition to which it relates.

"In witness whereof the undersigned His Excellency the Earl of Lytton, Her Britannic Majesty's Ambassador at Paris, and His Excellency M. Spuller, Minister for Foreign Affairs of the French Republic, have prepared the present arrangement, and have affixed thereto their seals.

(*a*.) Square and waney or board timber, shall be denominated square timber, and shall be charged for by the crib, and in the case of any such timber passing any of the works otherwise than in cribs—a number of pieces sufficient, in the discretion of the Collector or any Deputy duly authorised by him, to make an ordinary sized crib (not however to exceed one thousand cubic feet) shall be counted as one crib.

(*b*.) Round timber of from 12 to 16½ feet in length, commonly called "Saw-Logs" shall be charged for by the piece, or when that is not provided for by the tariff or any amendment subsequently made thereto, then sixty saw-logs shall be held to be equivalent to one crib of timber and shall be charged accordingly.

(*c*.) Flatted, round or partially hewn timber, under 13 inch mean diameter from bark to bark, shall be charged for when cribbed at half square timber rates, and when driven loose shall be charged each piece as a saw-log.

(*d*.) Flattened, round or partially hewn timber of 13 inches and upwards in mean diameter from bark to bark (commonly known as dimension timber) shall be computed into saw-logs of 15 feet in length and charged for accordingly.

(*e*.) Railway ties of eight feet in length and under shall be computed at the rate of five to a saw-log and shall be charged for accordingly.

(*f*.) Other wood goods shall be charged for at the discretion of the Collector, at such proportionate rates as would be chargeable under these regulations against the class of goods to which they are most nearly allied.

(*g*.) In dealing with sawn lumber one hundred and fifty superficial feet board measure shall be deemed to be equivalent to one saw-log.

2. No timber, saw logs, lumber or other wood goods shall be removed beyond a radius of three miles beyond the Chaudière Suspension Bridge, unless payment of

tolls and dues thereon has been first made or secured to the satisfaction of the Collector of tolls and dues, and any such goods so removed upon which the said tolls and dues remain unpaid within 34 hours after having been so removed may be detained by the Collector, under authority of the fourth section of the Act hereinbefore cited, and the Collector shall forthwith report the same to the Minister of Public Works and may retain such goods until the slidage dues and all costs and expenses shall have been paid, unless otherwise ordered.

Every saw mill owner or person in charge of or operating a saw mill, and every other person dealing in timber, saw-logs, sawn timber or other wood goods, shall furnish to the Collector of tolls and dues on or before the 30th day of September in each year, a statement upon oath or solemn declaration under the statute in that behalf and upon a printed form which will be furnished by the Collector on application, showing the undermentioned particulars as to all such goods made or acquired by him excepting square timber sent in rafts to Quebec, during the preceding lumbering season and up to the said date or from the end of the period covered by the last preceding report under this or the following section, and on or before the 15th day of November in each year, a similar statement as to all such goods made or acquired by him subsequent to the 30th day of September or date of previous return. Such statements or returns shall describe in detail all goods comprised therein, setting out as to such goods respectively the following particulars :—

Whether the same was made by the party furnishing the return or were purchased by him from others, and if made by himself, the name of foreman employed by him, and if purchased, the name of the vendor ;

The river or stream from which the same come ;

Where the same are at the time of the return ;

The slides, booms or other works used by them ;

As nearly as possible the length and mean diameter thereof (excepting saw-logs and square timber) and such other particulars as may be required by the printed form of return to be furnished by the Collector.

Any person making default under this section shall, subject to the limitation provided by section three of the said Act, incur and pay a penalty of ten dollars a day for each of the first thirty days of such default, and for each day thereafter a penalty of twenty-five dollars.

7. The dues for tolls on all slides and works shall bear interest at and after the rate of seven per cent. per annum from the 30th day of November of the year in which such dues shall have accrued, without prejudice to the right of the Crown to enforce payment at any prior date after the works have been used.

### HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, under the authority conferred upon him by the 2nd section of the Act 52 Victoria, chapter 23, intituled "An Act further to amend 'The Steamboat Inspection Act,' chapter 78 of the Revised Satutes," and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the following sections of the Rules and Regulations relating to the Inspection of Boilers of Steamboats, established by the Order in Council of the 17th day of September, 1889, that is to say, sections 44 and 45, and sections 92 to 102, the last named section being included, shall be and the same are hereby rescinded, and that the following rules and regulations relating to safety valves which are practically in accord with similar rules in force in the United Kingdom, shall be and they are hereby substituted therefor.

JOHN J. McGEE,
Clerk, Privy Council.

---

### RULES RELATING TO THE INSPECTION OF SAFETY VALVES.

44. (*a.*) After the following rules come into operation, every boiler made or placed on board a steamboat shall be fitted with two or more lock-up safety valves of a construction approved by the Board of Steamboat Inspection, or by the Chairman, if the Board is not then in session ; the aggregate area of said lock-up safety valves shall not be less than that given in the following tables opposite the boiler pressure intended, the safety valves should be upon the boiler, or as near the boiler as practicable without pipes, cocks, valves or other possible obstructions between the safety valves and the boiler.

Every inspector, when inspecting, visiting or examining the boiler or machinery of any steamboat, shall

satisfy himself that the safety valves attached thereto are of suitable dimensions, sufficient in number, well managed and in good working order, and only loaded so as to open at or below the certified working pressure; and he may, if he thinks proper, order and cause two or more of such safety valves (which together shall be of sufficient dimensions to discharge all the steam the boiler can generate, and of such construction as he approves) to be locked up and taken wholly away from the control of the engineer when the steam is up; but the engineer shall have access to the safety valves when the steam is not up, and shall see that they are kept in working order, and the master of the steamboat shall see that the engineer has access to them for that purpose, and keeps them in proper working order.

The cocks and valves attached to the boilers shall be substantially made, and in no case shall they be attached to the boilers by screwing into the plate, unless, as an additional security, bolted flanges are used in addition to such attachment.

No valve, under any circumstances, shall, at any time, be so loaded or so managed in any way, as to subject a boiler to a greater pressure than that allowed by the inspector at the then last inspection thereof:

Every safety valve made or placed on board of a steam-boat and attached to a boiler shall have a lift equal to at least one-fourth of its diameter; the openings for the passage of steam to and from the valve shall each have an area not less than the area of the valve, as shall also the waste steam pipe, and the valve box shall have a waste water pipe; if the lever of a lever safety valve is not bushed with brass the pin shall be of brass,—iron and iron working together shall not be allowed; every such safety valve shall be fitted with lifting gear so that it can be worked by hand, either from the engine room or the fire hold, or by the master or person in charge on deck;

(*b.*) Safety valves should not be passed of a diameter less than two inches, except in the case of small boilers where the area of grate surface is less than fifteen square feet, when safety valves of less diameter may be used, but in no case shall their diameter be less than one inch, and provided they are of approved construction, and the proportion of area of safety-valve to area of grate be complied with as given by the tables of safety-valve areas.

(*c.*) The grate area shall be ascertained by measuring the length of the grate from the inner edge of the dead plate to the front of the bridge and the width from side to side of the furnace on top of the bars at the middle of their length.

(*d.*) The safety-valve should be tested (by the Inspector) on new boilers, or on other boilers if he wishes to test their efficiency, under full steam and full fires, for at least 15 minutes with the feed water shut off and stop-valve closed, if the accumulation of pressure exceed 10 per cent. of the loaded pressure, he should not issue a certificate without reporting to the chairman full particulars of the test, and the strength pressure of the boiler with sketch of safety-valve, and in no case is an Inspector to give a certificate for safety-valves, unless he has examined them and is acquainted with the detail of their construction.

45 (*a.*) Inspectors are instructed that in all new boilers and whenever alterations can be easily made, the valve chest should be placed directly on the boiler, and the neck or part between the chest and the flange which bolts on to the boiler should be as short as possible.

(*b.*) In any case in which an Inspector is of opinion that it is positively dangerous to have a length of pipe between the boilers and the safety-valve chest, he shall at once insist on the requisite alterations being made before granting a certificate.

(*d.*) If lever safety-valves are used the distance between the centre of the fulcrum should not be less than the diameter of the valve.

(*e.*) Safety valves must be placed in convenient and accessible places, that their adjustment and examination may be readily and efficiently made. The inspector in his examination of the boilers and machinery is particularly to direct his attention to the safety valves, and whenever he considers it necessary he is to satisfy himself as to the pressure on the boiler by actual trial. The inspector is to examine the safety valves, weights and springs at every inspection.

(*f.*) The valve seats should be secured so that they cannot lift with the valve.

(*g.*) The spindle should be so attached to the valve, that when the spindle is lifted the valve will also lift.

(*h.*) The size of the steel of which the spring is made in spring safety valves is found by the following formula taken from the Imperial Board of Trade Rules:—

$$\sqrt[3]{\frac{S \times D}{c}} = d$$

$c$ = 8000 for round steel.
$c$ = 11000 for square steel.
$S$ = The load on the springs in pounds.
$D$ = The diameter of the spring (from centre to centre of the wire in inches).
$d$ = diameter, or side of square, of the wire in inches.

The spring should be protected from the steam and impurities issuing from the boiler, and in case of the spring breaking means be provided to keep it in position on the valve.

(*i.*) A standard spring if made of the best square cast steel contains ·25 of a square inch, the inside diameter is two inches, and the outside diameter is three inches, it has thirteen complete coils with the ends and is $11\frac{1}{2}$ inches long. The working load is assumed at 600 lbs., one-sixth of its breaking load when hardened to a temper, just sufficient to break it, at which load it should deflect just one inch.

(*j.*) To find the sectional area of any other spring the pressure or weight on the valve being given:—

600 : : 700 : ·25 : ·29 = sectional area of spring at 700 lbs. load. The other dimensions of the spring would be in like proportion, the number of coils thirteen being constant.

## AT THE GOVERNMENT HOUSE AT OTTAWA.

The 5th day of July, A.D. 1890.

PRESENT :

## HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON the recommendation of the Minister of Inland Revenue, and under the provisions of Chapter 104 of the Revised Statutes of Canada, intituled "The Weights and Measures Act,"—

His Excellency in Council has been pleased to order, and it is hereby ordered, that the following regulations for the governance of the inspection of weights and measures be, and the same are hereby made and established :—

### REGULATIONS RESPECTING WEIGHTS AND MEASURES.

Section 1. The following balances are to be admitted to verification :—

A. Balances having equal arms, and on which the load is suspended below the fulcrums.
B. Balances commonly known as steelyards, or Roman balances, having unequal arms.
C. Weigh-bridges.
D. Balances with equal arms, and on which the load is placed above the fulcrums.
D 1. Hydrostatic balances for weighing coal.
D 2. Perfection scales.
D 3. Duplessis portable track scales.
D 4. Household scales.
D 5. Spafford improved platform counter scales.

Sec. 2. A. Balances with equal arms are only to be admitted to verification when :—

1. The beam shows no material difference as regards the form or magnitude of the two arms.

2. It is provided with a tongue pointing upwards or downwards from its centre, at right angles with a line joining the extreme bearings, or with some equivalent arrangement for indicating the position of the equilibrium.

3. It is in equilibrium when a line joining the extreme bearings is perfectly horizontal, and returns to that position after being put into vibration.

4. Its arms are equal within the specified limit of error.

5. The balance is sufficiently sensitive to be turned decidedly and promptly by the addition or withdrawal of so much of the load as represents the error tolerated by regulations in a commercial weight representing the load.

6. No balance balls or detached parts other than the pans and connections necessary for attaching them to the beam are used for adjusting the balance.

7. The balance, as a whole, is of sufficient strength, and on a sufficiently stable base, to secure it against change of form or position under the maximum load it is to carry.

8. The beam will carry its maximum load without deflection.

9. The maximum load for the weighing of which it is to be used is distinctly engraved or marked on the beam.

10. The knife edges are permanently fixed to the beam.

Sec. 3. B. Balances commonly known as *steelyards* or Roman balances, having unequal arms, are only to be admitted to verification when :—

1. There is sufficient room for oscillation, and the knife edges on which the beam oscillates are sufficiently fine to permit it to move freely.

2. The beam is sufficiently strong to carry its load without deflection.

3. The bottom of the notches by which the divisions of the long arm of the lever are indicated, and from which the weight is suspended, are in close approximation to a right line drawn through the knife-edges forming the points of suspension, and when such straight line passes near to and a little above the centre of gravity of the whole apparatus.

4. The divisions on the long arm of the lever are equal among themselves.

5. The weight used with the lever—if it is changeable or can be readily detached therefrom—is some multiple or sub-multiple of the pound avoirdupoids, and has distinctly marked on it its true weight.

6. The maximum weight intended to be weighed on it is either distinctly marked on the beam or indicated by its construction.

Sec. 4. C. Weigh-bridges, hay scales and platform scales will only be admitted to verification when :—

1. The foundation or supporting base is sufficiently firm, and capable of carrying without change of level or of form or other disturbance, the maximum load for which it is to be used.

2. If movable from place to place, some satisfactory arrangement, such as a level or plummet, is provided and permanently attached, for indicating whether the machine is perfectly level.

3. The platform is so arranged that any obstruction to its free movement can be easily detected.

4. All the beams, levers and other parts are of sufficient strength to carry the maximum load to which they will be respectively subjected without deflection.

5. The knife-edges are firmly and permanently fixed in the levers, have sufficient room to permit free oscillation, and are sufficiently firm.

6. The knife-edges and fulcrums of each set of levers are in the same plane.

7. The oscillations are sufficiently evident.

8. The weights used with the instrument are equal to the avoirdupois pound, or to multiples or authorized sub-multiples of the avoirdupois pound, or special weights for the barrel of flour or for the bushel of wheat, their actual weight and the weight or special quantity they are intended to indicate on the scale being plainly marked thereon.

9. The weights used as above are a decimal sub-multiple, as $\frac{1}{10}$, $\frac{1}{100}$, $\frac{1}{1000}$, or a binary sub-multiple as $\frac{1}{2}$, $\frac{1}{4}$, $\frac{1}{8}$, &c., of the load indicated by them.

10. There are no detached parts for the adjustment of the balance accessible, or so placed that they can be used for fraudulent weighing.

11. The apparatus indicates the same weight, whether the load is placed in the centre of the platform, on one side of it, or at either corner.

12. The maximum load which the apparatus is intended to weigh and the maker's name and shop number are conspicuously marked on some essential part of it.

### *Platform Scales, Weigh-bridges, and Balances with Unequal Arms.*

Sec. 5. All these weighing machines will be rejected:

1. When with a full load, and truly balanced, the movement of the lever-weight one "notch" or division on the graduated lever, in either direction, does not cause the lever to turn decidedly in accordance with such movement.

2. When, with a full lood, or with any less load, and with the balance in equilibrium, the addition or removal of one two-thousandth part of the load, to or from the load, does not turn the lever decidedly in accordance with such addition or removal.

3. When the maker's name, shop number and maximum capacity are not legibly engraved or stamped on them. And when the knife-edges are not made of properly tempered steel, and the bearings of the same material or of chilled or case hardened malleable iron. (This clause applies as well to balances with equal arms.)

4. When unprovided with check-rods to hold the bearings in place.*

Sec. 6. D. Balances with equal arms, and on which the load is carried above the fulcrums, will only be admitted to verification when:—

1. There are no material difference as to the magnitude or arrangement of the two arms.

2. Its arms are of equal length, within a limit of error equivalent to that tolerated in commercial weights.

3. There are no balance balls, loose counterpoises or detached parts other than the pans necessary for carrying the load weighed, and the weights used for weighing it.

4. Its parallel rods, guides, levers and pivots, by which the adjustment of the scale is affected, are so constructed that they cannot be put out of adjustment without the use of violence, which may be readily detected on inspection.

5. The knife edges or fulcrums of each set of levers or guide-rods are in the same plane.

6. The balance is sufficiently sensitive to turn decidedly and promptly by the addition and withdrawal of so much of the load as is equivalent to the error tolerated in commercial weights.

7. When there is a tongue or pointer, or some equivalent arrangement for showing when the balance is in equilibrium.

D1. Weighing machines known as "hydrostatic balances," being such as are commonly used for determining the weight of coals delivered at the pit mouth, may be verified for use for such purposes, and also for weighing coals as delivered from vessels and barges, provided they give true indications within one two-hundredth part of the load.

D 2. Weighing machines known as "Perfection Scales," when manufactured in accordance with specifications deposited in Patent Office at Ottawa, may be admitted to verification when found to weigh correctly.

D 3. Weighing machines known as "Duplessis Portable Track Scales" used for determining the weight of cars on railway tracks may be admitted to verification for use for such purposes, provided they give indications within one four-hundredth part of the load.

D 4. A weighing machine known as the "Household Scale," a balance with equal arms to carry a load above the fulcrums of not more than ten (10) pounds in each pan. In its construction and verification it must in every respect comply with the requirements of Paragraph D, above. The words "Household Scale" must be engraved or stamped in bold legible letters of not less than one-fourth of an inch in height, on some conspicuous part of each scale so that at a glance its classification may be known. This scale shall be used for household purposes only, and should any such scale be found in use for trade purposes of any description it shall be seized and confiscated by an inspecting officer, and the fee for the verification of the above described "Household Scale, D 4," shall be ten (10) cents for each scale.

D 5. A scale known as the "Spafford Improved Platform Counter Scale," and all scales of similar construction as regards the scoop counterpoise, are also added to the schedule of scales to be admitted to verification.

No balances other than such as will come within the conditions under one or other of the heads, A, B, C or D, are to be verified or stamped.

### *Weights and Measures—Regulations.*

Sec. 7. E. Verification and stamping of weights, measures and weighing machines on the premises of the manufacturer, and their removal therefrom.

1. The article shall bear the name of the maker, capacity and consecutive shop-number or other marks whereby it may be designated for identification, with the certificate of verification.

2. The verification and stamping must take place before the articles are packed for removal, and at that state of completion at which they are finally adjusted by the manufacturer.

3. For the first verification and stamping of weights, measures and weighing machines at the place where they are manufactured, the fees may be paid at once, or payment may be postponed for such period not exceeding three months as the Minister of Inland Revenue may authorize. Sufficient security being taken for the payment thereof at the time stated in the Departmental Regulations under which the delay is granted.

Sec. 8. F. Weights, measures and weighing machines imported into Canada are to be dealt with as follows:—

1. The Collector of Customs at the port where such articles are imported will notify the nearest inspector or assistant inspector of weights and measures of the entry for consumption of any weights, measures or weighing machines at his port, which notice will state the number and description of such articles as are invoiced, and the names and residence of the parties to whom they are delivered.

2. So long as such articles remain in the original packages they may be removed from the Custom house or from a Customs warehouse to the premises of the importer without inspection.

Sec. 9. G. Nothing in these regulations, nor in any previous regulations is to be construed as preventing the importation, manufacture or removal of and setting up, before they are verified, of dormant* scales or weigh-bridges of any description, coming within the requirements of the law, but which cannot be used nor properly verified until they are placed on a fixed foundation. But it shall be the invariable duty of the manufacturer or importer of such weighing machines to duly notify the inspector of weights and measures nearest to his place of business, of the shipment and destination of each of such articles; and said manufacturer or importer shall be held responsible for its verification before being used for trade purposes.

Any trader not being a manufacturer of, or dealer in, such weighing machines, who imports such articles for his own use, shall be considered an importer, and therefore subject to the above regulations.

Sec. 10. H. 1. Iron weights of the denomination of half a pound or under may be admitted to verification, provided they are of such substance that a soft metal plug on which the stamp may be impressed, can be securely fixed therein, and when such soft metal plug is so fixed in them by the parties who present them for verification; but,—

2. When any iron weight is presented for verification, or when any such weight is found in use from which a soft metal plug has been lost, it shall not be adjusted or restamped until the hole in which the plug was inserted has, in the presence of the Inspector, been enlarged at the bottom, so that the expansion of the lead used for adjusting it will prevent it subsequently falling out.

---

* Note.—Nothing in the above 4th section shall apply to weighing machines constructed on the *Howe* principle.

* The term "*dormant*," shall be understood to cover only such weighing-machines as weigh-bridges, hay and track scales, or such weighing-machines only as require to be placed on a specially prepared foundation.

I. (By Order in Council of 7th June, 1890, Clause I, of the Order in Council of the 22nd day of July, 1886, and Section 15 of Chapter 42 of the Consolidated Orders in Council dated 9th January, 1889, admitting Grain Testers to verification, are cancelled.)

Sec. 11. J. Salt carts, each to contain four imperial bushels, constructed, as to form and dimensions, in accordance with plan or drawing of the same to be attached to weights and measures regulations, shall be admitted to verification.

2. Salt carts made in any other form or according to other dimensions than the foregoing will not be admitted to verification, and consequently their use for trade purposes will be held to be illegal.

3. The fee chargeable for verifying and stamping each salt-cart shall be one dollar.

### INTERPRETATION.

"Lake or River Service" refers to service on the inland waters which must have been performed in a capacity not lower than 3rd engineer on a steamer having an aggregate piston area of not less than 2,000 circular inches, 2 months of such service being considered only as equivalent to one month's actual sea service.

"Coasting Trade" refers to service in steamships plying between any port or place in Canada, and any other port or place in Canada, not being a port or place on the inland waters. Service in the coasting trade must amount to half as much again as service in the foreign trade.

"Workshop service" refers to an apprenticeship to an engineer, or as a journeyman mechanic employed in a factory, or workshop, making and repairing steam engines.

"Engineer on the watch" refers to the actual charge of the propelling engines, responsible for the bells, and in a capacity which affords opportunity of obtaining practical experience as an engineer. Service in the capacity of greaser, or fireman, will not be accepted.

"Sea service" or "Foreign Trade" refers to service in steamships engaged in the foreign sea trade, and plying between some port or place in the Dominion, and some port or place outside the Dominion, not being a port or place on any of the inland waters.

### ARRÊTÉ EN CONSEIL.

### EXTRADITION ENTRE LA GRANDE-BRETAGNE, LA FRANCE ET LA TUNISIE.

—

AU CHATEAU DE WINDSOR,
1er mai 1890.

PRÉSENTS :

Sa Très Excellente Majesté la REINE.
Le lord Président,
Le comte de Coventry,
Le comte de Limerick.

CONSIDÉRANT que par les *Actes d'Extradition*, 1870 et 1873, il est statué, entre autres choses, que chaque fois qu'un arrangement aura été conclu avec un Etat étranger au sujet de la reddition à cet Etat des criminels fugitifs, Sa Majesté pourra ordonner par arrêté en conseil que les dits actes s'appliqueront à l'égard de l'Etat étranger en question ; et que Sa Majesté pourra, par le même ou par un arrêté subséquent, restreindre l'opération du dit arrêté et limiter son application aux criminels fugitifs qui se trouvent ou sont supposés se trouver dans la partie des possessions de Sa Majesté spécifiées dans l'arrêté, et en rendre l'exécution sujette aux conditions, exceptions et restrictions qui pourront être jugées convenables ; et que si, par quelque loi adoptée après la sanction de l'Acte de 1870 par la législature de toute possession britannique, il est pourvu à l'extradition des criminels fugitifs qui se trouvent ou sont soupçonnés se trouver dans cette possession britannique, Sa Majesté pourra, par un arrêté en conseil, appliquer les dits actes à l'égard de tout Etat étranger, ou par tout arrêté subséquent suspendre la mise en opération, dans toute telle possession britannique, des dits actes ou de toute partie de ces actes, en tant qu'ils se rapportent à cette puissance étrangère, et aussi longtemps que ces lois continueront d'y être en vigueur, mais pas plus longtemps ;

Et considérant que dans un acte du parlement du Canada, passé en 1886, intitulé " Acte concernant l'extradition de criminels fugitifs," il est pourvu à la reddition des criminels fugitifs qui se trouvent ou pourront se trouver au Canada ;

Et considérant que par un arrêté de Sa Majesté en conseil, en date du dix-septième jour de novembre mil huit cent quatre-vingt-huit, il est décrété que l'opération des Actes d'extradition de 1870 et 1873 sera suspendue au Canada tant que les dispositions du dit acte du parlement du Canada de 1886 continueront en vigueur et pas plus longtemps ;

Et considérant qu'un traité a été conclu le quatorzième jour d'août mil huit cent soixante-seize entre Sa Majesté et le Président de la République Française touchant l'extradition mutuelle des criminels fugitifs, dans le cas duquel traité les susdits actes du parlement ont été appliqués par un arrêté en conseil en date du seizième jour de mai mil huit cent soixante-dix-huit ;

Et considérant qu'un arrangement a été conclu le trente-unième jour de décembre mil huit cent quatre-vingt-neuf entre le gouvernement de Sa Majesté et le gouvernement de la République Française, agissant au nom du gouvernement de Son Altesse le Bey de Tunis, à l'effet d'étendre les dispositions du dit traité du 14 d'août 1876 à la Tunisie, lequel arrangement est ainsi conçu :—

" Le gouvernement de Sa Majesté Britannique d'une part, et le gouvernement de la République Française agissant au nom du gouvernement de Son Altesse le Bey de Tunis, de l'autre, en vue d'assurer autant que possible l'arrestation et la remise à la juridiction compétente des malfaiteurs qui cherchent à se soustraire par la fuite à l'action de la justice, sont convenus de ce qui suit :—

" Les dispositions de la Convention Franco-Anglaise du 14 août 1876, sont étendues à la Tunisie, sauf que le délai de quatorze jours stipulé par l'Article IX de la dite Convention est porté à deux mois.

" Le présent arrangement aura la même durée que la Convention d'Extradition à laquelle il se rapporte.

" En foi de quoi les soussignés, Son Excellence le comte de Lytton, Ambassadeur de Sa Majesté Britannique à Paris, et Son Excellence M. Spuller, ministre des Affaires Etrangères de la République Française, ont dressé le présent arrangement, et y ont apposé leurs cachets.

" Fait à Paris, le 31 décembre 1889.

" (L.S.) LYTTON,
" (L.S.) E. SPULLER."

C'est pourquoi Sa Majesté, par et de l'avis de son Conseil privé, et en vertu de l'autorité que lui confèrent les dits actes cités, ordonne et il est par le présent ordonné, que le et après le seizième jour de mai mil huit cent quatre-vingt-dix, les dits actes s'appliqueront dans le cas de la Tunisie, en conformité du dit arrangement avec la République Française.

Pourvu, toujours, et il est par le présent ordonné que l'opération des dits Actes d'extradition 1870 et 1873 sera suspendue dans la Puissance du Canada, en tant qu'il s'agit de la Tunisie et de la dite convention, tant que les dispositions de l'acte canadien de 1886 resteront en vigueur, et pas plus longtemps.

2-4 C. L. PEEL.

## HOTEL DU GOUVERNEMENT À OTTAWA.

Jeudi, le 12e jour de juin 1889.

PRÉSENT :

## SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

Il plaît à Son Excellence, en vertu du pouvoir qui lui est conféré par l'article 8 de l'acte 53 Victoria, chapitre 20, intitulé " Acte modifiant les actes relatifs aux droits de douane," et par et avec l'avis du Conseil privé de la Reine pour le Canada, de faire les règlements suivants concernant le drawback à être accordé sur le maïs importé pour être séché au four et moulu en farine pour des fins comestibles, ou moulu en farine pour cet objet, savoir :—

1. Il est nécessaire que le maïs sur lequel le drawback est demandé, lorsqu'il est moulu en farine ou la farine provenant de ce maïs, ait été virtuellement séché au four en Canada (selon l'interprétation ordinaire du terme " séché au four "); et le fait que ce séchage au four a eu lieu doit être prouvé à la satisfaction du ministre des Douanes, et nul procédé partiel de séchage ou procédé autre que le séchage au four ne suffira pour donner droit au réclamant de bénéficier du drawback, dans le sens des présents règlements.

2. Le réclamant pour drawback sur ce maïs devra, avant de pouvoir le recevoir, prouver conclusivement quand, où et par qui ce maïs a été importé et déclaré à l'entrée, le montant des droits payés sur ce maïs, son parfait séchage au four avant d'être moulu, ou de la farine en provenant après mouture ; que ce maïs a été spécialement moulu pour des fins comestibles, et qu'il en a disposé ou en disposera pour telles fins seulement et nulle autre. Il prêtera aussi serment sur cette réclamation en la forme ci-dessous :—

" Je                de                jure solennellement par les présentes que depuis le                jour de                189 , j'ai fait moudre spécialement pour des fins comestibles                boisseaux de maïs, au moulin situé à                ; que ce maïs a été aussi, avant d'être moulu (*ou la farine provenant de ce maïs, selon le cas*) par ou pour moi, et sous ma direction, séché au four ; qu'il est entièrement resté dans le four pas moins de                heures, et que durant tout ce temps il a subi une chaleur suffisante pour le sécher au four.

" Que je n'ai pas sciemment permis, ni ne permettrai sciemment qu'aucune partie de cette farine provenant du maïs sur lequel un drawback peut être accordé, de sortir de ma possession ou de mon contrôle, sauf dans le but d'être employé comme comestible, ni ai-je connaissance qu'aucune telle farine a été ou est destinée à être employée pour d'autres fins, et que si j'apprends ou ai raison de croire qu'en aucun temps après qu'elle est sortie de ma possession ou contrôle, ou aucune partie d'icelle, elle a servi à d'autres fins que des fins comestible j'en informerai immédiatement les autotités douanières.

" De plus, je jure solennellement que les                boisseaux de maïs ici mentionnés ont été déclarés à la douane au port de                par                le                jour de                189 , et que                de droits ont été payés sur ce maïs d'après l'entrée n°                ; qu'aucun drawback n'a été jusqu'à présent réclamé ou payé sur icelui, et je réclame maintenant un drawback de 90 pour 100 (90%) du droit payé sur ce maïs en vertu du statut et des règlements à cet égard, se montant à

Signé et assermenté devant moi,
à                ce
jour d                189 .

3. Toute personne qui obtient un drawback sur du maïs importé au moyen de fausses déclarations ou autres moyens irréguliers, ou qui, après avoir reçu ce drawback, applique cette farine de maïs ou aucune partie d'icelle à d'autres fins que des fins comestibles,—ou qui permet ou connive à cette application par aucune autre personne, ou toute personne qui a acheté cette farine de maïs de l'importateur ostensiblement pour fins comestibles et ensuite emploie ou permet à une autre personne d'employer cette farine de maïs à d'autres fins, ou sciemment vend ou dispose de cette farine de maïs à une autre personne dans le but d'être employée autrement que pour des fins comestibles, seront passibles des peines décrétées par l'Acte des douanes pour infraction aux lois du revenu.

## DEMANDES AU PARLEMENT.

### RÈGLES RELATIVES AUX AVIS DE BILLS PRIVÉS.

Dans le cas de toute demande de bill privé, proprement du ressort législatif du Parlement du Canada, suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, et ayant pour objet, soit la construction d'un pont, d'un chemin de fer, d'un chemin à barrières ou d'une ligne télégraphique ; soit la construction ou l'amélioration d'un port, d'un canal, d'une écluse, d'une digue ou d'une glissoire ou autre ouvrage semblable ; soit la concession d'un droit de passage d'eau, l'incorporation de professions ou métiers, ou d'une compagnie de banque ou autre compagnie par actions, soit la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, soit le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement de même nature à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande, et signé (excepté s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit:

*Dans les provinces de Quebec et du Manitoba.*

Un avis doit être inséré dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

*Dans les autres provinces ou territoires.*

Un avis doit être inséré dans la *Gazette du Canada*, et et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie.

La publication de ces avis durera, dans chaque cas, la période de deux mois pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Un exemplaire des numéros des journaux, reproduisant la première et la dernière insertion de l'avis, devra être transmis au greffier de chaque Chambre.

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, le pétitionnaire ou les pétitionnaires devront, en même temps qu'ils donneront l'avis prescrit par la règle précédente, donner aussi, de la même manière, avis des péages qu'ils entendent exiger, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piliers pour le passage des radeaux et des navires ; et mentionner de plus s'ils se proposent de construire un pont mobile, et quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Il en sera imprimé 600 exemplaires en anglais et 200 en français ; la traduction devra être faite par les officiers de la Chambre, et l'impression par l'entrepreneur des impressions. Le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) une somme de $200, plus le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé—le dit paiement sera effectué immédiatement après la seconde lecture avant la prise en considération du bill par le comité.

L'honoraire payable sur tout bill privé, ne sera payé que dans la Chambre où il a pris naissance.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par l'une ou par l'autre Chambre après les dix premiers jours de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.
JOHN GEORGE BOURINOT,
Greffier des Communes.

### RÈGLES ADDITIONNELLES DE LA CHAMBRE DES COMMUNES CONCERNANT LES BILLS PRIVÉS.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle adopté par la Chambre, le 23 juin 1887, dont copie peut être obtenue du greffier de la Chambre ;

(*a*.) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression.

(*b*.) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets ;

(*c*.) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le traité du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer

à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

*(a.)* Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés, dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait ;

*(b.)* Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

JOHN GEORGE BOURINOT,
Greffier des Communes.

SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré, durant trois mois, entre l'expiration de la dernière session parlementaire avant l'avis et la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district ; autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire, faite en vertu de "l'Acte concernant les serments extrajudiciaires."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $200.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

"The Government of Her Britannic Majesty on the one part, and the Government of the French Republic, acting in the name of the Government of His Highness the Bey of Tunis, on the other part, with a view to insure as far as possible the arrest and delivery to the competent jurisdiction of criminals who seek to escape by flight from the action of justice, have agreed as follows:—

"The provisions of the Anglo-French Convention of the fourteenth August, one thousand eight hundred and seventy-six, are extended to Tunis, except that the period of fourteen days, stipulated by Article IX of the said Convention, is prolonged to two months.

"The present arrangement shall have the same duration as the Convention of Extradition to which it relates.

"In witness whereof the undersigned His Excellency the Earl of Lytton, Her Britannic Majesty's Ambassador at Paris, and His Excellency M. Spuller, Minister for Foreign Affairs of the French Republic, have prepared the present arrangement, and have affixed thereto their seals.

(*b.*) Round timber of from 12 to 16½ feet in length, commonly called "Saw-Logs" shall be charged for by the piece, or when that is not provided for by the tariff or any amendment subsequently made thereto, then sixty saw-logs shall be held to be equivalent to one crib of timber and shall be charged accordingly.

(*c.*) Flatted, round or partially hewn timber, under 13 inch mean diameter from bark to bark, shall be charged for when cribbed at half square timber rates, and when driven loose shall be charged each piece as a saw-log.

(*d.*) Flattened, round or partially hewn timber of 13 inches and upwards in mean diameter from bark to bark (commonly known as dimension timber) shall be computed into saw-logs of 15 feet in length and charged for accordingly.

(*e.*) Railway ties of eight feet in length and under shall be computed at the rate of five to a saw-log and shall be charged for accordingly.

(*f.*) Other wood goods shall be charged for at the discretion of the Collector, at such proportionate rates as would be chargeable under these regulations against the class of goods to which they are most nearly allied.

(*g.*) In dealing with sawn lumber one hundred and fifty superficial feet board measure shall be deemed to be equivalent to one saw-log.

2. No timber, saw logs, lumber or other wood goods shall be removed beyond a radius of three miles beyond the Chaudière Suspension Bridge, unless payment of

stoll and dues thereon has been first made or secured to the satisfaction of the Collector of tolls and dues, and any such goods so removed upon which the said tolls and dues remain unpaid within 34 hours after having been so removed may be detained by the Collector, under authority of the fourth section of the Act hereinbefore cited, and the Collector shall forthwith report the same to the Minister of Public Works and may retain such goods until the slidage dues and all costs and expenses shall have been paid, unless otherwise ordered.

The river or stream from which the same come ;

Where the same are at the time of the return ;

The slides, booms or other works used by them ;

As nearly as possible the length and mean diameter thereof (excepting saw-logs and square timber) and such other particulars as may be required by the printed form of return to be furnished by the Collector.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 1st day of July, 1890.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, under the authority conferred upon him by the 2nd section of the Act 52 Victoria, chapter 23, intituled "An Act further to amend 'The Steamboat Inspection Act,' chapter 78 of the Revised Satutes," and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the following sections of the Rules and Regulations relating to the Inspection of Boilers of Steamboats, established by the Order in Council of the 17th day of September, 1889, that is to say, sections 44 and 45, and sections 92 to 102, the last named section being included, shall be and the same are hereby rescinded, and that the following rules and regulations relating to safety valves which are practically in accord with similar rules in force in the United Kingdom, shall be and they are hereby substituted therefor.

JOHN J. McGEE,
Clerk, Privy Council.

## RULES RELATING TO THE INSPECTION OF SAFETY VALVES.

44. (*a.*) After the following rules come into operation, every boiler made or placed on board a steamboat shall be fitted with two or more lock-up safety valves of a construction approved by the Board of Steamboat Inspection, or by the Chairman, if the Board is not then in session; the aggregate area of said lock-up safety valves shall not be less than that given in the following tables opposite the boiler pressure intended, the safety valves should be upon the boiler, or as near the boiler as practicable without pipes, cocks, valves or other possible obstructions between the safety valves and the boiler.

Every inspector, when inspecting, visiting or examining the boiler or machinery of any steamboat, shall

satisfy himself that the safety valves attached thereto are of suitable dimensions, sufficient in number, well managed and in good working order, and only loaded so as to open at or below the certified working pressure; and he may, if he thinks proper, order and cause two or more of such safety valves (which together shall be of sufficient dimensions to discharge all the steam the boiler can generate, and of such construction as he approves) to be locked up and taken wholly away from the control of the engineer when the steam is up; but the engineer shall have access to the safety valves when the steam is not up, and shall see that they are kept in working order, and the master of the steamboat shall see that the engineer has access to them for that purpose, and keeps them in proper working order.

The cocks and valves attached to the boilers shall be substantially made, and in no case shall they be attached to the boilers by screwing into the plate, unless, as an additional security, bolted flanges are used in addition to such attachment.

No valve, under any circumstances, shall, at any time, be so loaded or so managed in any way, as to subject a boiler to a greater pressure than that allowed by the inspector at the then last inspection thereof:

Every safety valve made or placed on board of a steamboat and attached to a boiler shall have a lift equal to at least one-fourth of its diameter; the openings for the passage of steam to and from the valve shall each have an area not less than the area of the valve, as shall also the waste steam pipe, and the valve box shall have a waste water pipe; if the lever of a lever safety valve is not bushed with brass the pin shall be of brass,—iron and iron working together shall not be allowed; every such safety valve shall be fitted with lifting gear so that it can be worked by hand, either from the engine room or the fire hold, or by the master or person in charge on deck;

(*b.*) Safety valves should not be passed of a diameter less than two inches, except in the case of small boilers where the area of grate surface is less than fifteen square feet, when safety valves of less diameter may be used, but in no case shall their diameter be less than one inch, and provided they are of approved construction, and the proportion of area of safety-valve to area of grate be complied with as given by the tables of safety-valve areas.

(*c.*) The grate area shall be ascertained by measuring the length of the grate from the inner edge of the dead plate to the front of the bridge and the width from side to side of the furnace on top of the bars at the middle of their length.

(*d.*) The safety-valve should be tested (by the Inspector) on new boilers, or on other boilers if he wishes to test their efficiency, under full steam and full fires, for at least 15 minutes with the feed water shut off and stop-valve closed, if the accumulation of pressure exceed 10 per cent. of the loaded pressure, he should not issue a certificate without reporting to the chairman full particulars of the test, and the strength pressure of the boiler with sketch of safety-valve, and in no case is an Inspector to give a certificate for safety-valves, unless he has examined them and is acquainted with the detail of their construction.

45 (*a.*) Inspectors are instructed that in all new boilers and whenever alterations can be easily made, the valve chest should be placed directly on the boiler, and the neck or part between the chest and the flange which bolts on to the boiler should be as short as possible.

(*b.*) In any case in which an Inspector is of opinion that it is positively dangerous to have a length of pipe between the boilers and the safety-valve chest, he shall at once insist on the requisite alterations being made before granting a certificate.

(*d.*) If lever safety-valves are used the distance between the centre of the valve and the centre of the fulcrum should not be less than the diameter of the valve.

(*e.*) Safety valves must be placed in convenient and accessible places, that their adjustment and examination may be readily and efficiently made. The inspector in his examination of the boilers and machinery is particularly to direct his attention to the safety valves, and whenever he considers it necessary he is to satisfy himself as to the pressure on the boiler by actual trial. The inspector is to examine the safety valves, weights and springs at every inspection.

(*f.*) The valve seats should be secured so that they cannot lift with the valve.

(*g.*) The spindle should be so attached to the valve, that when the spindle is lifted the valve will also lift.

(*h.*) The size of the steel of which the spring is made in spring safety valves is found by the following formula taken from the Imperial Board of Trade Rules:—

$$\sqrt[3]{\frac{S \times D}{c}} = d$$

$c = 8000$ for round steel.

$c = 11000$ for square steel.

$S =$ The load on the springs in pounds.

$D =$ The diameter of the spring (from centre to centre of the wire in inches).

$d =$ diameter, or side of square, of the wire in inches.

The spring should be protected from the steam and impurities issuing from the boiler, and in case of the spring breaking means be provided to keep it in position on the valve.

(*i.*) A standard spring if made of the best square cast steel contains ·25 of a square inch, the inside diameter is two inches, and the outside diameter is three inches, it has thirteen complete coils with the ends and is 11½ inches long. The working load is assumed at 600 lbs., one-sixth of its breaking load when hardened to a temper, just sufficient to break it, at which load it should deflect just one inch.

(*j.*) To find the sectional area of any other spring the pressure or weight on the valve being given:—

600 : : 700 : ·25 : ·29 = sectional area of spring at 700 lbs. load. The other dimensions of the spring would be in like proportion, the number of coils thirteen being constant.

## AT THE GOVERNMENT HOUSE AT OTTAWA.

The 5th day of July, A.D. 1890.

PRESENT :

### HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON the recommendation of the Minister of Inland Revenue, and under the provisions of Chapter 104 of the Revised Statutes of Canada, intituled "The Weights and Measures Act,"—

His Excellency in Council has been pleased to order, and it is hereby ordered, that the following regulations for the governance of the inspection of weights and measures be, and the same are hereby made and established :—

### REGULATIONS RESPECTING WEIGHTS AND MEASURES.

Section 1. The following balances are to be admitted to verification :—

A. Balances having equal arms, and on which the load is suspended below the fulcrums.
B. Balances commonly known as steelyards, or Roman balances, having unequal arms.
C. Weigh-bridges.
D. Balances with equal arms, and on which the load is placed above the fulcrums.
D 1. Hydrostatic balances for weighing coal.
D 2. Perfection scales.
D 3. Duplessis portable track scales.
D 4. Household scales.
D 5. Spafford improved platform counter scales.

Sec. 2. A. Balances with equal arms are only to be admitted to verification when :—

1. The beam shows no material difference as regards the form or magnitude of the two arms.

2. It is provided with a tongue pointing upwards or downwards from its centre, at right angles with a line joining the extreme bearings, or with some equivalent arrangement for indicating the position of the equilibrium.

3. It is in equilibrium when a line joining the extreme bearings is perfectly horizontal, and returns to that position after being put into vibration.

4. Its arms are equal within the specified limit of error.

5. The balance is sufficiently sensitive to be turned decidedly and promptly by the addition or withdrawal of so much of the load as represents the error tolerated by regulations in a commercial weight representing the load.

6. No balance balls or detached parts other than the pans and connections necessary for attaching them to the beam are used for adjusting the balance.

7. The balance, as a whole, is of sufficient strength, and on a sufficiently stable base, to secure it against change of form or position under the maximum load it is to carry.

8. The beam will carry its maximum load without deflection.

9. The maximum load for the weighing of which it is to be used is distinctly engraved or marked on the beam.

10. The knife edges are permanently fixed to the beam.

Sec. 3. B. Balances commonly known as *steelyards* or Roman balances, having unequal arms, are only to be admitted to verification when :—

1. There is sufficient room for oscillation, and the knife edges on which the beam oscillates are sufficiently fine to permit it to move freely.

2. The beam is sufficiently strong to carry its load without deflection.

3. The bottom of the notches by which the divisions of the long arm of the lever are indicated, and from which the weight is suspended, are in close approximation to a right line drawn through the knife-edges forming the points of suspension, and when such straight line passes near to and a little above the centre of gravity of the whole apparatus.

4. The divisions on the long arm of the lever are equal among themselves.

5. The weight used with the lever—if it is changeable or can be readily detached therefrom—is some multiple or sub-multiple of the pound avoirdupoids, and has distinctly marked on it its true weight.

6. The maximum weight intended to be weighed on it is either distinctly marked on the beam or indicated by its construction.

Sec. 4. C. Weigh-bridges, hay scales and platform scales will only be admitted to verification when :—

1. The foundation or supporting base is sufficiently firm, and capable of carrying without change of level or of form or other disturbance, the maximum load for which it is to be used.

2. If movable from place to place, some satisfactory arrangement, such as a level or plummet, is provided and permanently attached, for indicating whether the machine is perfectly level.

3. The platform is so arranged that any obstruction to its free movement can be easily detected.

4. All the beams, levers and other parts are of sufficient strength to carry the maximum load to which they will be respectively subjected without deflection.

5. The knife-edges are firmly and permanently fixed in the levers, have sufficient room to permit free oscillation, and are sufficiently firm.

6. The knife-edges and fulcrums of each set of levers are in the same plane.

7. The oscillations are sufficiently evident.

8. The weights used with the instrument are equal to the avoirdupois pound, or to multiples or authorized sub-multiples of the avoirdupois pound, or special weights for the barrel of flour or for the bushel of wheat, their actual weight and the weight or special quantity they are intended to indicate on the scale being plainly marked thereon.

9. The weights used as above are a decimal sub-multiple, as $\frac{1}{10}$, $\frac{1}{100}$, $\frac{1}{1000}$, or a binary sub-multiple as $\frac{1}{2}$, $\frac{1}{4}$, $\frac{1}{8}$, &c., of the load indicated by them.

10. There are no detached parts for the adjustment of the balance accessible, or so placed that they can be used for fraudulent weighing.

11. The apparatus indicates the same weight, whether the load is placed in the centre of the platform, on one side of it, or at either corner.

12. The maximum load which the apparatus is intended to weigh and the maker's name and shop number are conspicuously cast, engraved or stamped on some essential part of it.

### *Platform Scales, Weigh-bridges, and Balances with Unequal Arms.*

Sec. 5. All these weighing machines will be rejected :

1. When with a full load, and truly balanced, the movement of the lever-weight one "notch" or division on the graduated lever, in either direction, does not cause the lever to turn decidedly in accordance with such movement.

2. When, with a full load, or with any less load, and with the balance in equilibrium, the addition or removal of one two-thousandth part of the load, to or from the load, does not turn the lever decidedly in accordance with such addition or removal.

3. When the maker's name, shop number and maximum capacity are not legibly cast, engraved or stamped on them. And when the knife-edges are not made of properly tempered steel, and the bearings of the same material or of chilled or case hardened malleable iron. (This clause applies as well to balances with equal arms but shall in all cases apply only to original verification.)

4. When unprovided with check-rods to hold the bearings in place. *

Sec. 6. D. Balances with equal arms, and on which the load is carried above the fulcrums, will only be admitted to verification when :—

1. There are no material difference as to the magnitude or arrangement of the two arms.

2. Its arms are of equal length within a limit of error equivalent to that tolerated in commercial weights.

3. There are no balance balls, loose counterpoises or detached parts other than the pans necessary for carrying the load weighed, and the weights used for weighing it.

4. Its parallel rods, guides, levers and pivots, by which the adjustment of the scale is affected, are so constructed that they cannot be put out of adjustment without the use of violence, which may be readily detected on inspection.

5. The knife edges or fulcrums of each set of levers or guide-rods are in the same plane.

6. The balance is sufficiently sensitive to turn decidedly and promptly by the addition and withdrawal of so much of the load as is equivalent to the error tolerated in commercial weights.

7. When there is a tongue or pointer, or some equivalent arrangement for showing when the balance is in equilibrium.

D1. Weighing machines known as "hydrostatic balances," being such as are commonly used for determining the weight of coals delivered at the pit mouth, may be verified for use for such purposes, and also for weighing coals as delivered from vessels and barges, provided they give true indications within one two-hundredth part of the load.

D 2. Weighing machines known as "Perfection Scales," when manufactured in accordance with specifications deposited in Patent Office at Ottawa, may be admitted to verification when found to weigh correctly.

D 3. Weighing machines known as "Duplessis Portable Track Scales" used for determining the weight of cars on railway tracks may be admitted to verification for use for such purposes, provided they give indications within one four-hundredth part of the load.

D 4. A weighing machine known as the "Household Scale," a balance with equal arms to carry a load above the fulcrums of not more than ten (10) pounds in each pan. In its construction and verification it must in every respect comply with the requirements of Paragraph D, above. The words "Household Scale" must be engraved or stamped in bold legible letters of not less than one-fourth of an inch in height, on some conspicuous part of each scale so that at a glance its classification may be known.

This scale shall be used for household purposes only, and should any such scale be found in use for trade purposes of any description it shall be seized and confiscated by an inspecting officer, and the fee for the verification of the above described "Household Scale, D 4," shall be ten (10) cents for each scale.

D 5. A scale known as the "Spafford Improved Platform Counter Scale," and all scales of similar construction as regards the scoop counterpoise, are also added to the schedule of scales to be admitted to verification.

No balances other than such as will come within the conditions under one or other of the heads, A, B, C or D, are to be verified or stamped.

### *Weights and Measures—Regulations.*

Sec. 7. E. Verification and stamping of weights, measures and weighing machines on the premises of the manufacturer, and their removal therefrom.

1. The article shall bear the name of the maker, capacity and consecutive shop-number or other marks whereby it may be designated for identification, with the certificate of verification.

2. The verification and stamping must take place before the articles are packed for removal, and at that state of completion at which they are finally adjusted by the manufacturer.

3. For the first verification and stamping of weights, measures and weighing machines at the place where they are manufactured, the fees may be paid at once, or payment may be postponed for such period not exceeding three months as the Minister of Inland Revenue may authorize. Sufficient security being taken for the payment thereof at the time stated in the Departmental Regulations under which the delay is granted.

Sec. 8. F. Weights, measures and weighing machines imported into Canada are to be dealt with as follows :—

1. The Collector of Customs at the port where such articles are imported will notify the nearest inspector or assistant inspector of weights and measures of the entry for consumption of any weights, measures or weighing machines at his port, which notice will state the number and description of such articles as are invoiced, and the names and residence of the parties to whom they are delivered.

2. So long as such articles remain in the original packages they may be removed from the Custom house or from a Customs warehouse to the premises of the importer without inspection.

Sec. 9. G. Nothing in these regulations, nor in any previous regulations is to be construed as preventing the importation, manufacture or removal of and setting up, before they are verified, of dormant* scales or weigh-bridges of any description, coming within the requirements of the law, but which cannot be used nor properly verified until they are placed on a fixed foundation. But it shall be the invariable duty of the manufacturer or importer of such weighing machines to duly notify the inspector of weights and measures nearest to his place of business, of the shipment and destination of each of such articles ; and said manufacturer or importer shall be held responsible for its verification before being used for trade purposes.

Any trader not being a manufacturer of, or dealer in, such weighing machines, who imports such articles for his own use, shall be considered an importer, and therefore subject to the above regulations.

Sec. 10. H. 1. Iron weights of the denomination of half a pound or under may be admitted to verification, provided they are of such substance that a soft metal plug on which the stamp may be impressed, can be securely fixed therein, and when such soft metal plug is so fixed in them by the parties who present them for verification ; but,—

2. When any iron weight is presented for verification, or when any such weight is found in use from which a soft metal plug has been lost, it shall not be adjusted or restamped until the hole in which the plug was inserted has, in the presence of the Inspector, been enlarged at the bottom, so that the expansion of the lead used for adjusting it will prevent it subsequently falling out.

---

* Note.—Nothing in the above 4th section shall apply to weighing machines constructed on the *Howe* principle.

* The term "*dormant*," shall be understood to cover only such weighing-machines as weigh-bridges, hay and track scales, or such weighing-machines only as require to be placed on a specially prepared foundation.

1. (By Order in Council of 7th June, 1890, Clause I of the Order in Council of the 22nd day of July, 1886, and Section 15 of Chapter 42 of the Consolidated Orders in Council dated 9th January, 1889, admitting Grain Testers to verification, are cancelled.)

Sec. 11. J. Salt carts, each to contain four imperial bushels, constructed, as to form and dimensions, in accordance with plan or drawing of the same to be attached to weights and measures regulations, shall be admitted to verification.

2. Salt carts made in any other form or according to other dimensions than the foregoing will not be admitted to verification, and consequently their use for trade purposes will be held to be illegal.

3. The fee chargeable for verifying and stamping each salt-cart shall be one dollar.

### ARRÊTÉ EN CONSEIL.

### EXTRADITION ENTRE LA GRANDE-BRETAGNE, LA FRANCE ET LA TUNISIE.

AU CHATEAU DE WINDSOR,
1er mai 1890.

PRÉSENTS :

Sa Très Excellente Majesté la REINE.
Le lord Président,
Le comte de Coventry,
Le comte de Limerick.

CONSIDÉRANT que par les *Actes d'Extradition*, 1870 et 1873, il est statué, entre autres choses, que chaque fois qu'un arrangement aura été conclu avec un Etat étranger au sujet de la reddition à cet Etat des criminels fugitifs, Sa Majesté pourra ordonner par arrêté en conseil que les dits actes s'appliqueront à l'égard de l'Etat étranger en question ; et que Sa Majesté pourra, par le même ou par un arrêté subséquent, restreindre l'opération du dit arrêté et limiter son application aux criminels fugitifs qui se trouvent ou sont supposés se trouver dans la partie des possessions de Sa Majesté spécifiées dans l'arrêté, et en rendre l'exécution sujette aux conditions, exceptions et restrictions qui pourront être jugées convenables ; et que si, par quelque loi adoptée après la sanction de l'Acte de 1870 par la législature de toute possession britannique, il est pourvu à l'extradition des criminels fugitifs qui se trouvent ou sont soupçonnés se trouver dans cette possession britannique, Sa Majesté pourra, par un arrêté en conseil, appliquer les dits actes à l'égard de tout Etat étranger, ou par tout arrêté subséquent suspendre la mise en opération, dans toute telle possession britannique, des dits actes ou de toute partie de ces actes, en tant qu'ils se rapportent à cette puissance étrangère, et aussi longtemps que ces lois continueront d'y être en vigueur, mais pas plus longtemps ;

Et considérant que dans un acte du parlement du Canada, passé en 1886, intitulé "Acte concernant l'extradition de criminels fugitifs," il est pourvu à la reddition des criminels fugitifs qui se trouvent ou pourront se trouver au Canada ;

Et considérant que par un arrêté de Sa Majesté en conseil, en date du dix-septième jour de novembre mil huit cent quatre-vingt-huit, il est décrété que l'opération des Actes d'extradition de 1870 et 1873 sera suspendue au Canada tant que les dispositions du dit acte du parlement du Canada de 1886 continueront en vigueur et pas plus longtemps ;

Et considérant qu'un traité a été conclu le quatorzième jour d'août mil huit cent soixante-seize entre Sa Majesté et le Président de la République Française touchant l'extradition mutuelle des criminels fugitifs, dans le cas duquel traité les susdits actes du parlement ont été appliqués par un arrêté en conseil en date du seizième jour de mai mil huit cent soixante-dix-huit ;

Et considérant qu'un arrangement a été conclu le trente-unième jour de décembre mil huit cent quatre-vingt-neuf entre le gouvernement de Sa Majesté et le gouvernement de la République Française, agissant au nom du gouvernement de Son Altesse le Bey de Tunis, à l'effet d'étendre les dispositions du dit traité du 14 d'août 1876 à la Tunisie, lequel arrangement est ainsi conçu :—

"Le gouvernement de Sa Majesté Britannique d'une part, et le gouvernement de la République Française agissant au nom du gouvernement de Son Altesse le

Bey de Tunis, de l'autre, en vue d'assurer autant que possible l'arrestation et la remise à la juridiction compétente des malfaiteurs qui cherchent à se soustraire par la fuite à l'action de la justice, sont convenus de ce qui suit :—

"Les dispositions de la Convention Franco-Anglaise du 14 août 1876, sont étendues à la Tunisie, sauf que le délai de quatorze jours stipulé par l'Article IX de la dite Convention est porté à deux mois.

"Le présent arrangement aura la même durée que la Convention d'Extradition à laquelle il se rapporte.

"En foi de quoi les soussignés, Son Excellence le comte de Lytton, Ambassadeur de Sa Majesté Britannique à Paris, et Son Excellence M. Spuller, ministre des Affaires Etrangères de la République Française, ont dressé le présent arrangement, et y ont apposé leurs cachets.

"Fait à Paris, le 31 décembre 1889.

"(L.S.) LYTTON,
"(L.S.) E. SPULLER."

C'est pourquoi Sa Majesté, par et de l'avis de son Conseil privé, et en vertu de l'autorité que lui confèrent les dits actes cités, ordonne et il est par le présent ordonné, que le et après le seizième jour de mai mil huit cent quatre-vingt-dix, les dits actes s'appliqueront dans le cas de la Tunisie, en conformité du dit arrangement avec la République Française.

Pourvu, toujours, et il est par le présent ordonné que l'opération des dits Actes d'extradition 1870 et 1873 sera suspendue dans la Puissance du Canada, en tant qu'il s'agit de la Tunisie et de la dite convention, tant que les dispositions de l'acte canadien de 1886 resteront en vigueur, et pas plus longtemps.

2–4 C. L. PEEL.

## ORDRES EN CONSEIL.

### HOTEL DU GOUVERNEMENT A OTTAWA.

Lundi, le 30e jour de juin 1890.

PRÉSENT :

### SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

Il plait à Son Excellence, en vertu de l'autorité qui lui est conférée par "l'Acte des travaux publics," chapitre 36 des Statuts Revisés, et par et avec l'avis du Conseil Privé de la Reine pour le Canada, d'ordonner que les règlements suivants pour l'usage des glissoires à bois et autres travaux du gouvernement construits pour faciliter la transmission du bois de construction, du bois de service et des billots de sciage sur la rivière Ottawa et ses tributaires, soient et ils sont par le présent faits et établis, et que les péages et droits ci-après mentionnés soient et ils sont par le présent autorisés, imposés et établis ; ces péages et droits remplaceront tous les péages et droits ci-devant imposés au sujet de ces travaux.

JOHN J. McGEE,
Greffier du Conseil privé.

### RÈGLEMENTS.

Afin de rendre uniforme l'application des droits, tous bois de construction et bois de service seront, sauf dans les cas spécialement prévus par le dit tarif ou quelque modification du dit tarif, classifiés comme suit :—

(*a*.) Le bois carré et en déclin ou à planche sera désigné bois carré, et sera imposé à tant par cage (crib), et dans le cas où du bois de cette description passe par aucun des travaux autrement qu'en cages, un nombre de pièces suffisant dans l'opinion du percepteur ou d'un député dûment autorisé par lui pour faire une cage d'une grandeur ordinaire (ne devant pas toutefois excéder mille pieds cubes) sera compté pour une cage.

(*b*.) Le bois rond, de 12 à 16½ pieds de longueur, communément appelé "bois de sciage," sera imposé à la pièce ou, lorsqu'il n'y est pas pourvu par le tarif ou aucun amendement qui y sera subséquemment apporté, alors soixante billots de sciage seront censés équivaloir à une cage de bois de construction et paieront en conséquence.

(*c*.) Le bois plat, rond ou en partie ébauché, d'un diamètre moyen de moins de 13 pouces d'une écorce à l'autre, paiera, lorsqu'il est mis en cages la moitié des taux du bois carré, et lorsqu'il est flotté en pièces détachées, chaque pièce paiera le taux d'un billot de sciage.

(*d*.) Le bois plat, rond ou en partie ébauché d'un diamètre moyen de 13 pouces et plus d'une écorce à l'autre (communément appelé bois de dimension) sera calculé en billots de sciage de 15 pieds de longueur et paiera en conséquence.

(*e*.) Les traverses de chemins de fer de huit pieds de longueur et au-dessous seront calculés au taux de cinq par billot de sciage et paieront en conséquence.

(*f*.) Les autres articles en bois seront, à la discrétion du percepteur, imposés aux taux proportionnels qui seraient imposables en vertu des présents règlements sur la classe d'effets qu'ils ressemblent le plus.

(*g*.) En calculant le bois scié, cent cinquante pieds en superficie mesure de planche seront censés équivaloir à un billot de sciage.

2. Nuls bois de construction, billots de sciage, bois de service ou autres articles de bois ne seront transportés au delà d'un rayon de trois milles plus bas que le pont suspendu des Chaudières, à moins que le paiement des péages et droits sur ces bois n'ait d'abord été fait ou garantie à la satisfaction du percepteur des péages et droits ; et tous tels articles ainsi enlevés sur lesquels les dits péages et droits restent impayés pendant 34 heures après qu'ils ont été déplacés, pourront être détenus par le percepteur en vertu du quatrième article de l'acte précité, et le percepteur devra de suite en faire rapport au ministre des Travaux Publics et pourra retenir ces articles jusqu'à ce que les droits de glissoires et tous les frais et dépenses aient été payés, à moins qu'il n'en soit autrement ordonné.

3. Le propriétaire ou la personne en charge du bois de construction, des billots de sciage, ou autres articles de bois lorsqu'il fait usage d'aucune des glissoires, estacades, barrages ou autres travaux dans la rivière, fera un rapport de ces articles au sous-chef des glissoires ou personne en charge des constructions, indiquant le nombre des cages (si ce bois est en cages) et, s'il en est requis, le nombre et les dimensions moyennes de chaque classe, et il signera et délivrera au sous-chef des glissoires ou personne en charge des constructions, un écrit en double nommant le propriétaire des articles et les glissoires ou autres travaux par lesquels ils sont passés, et pour toute infraction du présent article il encourra une amende de dix pour cent en sus du montant des péages et droits d'ailleurs imposables, cette amende ne devant pas excéder en tout quatre cents piastres.

4. Chaque propriétaire de scierie ou personne en charge d'une scierie, ou l'exploitant, et chaque autre personne commerçant sur le bois de construction, les billots de sciage, le bois scié ou autres articles de bois, fournira au percepteur des péages et droits le ou avant le trentième jour de septembre de chaque année un état attesté sous serment ou déclaration solennelle en vertu du statut à cet effet et sur une formule imprimée qui sera fournie par le percepteur sur demande, indiquant les détails sous-mentionnés quant à tous tels articles fabriqués ou acquis par lui, sauf le bois carré envoyé en radeaux à Québec dans le cours de la saison d'opérations précédente et jusqu'à la dite date ou depuis la fin de la période comprise dans son dernier rapport en vertu du présent article ou du suivant,—et le ou avant le 15e jour de novembre de chaque année un semblable état quant à tous tels articles fabriqués ou acquis par lui subséquemment au 30e jour de septembre ou date du précédent état. Ces états ou rapports donneront une description détaillée de tous articles qui y sont compris et énonçant les détails suivants :—

S'ils ont été fabriqués par la personne qui fait le rapport ou ont été achetés par lui d'autres personnes, et s'ils ont été fabriqués par lui-même le nom du contremaître employé, et s'il les a achetés, le nom du vendeur ;

La rivière ou cours d'eau d'où ils viennent ;

Où sont ces articles à la date du rapport ;

Les glissoires, estacades ou autres travaux où ils ont passé ;

Aussi près que possible leurs longueur et diamètre moyen (à l'exception des billots de sciage et du bois carré) et tels autres détails qui seront requis par la formule imprimée de rapport que fournira le percepteur.

Toute personne qui enfreint le présent article encourra et paiera, sujet à la limitation établie par l'article trois du dit acte, une amende de dix piastres par jour pour chacun des premiers trente jours de cette infraction, et pour chaque jour en suivant une amende de vingt-cinq piastres.

5. Le percepteur des péages et droits pourra en tout temps demander de toute personne tenue de faire rapport en vertu de l'article précédent, un état indiquant les effets alors en possession de cette personne ou les articles fabriqués ou acquis par elle depuis la date de son dernier rapport, et chaque état en vertu du présent article énoncera par rapport à ces effets ou articles ainsi fabriqués ou acquis, tous les détails mentionnés dans l'article immédiatement précédent, ou tels détails qui pourront être spécifiés dans la demande ; et tout rapport demandé en vertu du présent article sera fait dans les cinq jours qui suivront la demande, sujet aux mêmes amendes pour défaut que celles prescrites dans le quatrième article des présents règlements.

6. Si le percepteur des péages et droits est d'opinion qu'un rapport exigé par l'un ou l'autre des deux articles qui précèdent est incomplet sous quelque rapport, il pourra demander à la personne qui le produit de l'amender ou de le corriger, et si cette personne manque de se conformer à cette demande dans les cinq jours suivants elle encourra et paiera les mêmes amendes que celles prescrites dans le quatrième article des présents règlements.

7. Les droits et péages sur toutes les glissoires et travaux porteront intérêt au taux de sept pour cent par année à compter du trentième jour de novembre de l'année dans laquelle ils sont devenus dus, sans préjudice du droit de la couronne de contraindre paiement à toute date antérieure après que les travaux ont été employés.

8. Afin de faciliter le règlement et la perception des revenus, le percepteur des droits de glissoires pourra prendre des billets à ordre à son propre nom, ou des obligations au nom de la Reine pour le montant dû pour péages et amendes en vertu des présents règlements ; mais ces billets ou obligations n'affecteront en aucune manière le privilège de la couronne, ni seront une exception au droit de saisie et de détention que donne la loi.

## HOTEL DU GOUVERNEMENT À OTTAWA,

Mardi, le 1er jour de juillet 1890.

PRÉSENT :

## SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

Il plait à Son Excellence, en vertu de l'autorité qui lui est conférée par le 2e article de l'acte 52 Victoria, chapitre 23, intitulé « Acte modifiant de nouveau l'Acte d'inspection des bateaux à vapeur, chapitre 78 des Statuts Revisés," et par et avec l'avis du Conseil Privé de la Reine pour le Canada, d'ordonner que les articles suivants des Règles et Règlements concernant l'inspection des chaudières des bateaux à vapeur, établis par l'arrêté en conseil du 17e jour de septembre 1889, savoir, les articles 44 et 45, et les articles 92 à 102, ce dernier article étant compris, soient et ils sont par le présent rescindés, et que les règles et règlements suivants relatifs aux soupapes de sûreté qui s'accordent en pratique avec les règlements en vigueur dans le Royaume-Uni, soient et ils sont par le présent substitués aux dits règlements.

JOHN J. McGEE,
Greffier du Conseil privé.

---

## RÈGLEMENTS CONCERNANT L'INSPECTION DES SOUPAPES DE SURETÉ.

44. (*a.*) Après que les règlements seront devenus exécutoires, chaque chaudière faite ou placée à bord d'un bateau à vapeur sera munie de deux soupapes de sûreté, ou plus, fermées à clef dont la construction sera approuvée par le Bureau d'inspecteurs de bateaux à vapeur, ou par le Président, si le Bureau n'est pas alors en session ; l'aire collective des dites soupapes de sûreté ne sera pas inférieure à celle spécifiée dans la table ci-jointe vis-à-vis la pression attribuée à la chaudière ; les soupapes de sûreté devraient être posées sur la chaudière, ou aussi près que possible de la chaudière, sans tuyaux, robinets, soupapes ou autres obstacles possibles entre les soupapes de sûreté et la chaudière.

Chaque inspecteur, lorsqu'il inspecte, visite ou examine la chaudière ou les machines d'un bateau à vapeur, devra s'assurer que les soupapes de sûreté y attachées sont de dimensions convenables, en nombre suffisant, bien disposées et fonctionnent bien, et ne portent que le poids nécessaire pour leur permettre de s'ouvrir à la pression ou au-dessous de la pression effective certifiée ; et, s'il le juge à propos il pourra ordonner que deux de ces soupapes de sûreté ou plus (lesquelles seront ensemble de dimensions suffisantes à laisser échapper toute la vapeur que la chaudière peut produire, et dont il approuvera la construction) soient fermées à clé et soustraites au contrôle du mécanicien lorsque la vapeur est levée ; mais le mécanicien aura accès aux soupapes de sûreté lorsque la vapeur n'est pas levée, et veillera à ce qu'elles soient tenues en bon état de fonctionnement, et le capitaine du bateau à vapeur verra à ce que le mécanicien y ait accès à cette fin, et les tienne en bon état de fonctionnement.

Les robinets et soupapes attachés aux chaudières seront solidement faits, et jamais fixés aux chaudières au moyen de vis dans la tôle, à moins que pour plus grande sûreté, des brides boulonnées ne soient ajoutées en sus de ces attaches.

Aucune soupape ne devra, dans aucun cas, porter un poids, ou être arrangée de manière à assujétir la chaudière à une plus grande pression que celle permise par l'inspecteur lors de sa dernière inspection.

Chaque soupape de sûreté faite ou placée à bord d'un bateau à vapeur et attachée à une chaudière devra avoir un jeu au moins égal à un quart de son diamètre, les orifices pour le passage de la vapeur en entrant et sortant, auront chacun une aire égale à l'aire de la soupape, de même que le tuyau de renvoi d'eau, et la boîte de la soupape aura un tuyau de renvoi d'eau ; si le levier d'une soupape de sûreté n'est pas emboîté dans du cuivre, la cheville sera de cuivre,—le fer en contact avec le fer ne sera pas permis ; chaque soupape de sûreté sera munie d'un appareil de levage de manière à pouvoir le faire fonctionner avec la main, soit de la chambre de la machine soit de la cale des feux, ou par le capitaine ou personne en charge sur le pont ;

(*b.*) On ne doit pas admettre de soupapes de sûreté qui n'ont pas au moins deux pouces de diamètre, sauf dans le cas de petites chaudières dont la surface de grille a moins de quinze pieds carrés, cas où l'on peut tolérer des soupapes de sûreté d'un moindre diamètre ; mais en aucun cas ce diamètre ne doit avoir moins d'un pouce, et pourvu qu'elles soient d'une construction approuvée, et que l'aire de la soupape de sûreté soit relativement à l'aire de grille dans le rapport indiqué dans les tables d'aires de soupapes de sûreté.

(*c.*) L'aire de grille sera constatée en mesurant la longueur de la grille depuis le bord intérieur de la plaque fixe jusqu'au devant de l'arche, et la largeur d'un côté à l'autre du fourneau au-dessus des barres à leur centre.

(*d.*) L'inspecteur éprouvera les soupapes de sûreté sur les nouvelles chaudières, ou sur d'autres chaudières s'il désire les éprouver, sous pleine vapeur et feux ardents pendant au moins 15 minutes, tenant le tuyau d'alimentation arrêté, et la soupape d'arrêt fermée. Si l'accumulation de la pression excède 10 pour cent de la pression voulue, il n'accordera pas de certificat sans faire rapport au président de tous les détails de l'épreuve, et de la pression dans la chaudière ainsi qu'un dessin de la soupape de sûreté ; et un inspecteur ne devra jamais donner un certificat pour des soupapes de sûreté, sans les avoir examinées, et s'être mis au fait des détails de leur construction.

45. (*a.*) Instruction est donnée aux inspecteurs que dans toutes les nouvelles chaudières, et chaque fois que des changements peuvent facilement être faits, la boîte de soupape doit être placée directement sur la chaudière ; et le col, ou la partie de la boîte et la bride qui est attachée à la chaudière, doivent être aussi courts que possible.

(*b.*) Chaque fois qu'un inspecteur croit qu'il est positivement dangereux d'avoir une longueur de tuyaux entre les chaudières et la boîte de la soupape de sûreté, il devra de suite insister pour que les changements nécessaires soient faits avant d'accorder un certificat.

(*d.*) Lorsque des soupapes à levier sont employées la distance entre le centre de la soupape et le centre du point d'appui ne doit pas être moindre que le diamètre de la soupape.

(*e.*) Les soupapes de sûreté doivent être placées dans des endroits convenables et d'accès facile, afin que leur ajustement et examen puissent être faits aisément et efficacement. Dans l'examen des chaudières et des machines, l'inspecteur doit surtout porter son attention aux soupapes, et chaque fois qu'il le juge nécessaire il doit s'assurer de la pression sur la chaudière en en faisant l'épreuve. L'inspecteur doit examiner les soupapes de sûreté, les poids et les ressorts à chaque inspection.

(*f.*) Les sièges des soupapes doivent être fixés de manière à ne pas lever avec la soupape.

(*g.*) L'arbre du tiroir doit être attaché à la soupape de façon à lever en même temps que la soupape.

(*h.*) La dimension de l'acier dont est fait le ressort pour les soupapes de sûreté à ressort, se trouve au moyen de la formule suivante prise des règlements du conseil du commerce Impérial :—

$$\sqrt[3]{\frac{S \times D}{c}} = d$$

$c = 8{,}000$ pour acier rond.
$c = 11{,}000$ pour acier carré.
$S =$ le poids en livres sur le ressort.
$D =$ le diamètre, du ressort (d'axe en axe du fil métallique en pouces.)
$d =$ le diamètre ou côté du fil métallique, en pouces.

Le ressort doit être protégé contre la vapeur et les impuretés sortant de la chaudière, et des mesures doivent être prises pour maintenir le ressort en position sur la soupape dans le cas où il se briserait.

(*i.*) Un ressort règlementaire fait du meilleur acier carré, contient ·25 d'un pouce carré, le diamètre intérieur est de deux pouces, et le diamètre extérieur de trois pouces ; il a treize tours complets avec les bouts, et a $11\frac{1}{2}$ pouces de long. Le poids effectif est placé à 600 livres, un sixième de son poids de rupture lorsqu'il est trempé à un degré justement suffisant pour le casser ; avec ce poids il doit fléchir exactement d'un pouce.

(*j.*) Pour trouver l'aire de profil pour tout autre ressort, la pression ou poids sur la soupape étant donnée :—

600 : : 700 : ·25 : ·29=aire de profil du ressort à une charge de 700 lbs. Les autres dimensions du ressort sont dans la même proportion, le nombre de tours, treize, étant constant.

## DEMANDES AU PARLEMENT.

### Règles relatives aux avis de bills privés.

Dans le cas de toute demande de bill privé, proprement du ressort législatif du Parlement du Canada, suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, et ayant pour objet, soit la construction d'un pont, d'un chemin de fer, d'un chemin à barrières ou d'une ligne télégraphique ; soit la construction ou l'amélioration d'un port, d'un canal, d'une écluse, d'une digue ou d'une glissoire ou autre ouvrage semblable ; soit la concession d'un droit de passage d'eau, l'incorporation de professions ou métiers, ou d'une compagnie de banque ou autre compagnie par actions, soit la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, soit le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement de même nature à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande, et signé (excepté s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit:

*Dans les provinces de Quebec et du Manitoba.*

Un avis doit être inséré dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

*Dans les autres provinces ou territoires.*

Un avis doit être inséré dans la *Gazette du Canada*, et et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie.

La publication de ces avis durera, dans chaque cas, la période de deux mois pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Un exemplaire des numéros des journaux, reproduisant la première et la dernière insertion de l'avis, devra être transmis au greffier de chaque Chambre.

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, le pétitionnaire ou les pétitionnaires devront, en même temps qu'ils donneront l'avis prescrit par la règle précédente, donner aussi, de la même manière, avis des péages qu'ils entendent exiger, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piliers pour le passage des radeaux et des navires ; et mentionner de plus s'ils se proposent de construire un pont mobile, et quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Il en sera imprimé 600 exemplaires en anglais et 200 en français ; la traduction devra être faite par les officiers de la Chambre, et l'impression par l'entrepreneur des impressions. Le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) une somme de $200, plus le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé—le dit paiement sera effectué immédiatement après la seconde lecture avant la prise en considération du bill par le comité.

L'honoraire payable sur tout bill privé, ne sera payé que dans la Chambre où il a pris naissance.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par l'une ou par l'autre Chambre après les dix premiers jours de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.
JOHN GEORGE BOURINOT,
Greffier des Communes.

### Règles additionnelles de la Chambre des Communes concernant les bills privés.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle adopté par la Chambre, le 23 juin 1887, dont copie peut être obtenue du greffier de la Chambre ;

(*a*.) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression.

(*b*.) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets ;

(*c*.) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le traité du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer

à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

*(a.)* Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés, dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait ;

*(b.)* Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

JOHN GEORGE BOURINOT,
Greffier des Communes.

### SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré, durant trois mois, entre l'expiration de la dernière session parlementaire avant l'avis et la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district ; autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire, faite en vertu de "l'Acte concernant les serments extrajudiciaires."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $200.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

—

AT THE COURT AT WINDSOR,
The 1st day of May, 1890.

PRESENT:

The QUEEN'S Most Excellent Majesty.

Lord President,
Earl of Coventry,
Earl of Limerick.

WHEREAS by the Extradition Acts, 1870 and 1873, it was amongst other things enacted that, where an arrangement has been made with any foreign State with respect to the surrender to such State of any fugitive criminals, Her Majesty may, by Order in Council, direct that the said Acts shall apply in the case of such foreign State; and that Her Majesty may, by the same or any subsequent Order, limit the operation of the Order, and restrict the same to fugitive criminals who are in or suspected of being in the part of Her Majesty's Dominions specified in the Order, and render the operation thereof subject to such conditions, exceptions and qualifications as may be deemed expedient; and that if, by any law made after the passing of the Act of 1870 by the Legislature of any British possession, provision is made for carrying into effect within such possession the surrender of fugitive criminals who are in or suspected of being in such British possession, Her Majesty may, by the Order in Council applying the said Acts in the case of any foreign State, or by any subsequent Order, suspend the operation within any such British possession of the said Acts, or of any part thereof, so far as it relates to such foreign State, and so long as such law continues in force there, and no longer.

And whereas by an Act of the Parliament of Canada passed in 1886, and intituled "An Act respecting the Extradition of Fugitive Criminals," provision is made for carrying into effect within the Dominion the surrender of fugitive criminals:

And whereas by an Order of Her Majesty the Queen in Council, dated the seventeenth day of November, one thousand eight hundred and eighty-eight, it was directed that the operation of the Extradition Acts 1870 and 1873 should be suspended within the Dominion of Canada so long as the provision of the said Act of the Parliament of Canada of 1886 should continue in force and no longer:

And whereas a Treaty was concluded on the fourteenth day of August, one thousand eight hundred and seventy-six, between Her Majesty and the President of the French Republic, for the mutual extradition of fugitive criminals, in the case of which Treaty the above-mentioned Acts of Parliament were applied by an Order in Council of the sixteenth of May, one thousand eight hundred and seventy-eight;

"The Government of Her Britannic Majesty on the one part, and the Government of the French Republic, acting in the name of the Government of His Highness the Bey of Tunis, on the other part, with a view to insure as far as possible the arrest and delivery to the competent jurisdiction of criminals who seek to escape by flight from the action of justice, have agreed as follows:—

"The provisions of the Anglo-French Convention of the fourteenth August, one thousand eight hundred and seventy-six, are extended to Tunis, except that the period of fourteen days, stipulated by Article IX of the said Convention, is prolonged to two months.

"The present arrangement shall have the same duration as the Convention of Extradition to which it relates.

"In witness whereof the undersigned His Excellency the Earl of Lytton, Her Britannic Majesty's Ambassador at Paris, and His Excellency M. Spuller, Minister for Foreign Affairs of the French Republic, have prepared the present arrangement, and have affixed thereto their seals.

Square and waney or board timber, shall be denominated square timber, and shall be charged for by the crib, and in the case of any such timber passing any of the works otherwise than in cribs—a number of pieces sufficient, in the discretion of the Collector or any Deputy duly authorised by him, to make an ordinary sized crib (not however to exceed one thousand cubic feet) shall be counted as one crib.

(*b*.) Round timber of from 12 to 16½ feet in length, commonly called "Saw-Logs" shall be charged for by the piece, or when that is not provided for by the tariff or any amendment subsequently made thereto, then sixty saw-logs shall be held to be equivalent to one crib of timber and shall be charged accordingly.

(*c*.) Flatted, round or partially hewn timber, under 13 inch mean diameter from bark to bark, shall be charged for when cribbed at half square timber rates, and when driven loose shall be charged each piece as a saw-log.

(*d*.) Flattened, round or partially hewn timber of 13 inches and upwards in mean diameter from bark to bark (commonly known as dimension timber) shall be computed into saw-logs of 15 feet in length and charged for accordingly.

(*e*.) Railway ties of eight feet in length and under shall be computed at the rate of five to a saw-log and shall be charged for accordingly.

(*f*.) Other wood goods shall be charged for at the discretion of the Collector, at such proportionate rates as would be chargeable under these regulations against the class of goods to which they are most nearly allied.

(*g*.) In dealing with sawn lumber one hundred and fifty superficial feet board measure shall be deemed to be equivalent to one saw-log.

2. No timber, saw logs, lumber or other wood goods shall be removed beyond a radius of three miles beyond the Chaudière Suspension Bridge, unless payment of

stoll and dues thereon has been first made or secured to the satisfaction of the Collector of tolls and dues, and any such goods so removed upon which the said tolls and dues remain unpaid within 34 hours after having been so removed may be detained by the Collector, under authority of the fourth section of the Act hereinbefore cited, and the Collector shall forthwith report the same to the Minister of Public Works and may retain such goods until the slidage dues and all costs and expenses shall have been paid, unless otherwise ordered.

Such statements or returns shall describe in detail all goods comprised therein, setting out as to such goods respectively the following particulars :—

Whether the same was made by the party furnishing the return or were purchased by him from others, and if made by himself, the name of foreman employed by him, and if purchased, the name of the vendor ;

The river or stream from which the same come ;

Where the same are at the time of the return ;

The slides, booms or other works used by them ;

As nearly as possible the length and mean diameter thereof (excepting saw-logs and square timber) and such other particulars as may be required by the printed form of return to be furnished by the Collector.

Any person making default under this section shall, subject to the limitation provided by section three of the said Act incur and pay a penalty of ten dollars a, day for each, of the first thirty days of such default and for each day thereafter a penalty of twenty-five dollars.

7. The dues for tolls on all slides and works shall bear interest at and after the rate of seven per cent. per annum from the 30th day of November of the year in which such dues shall have accrued, without prejudice to the right of the Crown to enforce payment at any prior date after the works have been used.

## AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 1st day of July, 1890.

PRESENT :

## HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

His Excellency, under the authority conferred upon him by the 2nd section of the Act 52 Victoria, chapter 23, intituled "An Act further to amend 'The Steamboat Inspection Act,' chapter 78 of the Revised Satutes," and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the following sections of the Rules and Regulations relating to the Inspection of Boilers of Steamboats, established by the Order in Council of the 17th day of September, 1889, that is to say, sections 44 and 45, and sections 92 to 102, the last named section being included, shall be and the same are hereby rescinded, and that the following rules and regulations relating to safety valves which are practically in accord with similar rules in force in the United Kingdom, shall be and they are hereby substituted therefor.

JOHN J. McGEE,
Clerk, Privy Council.

---

## RULES RELATING TO THE INSPECTION OF SAFETY VALVES.

44. (*a.*) After the following rules come into operation, every boiler made or placed on board a steamboat shall be fitted with two or more lock-up safety valves of a construction approved by the Board of Steamboat Inspection, or by the Chairman, if the Board is not then in session ; the aggregate area of said lock-up safety valves shall not be less than that given in the following tables opposite the boiler pressure intended, the safety valves should be upon the boiler, or as near the boiler as practicable without pipes, cocks, valves or other possible obstructions between the safety valves and the boiler.

Every inspector, when inspecting, visiting or examining the boiler or machinery of any steamboat, shall

satisfy himself that the safety valves attached thereto are of suitable dimensions, sufficient in number, well managed and in good working order, and only loaded so as to open at or below the certified working pressure; and he may, if he thinks proper, order and cause two or more of such safety valves (which together shall be of sufficient dimensions to discharge all the steam the boiler can generate, and of such construction as he approves) to be locked up and taken wholly away from the control of the engineer when the steam is up; but the engineer shall have access to the safety valves when the steam is not up, and shall see that they are kept in working order, and the master of the steamboat shall see that the engineer has access to them for that purpose, and keeps them in proper working order.

The cocks and valves attached to the boilers shall be substantially made, and in no case shall they be attached to the boilers by screwing into the plate, unless, as an additional security, bolted flanges are used in addition to such attachment.

No valve, under any circumstances, shall, at any time, be so loaded or so managed in any way, as to subject a boiler to a greater pressure than that allowed by the inspector at the then last inspection thereof:

Every safety valve made or placed on board of a steamboat and attached to a boiler shall have a lift equal to at least one-fourth of its diameter; the openings for the passage of steam to and from the valve shall each have an area not less than the area of the valve, as shall also the waste steam pipe, and the valve box shall have a waste water pipe; if the lever of a lever safety valve is not bushed with brass the pin shall be of brass,—iron and iron working together shall not be allowed; every such safety valve shall be fitted with lifting gear so that it can be worked by hand, either from the engine room or the fire hold, or by the master or person in charge on deck;

(*b.*) Safety valves should not be passed of a diameter less than two inches, except in the case of small boilers where the area of grate surface is less than fifteen square feet, when safety valves of less diameter may be used, but in no case shall their diameter be less than one inch, and provided they are of approved construction, and the proportion of area of safety-valve to area of grate be complied with as given by the tables of safety-valve areas.

(*c.*) The grate area shall be ascertained by measuring the length of the grate from the inner edge of the dead plate to the front of the bridge and the width from side to side of the furnace on top of the bars at the middle of their length.

(*d.*) The safety-valve should be tested (by the Inspector) on new boilers, or on other boilers if he wishes to test their efficiency, under full steam and full fires, for at least 15 minutes with the feed water shut off and stop-valve closed, if the accumulation of pressure exceed 10 per cent. of the loaded pressure, he should not issue a certificate without reporting to the chairman full particulars of the test, and the strength pressure of the boiler with sketch of safety-valve, and in no case is an Inspector to give a certificate for safety-valves, unless he has examined them and is acquainted with the detail of their construction.

45 (*a.*) Inspectors are instructed that in all new boilers and whenever alterations can be easily made, the valve chest should be placed directly on the boiler, and the neck or part between the chest and the flange which bolts on to the boiler should be as short as possible.

(*b.*) In any case in which an Inspector is of opinion that it is positively dangerous to have a length of pipe between the boilers and the safety-valve chest, he shall at once insist on the requisite alterations being made before granting a certificate.

(*d.*) If lever safety-valves are used the distance between the centre of the valve and the centre of the fulcrum should not be less than the diameter of the valve.

(*e.*) Safety valves must be placed in convenient and accessible places, that their adjustment and examination may be readily and efficiently made. The inspector in his examination of the boilers and machinery is particularly to direct his attention to the safety valves, and whenever he considers it necessary he is to satisfy himself as to the pressure on the boiler by actual trial. The inspector is to examine the safety valves, weights and springs at every inspection.

(*f.*) The valve seats should be secured so that they cannot lift with the valve.

(*g.*) The spindle should be so attached to the valve, that when the spindle is lifted the valve will also lift.

(*h.*) The size of the steel of which the spring is made in spring safety valves is found by the following formula taken from the Imperial Board of Trade Rules:—

$$\sqrt[3]{\frac{S \times D}{c}} = d$$

$c = 8000$ for round steel.

$c = 11000$ for square steel.

$S =$ The load on the springs in pounds.

$D =$ The diameter of the spring (from centre to centre of the wire in inches).

$d =$ diameter, or side of square, of the wire in inches.

The spring should be protected from the steam and impurities issuing from the boiler, and in case of the spring breaking means be provided to keep it in position on the valve.

(*i.*) A standard spring if made of the best square cast steel contains ·25 of a square inch, the inside diameter is two inches, and the outside diameter is three inches, it has thirteen complete coils with the ends and is 11½ inches long. The working load is assumed at 600 lbs., one-sixth of its breaking load when hardened to a temper, just sufficient to break it, at which load it should deflect just one inch.

(*j.*) To find the sectional area of any other spring the pressure or weight on the valve being given:—

600 : : 700 : ·25 : ·29 = sectional area of spring at 700 lbs. load. The other dimensions of the spring would be in like proportion, the number of coils thirteen being constant.

## AT THE GOVERNMENT HOUSE AT OTTAWA.

The 5th day of July, A.D. 1890.

PRESENT :

### HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

On the recommendation of the Minister of Inland Revenue, and under the provisions of Chapter 104 of the Revised Statutes of Canada, intituled "The Weights and Measures Act,"—

His Excellency in Council has been pleased to order, and it is hereby ordered, that the following regulations for the governance of the inspection of weights and measures be, and the same are hereby made and established :—

### REGULATIONS RESPECTING WEIGHTS AND MEASURES.

Section 1. The following balances are to be admitted to verification :—

A. Balances having equal arms, and on which the load is suspended below the fulcrums.
B. Balances commonly known as steelyards, or Roman balances, having unequal arms.
C. Weigh-bridges.
D. Balances with equal arms, and on which the load is placed above the fulcrums.
D 1. Hydrostatic balances for weighing coal.
D 2. Perfection scales.
D 3. Duplessis portable track scales.
D 4. Household scales.
D 5. Spafford improved platform counter scales.

Sec. 2. A. Balances with equal arms are only to be admitted to verification when :—

1. The beam shows no material difference as regards the form or magnitude of the two arms.

2. It is provided with a tongue pointing upwards or downwards from its centre, at right angles with a line joining the extreme bearings, or with some equivalent arrangement for indicating the position of the equilibrium.

3. It is in equilibrium when a line joining the extreme bearings is perfectly horizontal, and returns to that position after being put into vibration.

4. Its arms are equal within the specified limit of error.

5. The balance is sufficiently sensitive to be turned decidedly and promptly by the addition or withdrawal of so much of the load as represents the error tolerated by regulations in a commercial weight representing the load.

6. No balance balls or detached parts other than the pans and connections necessary for attaching them to the beam are used for adjusting the balance.

7. The balance, as a whole, is of sufficient strength, and on a sufficiently stable base, to secure it against change of form or position under the maximum load it is to carry.

8. The beam will carry its maximum load without deflection.

9. The maximum load for the weighing of which it is to be used is distinctly engraved or marked on the beam.

10. The knife edges are permanently fixed to the beam.

Sec. 3. B. Balances commonly known as *steelyards* or Roman balances, having unequal arms, are only to be admitted to verification when :—

1. There is sufficient room for oscillation, and the knife edges on which the beam oscillates are sufficiently fine to permit it to move freely.

2. The beam is sufficiently strong to carry its load without deflection.

3. The bottom of the notches by which the divisions of the long arm of the lever are indicated, and from which the weight is suspended, are in close approximation to a right line drawn through the knife-edges forming the points of suspension, and when such straight line passes near to and a little above the centre of gravity of the whole apparatus.

4. The divisions on the long arm of the lever are equal among themselves.

5. The weight used with the lever—if it is changeable or can be readily detached therefrom—is some multiple or sub-multiple of the pound avoirdupois, and has distinctly marked on it its true weight.

6. The maximum weight intended to be weighed on it is either distinctly marked on the beam or indicated by its construction.

Sec. 4. C. Weigh-bridges, hay scales and platform scales will only be admitted to verification when :—

1. The foundation or supporting base is sufficiently firm, and capable of carrying without change of level or of form or other disturbance, the maximum load for which it is to be used.

2. If movable from place to place, some satisfactory arrangement, such as a level or plummet, is provided and permanently attached, for indicating whether the machine is perfectly level.

3. The platform is so arranged that any obstruction to its free movement can be easily detected.

4. All the beams, levers and other parts are of sufficient strength to carry the maximum load to which they will be respectively subjected without deflection.

5. The knife-edges are firmly and permanently fixed in the levers, have sufficient room to permit free oscillation, and are sufficiently firm.

6. The knife-edges and fulcrums of each set of levers are in the same plane.

7. The oscillations are sufficiently evident.

8. The weights used with the instrument are equal to the avoirdupois pound, or to multiples or authorized sub-multiples of the avoirdupois pound, or special weights for the barrel of flour or for the bushel of wheat, their actual weight and the weight or special quantity they are intended to indicate on the scale being plainly marked thereon.

9. The weights used as above are a decimal sub-multiple, as $\frac{1}{10}$, $\frac{1}{100}$, $\frac{1}{1000}$, or a binary sub-multiple as $\frac{1}{2}$, $\frac{1}{4}$, $\frac{1}{8}$, &c., of the load indicated by them.

10. There are no detached parts for the adjustment of the balance accessible, or so placed that they can be used for fraudulent weighing.

11. The apparatus indicates the same weight, whether the load is placed in the centre of the platform, on one side of it, or at either corner.

12. The maximum load which the apparatus is intended to weigh and the maker's name and shop number are conspicuously cast, engraved or stamped on some essential part of it.

### *Platform Scales, Weigh-bridges, and Balances with Unequal Arms.*

Sec. 5. All these weighing machines will be rejected :

1. When with a full load, and truly balanced, the movement of the lever-weight one "notch" or division on the graduated lever, in either direction, does not cause the lever to turn decidedly in accordance with such movement.

2. When, with a full load, or with any less load, and with the balance in equilibrium, the addition or removal of one two-thousandth part of the load, to or from the load, does not turn the lever decidedly in accordance with such addition or removal.

3. When the maker's name, shop number and maximum capacity are not legibly cast, engraved or stamped on them. And when the knife-edges are not made of properly tempered steel, and the bearings of the same material or of chilled or case hardened malleable iron. (This clause applies as well to balances with equal arms, but shall in all cases apply only to original verification.)

4. When unprovided with check-rods to hold the bearings in place. *

Sec. 6. D. Balances with equal arms, and on which the load is carried above the fulcrums, will only be admitted to verification when :—

1. There are no material difference as to the magnitude or arrangement of the two arms.

2. Its arms are of equal length within a limit of error equivalent to that tolerated in commercial weights.

3. There are no balance balls, loose counterpoises or detached parts other than the pans necessary for carrying the load weighed, and the weights used for weighing it.

4. Its parallel rods, guides, levers and pivots, by which the adjustment of the scale is affected, are so constructed that they cannot be put out of adjustment without the use of violence, which may be readily detected on inspection.

5. The knife edges or fulcrums of each set of levers or guide-rods are in the same plane.

6. The balance is sufficiently sensitive to turn decidedly and promptly by the addition and withdrawal of so much of the load as is equivalent to the error tolerated in commercial weights.

7. When there is a tongue or pointer, or some equivalent arrangement for showing when the balance is in equilibrium.

—

D1. Weighing machines known as "hydrostatic balances," being such as are commonly used for determining the weight of coals delivered at the pit mouth, may be verified for use for such purposes, and also for weighing coals as delivered from vessels and barges, provided they give true indications within one two-hundredth part of the load.

D 2. Weighing machines known as "Perfection Scales," when manufactured in accordance with specifications deposited in Patent Office at Ottawa, may be admitted to verification when found to weigh correctly.

D 3. Weighing machines known as "Duplessis Portable Track Scales" used for determining the weight of cars on railway tracks may be admitted to verification for use for such purposes, provided they give indications within one four-hundredth part of the load.

D 4. A weighing machine known as the "Household Scale," a balance with equal arms to carry a load above the fulcrums of not more than ten (10) pounds in each pan. In its construction and verification it must in every respect comply with the requirements of Paragraph D, above. The words "Household Scale" must be engraved or stamped in bold legible letters of not less than one-fourth of an inch in height, on some conspicuous part of each scale so that at a glance its classification may be known.

This scale shall be used for household purposes only, and should any such scale be found in use for trade purposes of any description it shall be seized and confiscated by an inspecting officer, and the fee for the verification of the above described "Household Scale, D 4," shall be ten (10) cents for each scale.

D 5. A scale known as the "Spafford Improved Platform Counter Scale," and all scales of similar construction as regards the scoop counterpoise, are also added to the schedule of scales to be admitted to verification.

No balances other than such as will come within the conditions under one or other of the heads, A, B, C or D, are to be verified or stamped.

### *Weights and Measures—Regulations.*

Sec. 7. E. Verification and stamping of weights, measures and weighing machines on the premises of the manufacturer, and their removal therefrom.

1. The article shall bear the name of the maker, capacity and consecutive shop-number or other marks whereby it may be designated for identification, with the certificate of verification.

2. The verification and stamping must take place before the articles are packed for removal, and at that state of completion at which they are finally adjusted by the manufacturer.

3. For the first verification and stamping of weights, measures and weighing machines at the place where they are manufactured, the fees may be paid at once, or payment may be postponed for such period not exceeding three months as the Minister of Inland Revenue may authorize. Sufficient security being taken for the payment thereof at the time stated in the Departmental Regulations under which the delay is granted.

Sec. 8. F. Weights, measures and weighing machines imported into Canada are to be dealt with as follows :—

1. The Collector of Customs at the port where such articles are imported will notify the nearest inspector or assistant inspector of weights and measures of the entry for consumption of any weights, measures or weighing machines at his port, which notice will state the number and description of such articles as are invoiced, and the names and residence of the parties to whom they are delivered.

2. So long as such articles remain in the original packages they may be removed from the Custom house or from a Customs warehouse to the premises of the importer without inspection.

Sec. 9. G. Nothing in these regulations, nor in any previous regulations is to be construed as preventing the importation, manufacture or removal of and setting up, before they are verified, of dormant* scales or weigh-bridges of any description, coming within the requirements of the law, but which cannot be used nor properly verified until they are placed on a fixed foundation. But it shall be the invariable duty of the manufacturer or importer of such weighing machines to duly notify the inspector of weights and measures nearest to his place of business, of the shipment and destination of each of such articles ; and said manufacturer or importer shall be held responsible for its verification before being used for trade purposes.

Any trader not being a manufacturer of, or dealer in, such weighing machines, who imports such articles for his own use, shall be considered an importer, and therefore subject to the above regulations.

Sec. 10. H. 1. Iron weights of the denomination of half a pound or under may be admitted to verification, provided they are of such substance that a soft metal plug on which the stamp may be impressed, can be securely fixed therein, and when such soft metal plug is so fixed in them by the parties who present them for verification ; but,—

2. When any iron weight is presented for verification, or when any such weight is found in use from which a soft metal plug has been lost, it shall not be adjusted or restamped until the hole in which the plug was inserted has, in the presence of the Inspector, been enlarged at the bottom, so that the expansion of the lead used for adjusting it will prevent it subsequently falling out.

---

* Note.—Nothing in the above 4th section shall apply to weighing machines constructed on the *Howe* principle.

* The term "*dormant*," shall be understood to cover only such weighing-machines as weigh-bridges, hay and track scales, or such weighing-machines only as require to be placed on a specially prepared foundation.

I. (By Order in Council of 7th June, 1890, Clause I of the Order in Council of the 22nd day of July, 1886, and Section 15 of Chapter 42 of the Consolidated Orders in Council dated 9th January, 1889, admitting Grain Testers to verification, are cancelled.)

Sec. 11. J. Salt carts, each to contain four imperial bushels, constructed, as to form and dimensions, in accordance with plan or drawing of the same to be attached to weights and measures regulations, shall be admitted to verification.

2. Salt carts made in any other form or according to other dimensions than the foregoing will not be admitted to verification, and consequently their use for trade purposes will be held to be illegal.

3. The fee chargeable for verifying and stamping each salt-cart shall be one dollar.

### TRACADIE RANGE LIGHTS.

In consequence of the formation of sand spits and banks in the alignment of the range lights at Tracadie, Grand Tracadie Harbour, in Queen's County, on the Gulf coast of Prince Edward Island, it has become necessary to discontinue the lights as usually shown from the established towers, which must not be used as marks to enter either upon the bar or in the harbour channel.

Two temporary range lights, consisting of lanterns hoisted on masts, have been established on the western side of the harbour. The masts stand on the sand hills, the front one being 12 and the back one 18 feet high. The alignment shows the best water over the bar.

The present channel is crooked and unreliable, and vessels drawing more than 5 feet water should not attempt to enter the harbour without a pilot.

This notice affects Admiralty Charts Nos. 2034 and 2666 and Canadian List of Lights No. 324.

## DÉPÊCHES.

*Les Règlements qui suivent ont été transmis afin qu'ils soient publiés en Canada.*

Amirauté, 25 janvier 1890.

### RÈGLEMENTS

Concernant l'admission d'étudiants-ingénieurs dans la marine de Sa Majesté et d'étudiants en construction navale dans les arsenaux de Sa Majesté à Devonport.

(Les étudiants-ingénieurs sont dressés pour service à bord comme officiers-ingénieurs.)

(Les étudiants en construction navale sont dressés en vue de leur entrée dans le corps royal de constructeurs navals.)

1. Les vacances parmi les étudiants-ingénieurs dans la marine de Sa Majesté seront remplies principalement au moyen d'examens de concours ouverts à tous fils de sujets britanniques, de l'âge voulu et de bonnes mœurs, mais Leurs Seigneuries se réservent le droit de nommer un petit nombre de candidats à chaque entrée lesquels seront admis s'ils passent l'examen spécifié au paragraphe 11.

Les candidats à nommer le seront par le Bureau de l'Amirauté parmi les fils d'officiers de l'armée, de la marine ou armée de marine qui ont été tués dans un engagement, ou qui ont été perdus en mer en service actif, ou tués en devoir, ou qui sont morts de blessures reçues dans un engagement ou de blessures reçues en devoir dans les six mois à dater de cet engagement ou cette blessure ; ou parmi les fils d'officiers de la marine ou de l'armée de marine qui ont servi longtemps et avec distinction.

Le nombre à nommer ainsi n'excèdera pas un cinquième du nombre total des étudiants-ingénieurs à admettre. Sauf quant à l'exemption de l'examen de concours, ces candidats seront soumis sous tous rapports aux présents règlements.*

---

* Les demandes de nominations devront être faites de manière à être reçues à l'Amirauté avant le premier de février de chaque année, et devront être adressées au Secrétaire de l'Amirauté si le candidat est le fils d'un officier de la marine ou de l'armée de marine ; au Secrétaire Militaire, *Horse Guards*, si le candidat est le fils d'un officier de l'armée ; et au Secrétaire Militaire, Bureau des Indes, si le candidat est le fils d'un officier de l'armée de l'Inde.

Trois brevets d'étudiants-ingénieurs seront donnés annuellement à des fils de gentilshommes dans les colonies sur la recommandation du Secrétaire d'Etat pour les Colonies, pourvu qu'ils passent l'examen requis. Ces candidats seront sujets aux mêmes règlements que les candidats de service nommés.*

2. Le nombre des admissions qui seront faites chaque année, sera fixé par Leurs Seigneuries.

3. La liste des candidats pour ces admissions par concours public sera gardée au bureau du commissaire du Service Civil. Toutes demandes de formules à remplir par les personnes désirant concourir doivent être envoyées au "*Secretary, Civil Service Commission, London, S.W.*, le ou après le premier de janvier de chaque année, et il faut veiller à ce que les formules une fois remplies soient renvoyées de manière qu'elles parviennent aux Commissaires du Service Civil le ou avant le 15 mars suivant, vu que les formules reçues après cette date seront mises de côté. La liste des candidats nommés sera gardée à l'Amirauté.

4. Les candidats ne devront pas être âgés de moins de quatorze ni plus de seize ans le premier jour de mai de l'année dans laquelle ils sont examinés.

5. Des certificats d'âge et de mœurs ne seront pas exigés avant l'examen, mais les candidats heureux ne seront éligibles pour admission qu'après avoir fourni des preuves sous ce rapport aux Commissaires du Service Civil.

6. L'examen médical des candidats heureux aura lieu sous le contrôle de Leurs Seigneuries aussitôt que possible après que le résultat de l'examen sur l'éducation aura été connu. Nul candidat ne sera inscrit comme étudiant-ingénieur à moins d'être certifié capable physiquement. Les candidats dans ou près de Londres seront examinés par le directeur général médical de marine à l'Amirauté. Ceux qui résident près d'un des chantiers de Sa Majesté, ou un des vaisseaux de la première réserve, ou vaisseaux-écoles de la réserve de la marine royale, ou le vaisseau-amiral à Queenstown, seront examinés par l'officier médical y attaché. L'examen médical sera conduit sous tous rapports strictement en conformité des instructions pour l'examen des personnes désirant entrer dans le service naval. Tous les candidats lors de leur examen médical devront prouver à la satisfaction des officiers examinateurs qu'ils ont été revaccinés, ou bien ils devront être revaccinés avant qu'ils puissent être considérés éligibles pour entrer dans la marine de Sa Majesté.

7. L'examen sur l'éducation sera tenu par les commissaires du service civil à Londres, Liverpool, Portsmoth, Devonport, Bristol, Leeds, Newcastle-on-Tyne, Edimbourg, Glasgow et Dublin, et auront lieu dans le mois d'avril chaque année. On pourra s'assurer de la date exacte en s'adressant au Secrétaire, Commission du service civil, le ou après le premier janvier de chaque année.

10. Les candidats dans l'examen de concours qui manquent sur les quatre premiers sujets (ceux marqués d'un astérisque *), ou dans la lecture à haute voix, seront renvoyés, et les autres papiers ne seront pas examinés. Les candidats heureux seront inscrits comme étudiants-ingénieurs dans la Marine de Sa Majesté, selon le nombre d'admissions qu'il sera décidé de faire chaque année ; ils seront pris à tour de rôle sur la liste d'examen. Les candidats qui obtiennent moins de 880 points en tout ne seront pas inscrits sur la liste.

11. Les candidats qui sont nommés par Leurs Seigneuries, et par le Secrétaire d'Etat pour les Colonies, seront obligés de passer le même examen d'épreuve dans les premiers quatre sujets et la lecture à haute voix, que les candidats qui se présentent à l'examen de concours. Ils seront aussi examinés sur les autres sujets afin de s'assurer de la somme de leurs connaissances et afin de fixer leur ordre de mérite, et nul candidat dont le chiffre collectif de points est de moins de 880 ne sera admis comme étudiant-ingénieur.

12. Les candidats seront informés par une lettre de la Commission du Service Civil, du résultat de leur examen, aussitôt que ce résultat sera connu.

Ils continueront sous la discipline navale jusqu'à leur entrée comme aides-constructeurs. (*Voir* paragraphe 45.)

Un aide-constructeur n'aura pas la permission de quitter le service avant l'expiration de sept ans après qu'il a complété son terme au Collège Royal de Marine à Greenwich, à moins de payer la somme de £500. Le paiement de cette somme est dans le but de défrayer les frais encourus par le public pour son éducation.

15. Les étudiants en construction navale compléteront cinq ans de service à Devonport, dans l'Ecole de préparation pour les étudiants-ingénieurs, et seront assujétis aux mêmes conditions quant aux honoraires, solde, uniforme et autres détails que ceux prescrits de temps à autre pour les étudiants-ingénieurs. Leur cours d'instruction sera spécifié de temps à autre. (*Voir* paragraphes 40 à 48.)

Le parent ou tuteur de chaque étudiant-ingénieur inscrit sera tenu de payer la somme de £40 par année (*voir* paragraphes 30 et 31) pour chaque année que l'étudiant restera à l'école—quatre, cinq ou six ans selon le cas. Les lords commissaires de l'Amirauté auront la faculté, toutefois, de choisir, parmi les étudiants inscrits à chaque examen annuel, un nombre, n'excédant pas cinq, étant fils d'officiers de la marine, de l'armée de terre, ou de l'armée de marine, ou des officiers civils sous le Bureau de l'Amirauté, au sujet desquels le paiement annuel ne sera que de £25 seule-

ment. Leurs Seigneuries se réservent aussi le pouvoir de réduire encore cette dernière somme dans le cas de fils d'officiers tués ou noyés, ou qui de toute autre manière ont perdu la vie en service. En faisant leur choix, Leurs Seigneuries ne considéreront que les circonstances pécuniaires des parents ou tuteurs des étudiants.

17. Les paiements seront faits semi-annuellement, à l'avance, au caissierde l'arsenal de Sa Majesté à Devonport, le premier paiement sera fait le ou avant le 1er de juillet, date de l'inscription de l'étudiant, et les autres paiements le ou avant le 1er de janvier et le 1er de juillet. Si un étudiant pour une cause quelconque quitte le service ou en est renvoyé, nulle partie des paiements faits pour lui ne sera remboursée.

18. Les parents ou tuteurs des étudiants seront aussi requis de procurer l'uniforme (*voir* paragraphe 51) ou autres vêtements, blanchissage et choses nécessaires de chaque étudiant. L'Amirauté fournira la pension, le logement et les soins médicaux. Les étudiants seront tenus de résider dans l'école de préparation à Keyham.

19. La paie hebdomadaire des étudiants pendant leur cours sera comme suit, à condition qu'ils aient de bonnes notes des officiers :—

21. Les étudiants ne perdront pas de paie lorsque en congé, ou lorsque blessés en devoir. Lorsqu'ils sont malades ou sont envoyés à l'hôpital pour des causes en dehors de leur contrôle, leur paie ne sera retranchée que s'ils sont absents six mois en tout dans toute période de douze mois. A l'expiration de ce temps un rapport spécial de chaque cas sera fait à Leurs Seigneuries. Si la maladie provient de causes sous leur contrôle leur paie sera retranchée. Si après douze mois d'absence pour cause de maladie ou de blessure les étudiants sont rapportés comme permanemment ou vraisemblablement incapables d'entrer au service de Sa Majesté comme aides-ingénieurs ou aides-constructeurs, ils seront congédiés. Si, dans le cours de son apprentis-age, il se développe chez l'étudiant quelque incapacité physique qui le rende impropre au service, il sera congédié.

22. Les étudiants seront sous la surveillance du surintendant de l'arsenal et d'un corps d'officiers, et soumis aux règles et règlements que Leurs Seigneuries jugeront nécessaires.

23. Les étudiants recevront une instruction pratique dans les ateliers et seront mis au fait de la construction des navires en fer à l'arsenal de S. M. à Devonport. Tandis que les étudiants-ingénieurs étudient la construction des navires en fer ils seront sous la direction du constructeur-chef. Ils assisteront aux écoles de l'arsenal pendant les périodes, et suivront les études qui seront fixées de temps à autre ; ils passeront aussi une partie de leur temps dans le bureau de dessin. Il leur sera fourni les moyens d'acquérir les bases fondamentales des connaissances requises d'un ingénieur naval au sujet des machines et chaudières de marine, y compris les réparations qui peuvent être faites en mer, l'usage pratique des divers instruments employés dans la chambre de la machine, aussi de la construction et fonctionnement du mécanisme de l'éclairage électrique, des torpilles et des canons, et de connaître généralement les devoirs d'un ingénieur naval.

24. Les étudiants seront examinés une fois par année sous la direction du président du Collège Royal de Marine, Greenwich.

## ARRÊTÉ EN CONSEIL.

## EXTRADITION ENTRE LA GRANDE-BRETAGNE, LA FRANCE ET LA TUNISIE.

—

AU CHATEAU DE WINDSOR,
1er mai 1890.

PRÉSENTS :

Sa Très Excellente Majesté la REINE.

Le lord Président,
Le comte de Coventry,
Le comte de Limerick.

CONSIDÉRANT que par les *Actes d'Extradition*, 1870 et 1873, il est statué, entre autres choses, que chaque fois qu'un arrangement aura été conclu avec un Etat étranger au sujet de la reddition à cet Etat des criminels fugitifs, Sa Majesté pourra ordonner par arrêté en conseil que les dits actes s'appliqueront à l'égard de l'Etat étranger en question ; et que Sa Majesté pourra, par le même ou par un arrêté subséquent, restreindre l'opération du dit arrêté et limiter son application aux criminels fugitifs qui se trouvent ou sont supposés se trouver dans la partie des possessions de Sa Majesté spécifiées dans l'arrêté, et en rendre l'exécution sujette aux conditions, exceptions et restrictions qui pourront être jugées convenables ; et que si, par quelque loi adoptée après la sanction de l'Acte de 1870 par la législature de toute possession britannique, il est pourvu à l'extradition des criminels fugitifs qui se trouvent ou sont soupçonnés se trouver dans cette possession britannique, Sa Majesté pourra, par un arrêté en conseil, appliquer les dits actes à l'égard de tout Etat étranger, ou par tout arrêté subséquent suspendre la mise en opération, dans toute telle possession britannique, des dits actes ou de toute partie de ces actes, en tant qu'ils se rapportent à cette puissance étrangère, et aussi longtemps que ces lois continueront d'y être en vigueur, mais pas plus longtemps ;

Et considérant que dans un acte du parlement du Canada, passé en 1886, intitulé "Acte concernant l'extradition de criminels fugitifs," il est pourvu à la reddition des criminels fugitifs qui se trouvent ou pourront se trouver au Canada ;

Et considérant que par un arrêté de Sa Majesté en conseil, en date du dix-septième jour de novembre mil huit cent quatre-vingt-huit, il est décrété que l'opération des Actes d'extradition de 1870 et 1873 sera suspendue au Canada tant que les dispositions du dit acte du parlement du Canada de 1886 continueront en vigueur et pas plus longtemps ;

Et considérant qu'un traité a été conclu le quatorzième jour d'août mil huit cent soixante-seize entre Sa Majesté et le Président de la République Française touchant l'extradition mutuelle des criminels fugitifs, dans le cas duquel traité les susdits actes du parlement ont été appliqués par un arrêté en conseil en date du seizième jour de mai mil huit cent soixante-dix-huit ;

Et considérant qu'un arrangement a été conclu le trente-unième jour de décembre mil huit cent quatre-vingt-neuf entre le gouvernement de Sa Majesté et le gouvernement de la République Française, agissant au nom du gouvernement de Son Altesse le Bey de Tunis, à l'effet d'étendre les dispositions du dit traité du 14 d'août 1876 à la Tunisie, lequel arrangement est ainsi conçu :—

“ Le gouvernement de Sa Majesté Britannique d'une part, et le gouvernement de la République Française agissant au nom du gouvernement de Son Altesse le Bey de Tunis, de l'autre, en vue d'assurer autant que possible l'arrestation et la remise à la juridiction compétente des malfaiteurs qui cherchent à se soustraire par la fuite à l'action de la justice, sont convenus de ce qui suit :—

“ Les dispositions de la Convention Franco-Anglaise du 14 août 1876, sont étendues à la Tunisie, sauf que le délai de quatorze jours stipulé par l'Article IX de la dite Convention est porté à deux mois.

“ Le présent arrangement aura la même durée que la Convention d'Extradition à laquelle il se rapporte.

“ En foi de quoi les soussignés, Son Excellence le comte de Lytton, Ambassadeur de Sa Majesté Britannique à Paris, et Son Excellence M. Spuller, ministre des Affaires Etrangères de la République Française, ont dressé le présent arrangement, et y ont apposé leurs cachets.

“ Fait à Paris, le 31 décembre 1889.

“ (L.S.) LYTTON,
“ (L.S.) E. SPULLER.”

C'est pourquoi Sa Majesté, par et de l'avis de son Conseil privé, et en vertu de l'autorité que lui confèrent les dits actes cités, ordonne et il est par le présent ordonné, que le et après le seizième jour de mai mil huit cent quatre-vingt-dix, les dits actes s'appliqueront dans le cas de la Tunisie, en conformité du dit arrangement avec la République Française.

Pourvu, toujours, et il est par le présent ordonné que l'opération des dits Actes d'extradition 1870 et 1873 sera suspendue dans la Puissance du Canada, en tant qu'il s'agit de la Tunisie et de la dite convention, tant que les dispositions de l'acte canadien de 1886 resteront en vigueur, et pas plus longtemps.

### RÈGLEMENTS.

Afin de rendre uniforme l'application des droits, tous bois de construction et bois de service seront, sauf dans les cas spécialement prévus par le dit tarif ou quelque modification du dit tarif, classifiés comme suit :—

(*a.*) Le bois carré et en déclin ou à planche sera désigné bois carré, et sera imposé à tant par cage (crib), et dans le cas où du bois de cette description passe par aucun des travaux autrement qu'en cages, un nombre de pièces suffisant dans l'opinion du percepteur ou d'un député dûment autorisé par lui pour faire une cage d'une grandeur ordinaire (ne devant pas toutefois excéder mille pieds cubes) sera compté pour une cage.

(*b.*) Le bois rond, de 12 à 16½ pieds de longueur, communément appelé “ bois de sciage,” sera imposé à la pièce ou, lorsqu'il n'y est pas pourvu par le tarif ou aucun amendement qui y sera subséquemment apporté, alors soixante billots de sciage seront censés équivaloir à une cage de bois de construction et paieront en conséquence.

(*c.*) Le bois plat, rond ou en partie ébauché, d'un diamètre moyen de moins de 13 pouces d'une écorce à l'autre, paiera, lorsqu'il est mis en cages la moitié des taux du bois carré, et lorsqu'il est flotté en pièces détachées, chaque pièce paiera le taux d'un billot de sciage.

(*d.*) Le bois plat, rond ou en partie ébauché d'un diamètre moyen de 13 pouces et plus d'une écorce à l'autre (communément appelé bois de dimension) sera calculé en billots de sciage de 15 pieds de longueur et paiera en conséquence.

(*e.*) Les traverses de chemins de fer de huit pieds de longueur et au-dessous seront calculés au taux de cinq par billot de sciage et paieront en conséquence.

(*f.*) Les autres articles en bois seront, à la discrétion du percepteur, imposés aux taux proportionnels qui seraient imposables en vertu des présents règlements sur la classe d'effets qu'ils ressemblent le plus.

(*g.*) En calculant le bois scié, cent cinquante pieds en superficie mesure de planche seront censés équivaloir à un billot de sciage.

2. Nuls bois de construction, billots de sciage, bois de service ou autres articles de bois ne seront transportés au delà d'un rayon de trois milles plus bas que le pont suspendu des Chaudières, à moins que le paiement des péages et droits sur ces bois n'ait d'abord été fait ou garantie à la satisfaction du percepteur des péages et droits ; et tous tels articles ainsi enlevés sur lesquels les dits péages et droits restent impayés pendant 34 heures après qu'ils ont été déplacés, pourront être détenus par le percepteur en vertu du quatrième article de l'acte précité, et le percepteur devra de suite en faire rapport au ministre des Travaux Publics et pourra retenir ces articles jusqu'à ce que les droits de glissoires et tous les frais et dépenses aient été payés, à moins qu'il n'en soit autrement ordonné.

3. Le propriétaire ou la personne en charge du bois de construction, des billots de sciage, ou autres articles de bois lorsqu'il fait usage d'aucune des glissoires, estacades, barrages ou autres travaux dans la rivière, fera un rapport de ces articles au sous-chef des glissoires ou personne en charge des constructions, indiquant le nombre des cages (si ce bois est en cages) et, s'il en est requis, le nombre et les dimensions moyennes de chaque classe, et il signera et délivrera au sous-chef des glissoires ou personne en charge des constructions, un écrit en double nommant le propriétaire des articles et les glissoires ou autres travaux par lesquels ils sont passés, et pour toute infraction du présent article il encourra une amende de dix pour cent en sus du montant des péages et droits d'ailleurs imposables, cette amende ne devant pas excéder en tout quatre cents piastres.

4. Chaque propriétaire de scierie ou personne en charge d'une scierie, ou l'exploitant, et chaque autre personne commerçant sur le bois de construction, les billots de sciage, le bois scié ou autres articles de bois, fournira au percepteur des péages et droits le ou avant le trentième jour de septembre de chaque année un état attesté sous serment ou déclaration solennelle en vertu du statut à cet effet et sur une formule imprimée qui sera fournie par le percepteur sur demande, indiquant les détails sous-mentionnés quant à tous tels articles fabriqués ou acquis par lui, sauf le bois carré envoyé en radeaux à Québec dans le cours de la saison

d'opérations précédente et jusqu'à la dite date ou depuis la fin de la période comprise dans son dernier rapport en vertu du présent article ou du suivant,—et le ou avant le 15e jour de novembre de chaque année un semblable état quant à tous tels articles fabriqués ou acquis par lui subséquemment au 30e jour de septembre ou date du précédent état. Ces états ou rapports donneront une description détaillée de tous articles qui y sont compris et énonçant les détails suivants :—

S'ils ont été fabriqués par la personne qui fait le rapport ou ont été achetés par lui d'autres personnes, et s'ils ont été fabriqués par lui-même le nom du contremaître employé, et s'il les a achetés, le nom du vendeur ;

La rivière ou cours d'eau d'où ils viennent ;

Où sont ces articles à la date du rapport ;

Les glissoires, estacades ou autres travaux où ils ont passé ;

Aussi près que possible leurs longueur et diamètre moyen (à l'exception des billots de sciage et du bois carré) et tels autres détails qui seront requis par la formule imprimée de rapport que fournira le percepteur.

Toute personne qui enfreint le présent article encourra et paiera, sujet à la limitation établie par l'article trois du dit acte, une amende de dix piastres par jour pour chacun des premiers trente jours de cette infraction, et pour chaque jour en suivant une amende de vingt-cinq piastres.

5. Le percepteur des péages et droits pourra en tout temps demander de toute personne tenue de faire rapport en vertu de l'article précédent, un état indiquant les effets alors en possession de cette personne ou les articles fabriqués ou acquis par elle depuis la date de son dernier rapport, et chaque état en vertu du présent article énoncera par rapport à ces effets ou articles ainsi fabriqués ou acquis, tous les détails mentionnés dans l'article immédiatement précédent, ou tels détails qui pourront être spécifiés dans la demande ; et tout rapport demandé en vertu du présent article sera fait dans les cinq jours qui suivront la demande, sujet aux mêmes amendes pour défaut que celles prescrites dans le quatrième article des présents règlements.

6. Si le percepteur des péages et droits est d'opinion qu'un rapport exigé par l'un ou l'autre des deux articles qui précèdent est incomplet sous quelque rapport, il pourra demander à la personne qui le produit de l'amender ou de le corriger, et si cette personne manque de se conformer à cette demande dans les cinq jours suivants elle encourra et paiera les mêmes amendes que celles prescrites dans le quatrième article des présents règlements.

7. Les droits et péages sur toutes les glissoires et travaux porteront intérêt au taux de sept pour cent par année à compter du trentième jour de novembre de l'année dans laquelle ils sont devenus dus, sans préjudice du droit de la couronne de contraindre paiement à toute date antérieure après que les travaux ont été employés.

8. Afin de faciliter le règlement et la perception des revenus, le percepteur des droits de glissoires pourra prendre des billets à ordre à son propre nom, ou des obligations au nom de la Reine pour le montant dû pour péages et amendes en vertu des présents règlements ; mais ces billets ou obligations n'affecteront en aucune manière le privilège de la couronne, ni seront une exception au droit de saisie et de détention que donne la loi.

## HOTEL DU GOUVERNEMENT À OTTAWA,

Mardi, le 1er jour de juillet 1890.

PRÉSENT :

## SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

Il plaît à Son Excellence, en vertu de l'autorité qui lui est conférée par le 2e article de l'acte 52 Victoria, chapitre 23, intitulé " Acte modifiant de nouveau l'Acte d'inspection des bateaux à vapeur, chapitre 78 des Statuts Revisés," et par et avec l'avis du Conseil Privé de la Reine pour le Canada, d'ordonner que les articles suivants des Règles et Règlements concernant l'inspection des chaudières des bateaux à vapeur, établis par l'arrêté en conseil du 17e jour de septembre 1889, savoir, les articles 44 et 45, et les articles 92 à 102, ce dernier article étant compris, soient et ils sont par le présent rescindés, et que les règles et règlements suivants relatifs aux soupapes de sûreté qui s'accordent en pratique avec les règlements en vigueur dans le Royaume-Uni, soient et ils sont par le présent substitués aux dits règlements.

JOHN J. McGEE,
Greffier du Conseil privé.

## RÈGLEMENTS CONCERNANT L'INSPECTION DES SOUPAPES DE SURETÉ.

44. (*a.*) Après que les règlements seront devenus exécutoires, chaque chaudière faite ou placée à bord d'un bateau à vapeur sera munie de deux soupapes de sûreté, ou plus, fermées à clef dont la construction sera approuvée par le Bureau d'inspecteurs de bateaux à vapeur, ou par le Président, si le Bureau n'est pas alors en session ; l'aire collective des dites soupapes de sûreté ne sera pas inférieure à celle spécifiée dans la table ci-jointe vis-à-vis la pression attribuée à la chaudière ; les soupapes de sûreté devraient être posées sur la chaudière, ou aussi près que possible de la chaudière, sans tuyaux, robinets, soupapes ou autres obstacles possibles entre les soupapes de sûreté et la chaudière.

Chaque inspecteur, lorsqu'il inspecte, visite ou examine la chaudière ou les machines d'un bateau à vapeur, devra s'assurer que les soupapes de sûreté y attachées sont de dimensions convenables, en nombre suffisant, bien disposées et fonctionnent bien, et ne portent que le poids nécessaire pour leur permettre de s'ouvrir à la pression ou au-dessous de la pression effective certifiée ; et, s'il le juge à propos il pourra ordonner que deux de ces soupapes de sûreté ou plus (lesquelles seront ensemble de dimensions suffisantes à laisser échapper toute la vapeur que la chaudière peut produire, et dont il approuvera la construction) soient fermées à clé et soustraites au contrôle du mécanicien lorsque la vapeur est levée ; mais le mécanicien aura accès aux soupapes de sûreté lorsque la vapeur n'est pas levée, et veillera à ce qu'elles soient tenues en bon état de fonctionnement, et le capitaine du bateau à vapeur verra à ce que le mécanicien y ait accès à cette fin, et les tienne en bon état de fonctionnement.

Les robinets et soupapes attachés aux chaudières seront solidement faits, et jamais fixés aux chaudières au moyen de vis dans la tôle, à moins que pour plus grande sûreté, des brides boulonnées ne soient ajoutées en sus de ces attaches

Aucune soupape ne devra, dans aucun cas, porter un poids, ou être arrangée de manière à assujétir la chaudière à une plus grande pression que celle permise par l'inspecteur lors de sa dernière inspection.

Chaque soupape de sûreté faite ou placée à bord d'un bateau à vapeur et attachée à une chaudière devra avoir un jeu au moins égal à un quart de son diamètre, les orifices pour le passage de la vapeur en entrant et sortant, auront chacun une aire égale à l'aire de la soupape, de même que le tuyau de renvoi d'eau, et la boîte de la soupape aura un tuyau de renvoi d'eau ; si le levier d'une soupape de sûreté n'est pas emboîté dans du cuivre, la cheville sera de cuivre,—le fer en contact avec le fer ne sera pas permis ; chaque soupape de sûreté sera munie d'un appareil de levage de manière à pouvoir le faire fonctionner avec la main, soit de la chambre de la machine soit de la cale des feux, ou par le capitaine ou personne en charge sur le pont ;

(*b.*) On ne doit pas admettre de soupapes de sûreté qui n'ont pas au moins deux pouces de diamètre, sauf dans le cas de petites chaudières dont la surface de grille a moins de quinze pieds carrés, cas où l'on peut tolérer des soupapes de sûreté d'un moindre diamètre ; mais en aucun cas ce diamètre ne doit avoir moins d'un pouce, et pourvu qu'elles soient d'une construction approuvée, et que l'aire de la soupape de sûreté soit relativement à l'aire de grille dans le rapport indiqué dans les tables d'aires de soupapes de sûreté.

(*c.*) L'aire de grille sera constatée en mesurant la longueur de la grille depuis le bord intérieur de la plaque fixe jusqu'au devant de l'arche, et la largeur d'un côté à l'autre du fourneau au-dessus des barres à leur centre.

(*d.*) L'inspecteur éprouvera les soupapes de sûreté sur les nouvelles chaudières, ou sur d'autres chaudières s'il désire les éprouver, sous pleine vapeur et feux ardents pendant au moins 15 minutes, tenant le tuyau d'alimentation arrêté, et la soupape d'arrêt fermée. Si l'accumulation de la pression excède 10 pour cent de la pression voulue, il n'accordera pas de certificat sans faire rapport au président de tous les détails de l'épreuve, et de la pression dans la chaudière ainsi qu'un dessin de la soupape de sûreté ; et un inspecteur ne devra jamais donner un certificat pour des soupapes de sûreté, sans les avoir examinées, et s'être mis au fait des détails de leur construction.

45. (*a.*) Instruction est donnée aux inspecteurs que dans toutes les nouvelles chaudières, et chaque fois que des changements peuvent facilement être faits, la boîte de soupape doit être placée directement sur la chaudière ; et le col, ou la partie de la boîte et la bride qui est attachée à la chaudière, doivent être aussi courts que possible.

(*b.*) Chaque fois qu'un inspecteur croit qu'il est positivement dangereux d'avoir une longueur de tuyaux entre les chaudières et la boîte de la soupape de sûreté, il devra de suite insister pour que les changements nécessaires soient faits avant d'accorder un certificat.

(*d.*) Lorsque des soupapes à levier sont employées la distance entre le centre de la soupape et le centre du point d'appui ne doit pas être moindre que le diamètre de la soupape.

(*e.*) Les soupapes de sûreté doivent être placées dans des endroits convenables et d'accès facile, afin que leur ajustement et examen puissent être faits aisément et efficacement. Dans l'examen des chaudières et des machines, l'inspecteur doit surtout porter son attention aux soupapes, et chaque fois qu'il le juge nécessaire il doit s'assurer de la pression sur la chaudière en en faisant l'épreuve. L'inspecteur doit examiner les soupapes de sûreté, les poids et les ressorts à chaque inspection.

(*f.*) Les sièges des soupapes doivent être fixés de manière à ne pas lever avec la soupape.

(*g.*) L'arbre du tiroir doit être attaché à la soupape de façon à lever en même temps que la soupape.

(*h.*) La dimension de l'acier dont est fait le ressort pour les soupapes de sûreté à ressort, se trouve au moyen de la formule suivante prise des règlements du conseil du commerce Impérial :—

$$\sqrt[3]{\frac{S \cdot D}{c}}=d$$

$c = 8{,}000$ pour acier rond.
$c = 11{,}000$ pour acier carré.
$S =$ le poids en livres sur le ressort.
$D =$ le diamètre, du ressort (d'axe en axe du fil métallique en pouces.)
$d =$ le diamètre ou côté du fil métallique, en pouces.

Le ressort doit être protégé contre la vapeur et les impuretés sortant de la chaudière, et des mesures doivent être prises pour maintenir le ressort en position sur la soupape dans le cas où il se briserait.

(*i.*) Un ressort règlementaire fait du meilleur acier carré, contient ·25 d'un pouce carré, le diamètre intérieur est de deux pouces, et le diamètre extérieur de trois pouces ; il a treize tours complets avec les bouts, et a $11\frac{1}{2}$ pouces de long. Le poids effectif est placé à 600 livres, un sixième de son poids de rupture lorsqu'il est trempé à un degré justement suffisant pour le casser ; avec ce poids il doit fléchir exactement d'un pouce.

(*j.*) Pour trouver l'aire de profil pour tout autre ressort, la pression ou poids sur la soupape étant donnée :—

600 : : 700 : ·25 : ·29=aire de profil du ressort à une charge de 700 lbs. Les autres dimensions du ressort sont dans la même proportion, le nombre de tours, treize, étant constant.

## DEMANDES AU PARLEMENT.

### RÈGLES RELATIVES AUX AVIS DE BILLS PRIVÉS.

Dans le cas de toute demande de bill privé, proprement du ressort législatif du Parlement du Canada, suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, et ayant pour objet, soit la construction d'un pont, d'un chemin de fer, d'un chemin à barrières ou d'une ligne télégraphique ; soit la construction ou l'amélioration d'un port, d'un canal, d'une écluse, d'une digue ou d'une glissoire ou autre ouvrage semblable ; soit la concession d'un droit de passage d'eau, l'incorporation de professions ou métiers, ou d'une compagnie de banque ou autre compagnie par actions, soit la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, soit le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement de même nature à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande, et signé (excepté s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit:

*Dans les provinces de Quebec et du Manitoba.*

Un avis doit être inséré dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

*Dans les autres provinces ou territoires.*

Un avis doit être inséré dans la *Gazette du Canada*, et et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie.

La publication de ces avis durera, dans chaque cas, la période de deux mois pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Un exemplaire des numéros des journaux, reproduisant la première et la dernière insertion de l'avis, devra être transmis au greffier de chaque Chambre.

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, le pétitionnaire ou les pétitionnaires devront, en même temps qu'ils donneront l'avis prescrit par la règle précédente, donner aussi, de la même manière, avis des péages qu'ils entendent exiger, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piliers pour le passage des radeaux et des navires ; et mentionner de plus s'ils se proposent de construire un pont mobile, et quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Il en sera imprimé 600 exemplaires en anglais et 200 en français ; la traduction devra être faite par les officiers de la Chambre, et l'impression par l'entrepreneur des impressions. Le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) une somme de $200, plus le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé—le dit paiement sera effectué immédiatement après la seconde lecture avant la prise en considération du bill par le comité.

L'honoraire payable sur tout bill privé, ne sera payé que dans la Chambre où il a pris naissance.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par l'une ou par l'autre Chambre après les dix premiers jours de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.
JOHN GEORGE BOURINOT,
Greffier des Communes.

### RÈGLES ADDITIONNELLES DE LA CHAMBRE DES COMMUNES CONCERNANT LES BILLS PRIVÉS.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle adopté par la Chambre, le 23 juin 1887, dont copie peut être obtenue du greffier de la Chambre ;

(*a*.) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression.

(*b*.) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets ;

(*c*.) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le traité du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer

à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

*(a.)* Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés, dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait ;

*(b.)* Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

JOHN GEORGE BOURINOT,
Greffier des Communes.

### SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré, durant trois mois, entre l'expiration de la dernière session parlementaire avant l'avis et la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district ; autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire, faite en vertu de "l'Acte concernant les serments extrajudiciaires."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

For the entry of Engineer Students in Her Majesty's Navy and for the entry of students in Naval Construction, with a view to their being trained in Her Majesty's Dockyard at Devonport.

(The Engineer Students to be trained for service afloat as Engineer Officers.)

(The Students in Naval Construction to be trained with a view to their joining the Royal Corps of Naval Constructors.)

1. Vacancies for appointments as Engineer Students in Her Majesty's Navy will be filled principally by means of competitive examinations open to all sons of British subjects, being of the prescribed age and of good moral character, but their Lordships will reserve to themselves the right to nominate a few candidates at each entry who will be appointed on passing the examination specified in paragraph 11.

The candidates to be nominated will be selected by the Board of Admiralty from sons of officers of the Navy, Army, or Royal Marines who have been killed in action or who have been lost at sea on active service, or killed on duty or who have died of wounds, received in action or injuries received on duty within six months from the date of such action or injury, or sons of officers of the Navy or Royal Marines who have performed long and meritorious service.

The number to be so nominated will not exceed one-fifth of the total number of Engineer Students to be entered. Except as provided in paragraph 11, the Candidates will be subject to the same Regulations as the Candidates for appointment by open competition.*

Three Engineer Studentships will be given annually to sons of gentlemen in the Colonies on the recommendation of the Secretary of State for the Colonies, provided they pass the required Examination. These candidates will be subject to precisely the same regulations as herein laid down for nominated service candidates.†

2. The number of appointments to be made in each year will be fixed by their Lordships.

3. The List of Candidates for the Appointments by open competition will be kept at the office of the Civil Service Commissioners. All applications for the forms to be filled up by persons who wish to compete must be sent to the Secretary, Civil Service Commission, London, S.W., on or after the first of January in each year, and care must be taken that the Forms when filled up are returned so as to reach the Civil Service Commissioners on or before the 15th March following, as no notice will be taken of Forms received after that date. No candidate will be entered as an Engineer Student unless he is pronounced to be physically fit. They will continue to be under Naval discipline until their entry as Assistant Constructors. (*See* Paragraph 45.)

An Assistant Constructor will not be permitted to leave the service until seven years have expired after the completion of his term at the Royal Naval College at Greenwich, unless he shall pay the sum of £500. This payment is for the purpose of defraying the charges incurred by the public for his education.

15. Students in Naval Construction will complete five years' service at Devonport, in the Training School, for Engineer Students, and will be subject to the same conditions as to fees, pay, uniform, and other details as may be prescribed from time to time for Engineer Students. Their course of instruction will be laid down from time to time. (See also paragraph 40 to 48.)

16. The parent or guardian of each Engineer Student entered will be required to pay the sum of £40 per annum for each year (*See* paragraphs 30 and 31) the Student may be under training—four, five or six years, as the case may be. It will, however, be at the discretion of the Lords Commissioners of the Admiralty to select from among the Students entered at each yearly examination, a number not to exceed five, being sons of Officers of the Navy, Army or Marines, or of Civil Officers under the Board of Admiralty, with respect to whom the annual payment will be £25 only. Their Lordships also reserve the power to further reduce this latter sum in the case of sons of officers killed or drowned, or who have otherwise lost their lives on service. In making their selection, my Lords will have regard solely to the pecuniary circumstances of the parents or guardians of the Students.

17. The payments are to be made half-yearly, in advance, to the Cashier of H. M. Dockyard at Devonport, the first payment is to be made on, or before the 1st of July, the date of entry of the student, and the subsequent payments, on or before the 1st January and 1st July, during the remainder of the Student's training. Should a student leave from any cause or be dismissed from the service, not any portion of the payments that have been made in his behalf will be refunded.

18. The parents or guardians of the Students will also be required to provide the Uniform (*See* par. 51) or other clothing, washing and necessaries of each student. Board and lodging, and medical attendance will be provided by the Admiralty. The Student will be required to reside in the Training School at Keyham.

When sick or sent to hospital from causes beyond their own control, they are not to be checked of their pay until they have been absent for six months in the aggregate during any period of twelve months, at the expiration of this time a special report is to be made to their Lordships. When sick, or sent to Hospital from causes within their own control, they are to be checked of their pay. Students pronounced at the end of twelve months' absence on account of sickness or hurt to be permanently unfit or unlikely to be capable of entering Her Majesty's Service as Assistant Engineers, or as Assistant Constructors, will be discharged. Should any Student in the course of his training develop physical unfitness for the Service, he will be discharged.

22. The Students will be under the supervision of the Superintendent of the Dockyard and a Staff of officers, and subject to such rules and regulations as their Lordships may deem necessary.

23. Students will receive practical training in the Workshops, and instructions in iron shipbuilding at H. M. Dockyard at Devonport. While the Engineer Students are being instructed in Iron Shipbuilding they are to be under the direction of the Chief Constructor. They will attend the Engineer Students' School in the Dockyard for such periods, and to pursue such studies as may from time to time be determined on, they will also pass a portion of their time in the Drawing Office. Means will be afforded them of acquiring the groundwork of the knowledge required by a Naval Engineer respecting the working of Marine Engines and Boilers, including those repairs which can be carried out afloat, the practical use of the various instruments used in the Engine-room, also of the construction and working of Electric Light, Torpedo and Gun Machinery, and of becoming generally acquainted with the duties of a Naval Engineer.

(*a.*) Square and waney or board timber, shall be denominated square timber, and shall be charged for by the crib, and in the case of any such timber passing any of the works otherwise than in cribs—a number of pieces sufficient, in the discretion of the Collector or any Deputy duly authorised by him, to make an ordinary sized crib (not however to exceed one thousand cubic feet) shall be counted as one crib.

(*b.*) Round timber of from 12 to 16½ feet in length, commonly called "Saw-Logs" shall be charged for by the piece, or when that is not provided for by the tariff or any amendment subsequently made thereto, then sixty saw-logs shall be held to be equivalent to one crib of timber and shall be charged accordingly.

(*c.*) Flatted, round or partially hewn timber, under 13 inch mean diameter from bark to bark, shall be charged for when cribbed at half square timber rates, and when driven loose shall be charged each piece as a saw-log.

(*d.*) Flattened, round or partially hewn timber of 13 inches and upwards in mean diameter from bark to bark (commonly known as dimension timber) shall be computed into saw-logs of 15 feet in length and charged for accordingly.

(*e.*) Railway ties of eight feet in length and under shall be computed at the rate of five to a saw-log and shall be charged for accordingly.

(*f.*) Other wood goods shall be charged for at the discretion of the Collector, at such proportionate rates as would be chargeable under these regulations against the class of goods to which they are most nearly allied.

(*g.*) In dealing with sawn lumber one hundred and fifty superficial feet board measure shall be deemed to be equivalent to one saw-log.

2. No timber, saw logs, lumber or other wood goods shall be removed beyond a radius of three miles beyond the Chaudière Suspension Bridge, unless payment of

stoll and dues thereon has been first made or secured to the satisfaction of the Collector of tolls and dues, and any such goods so removed upon which the said tolls and dues remain unpaid within 34 hours after having been so removed may be detained by the Collector, under authority of the fourth section of the Act hereinbefore cited, and the Collector shall forthwith report the same to the Minister of Public Works and may retain such goods until the slidage dues and all costs and expenses shall have been paid, unless otherwise ordered.

The river or stream from which the same come ;

Where the same are at the time of the return ;

The slides, booms or other works used by them ;

As nearly as possible the length and mean diameter thereof (excepting saw-logs and square timber) and such other particulars as may be required by the printed form of return to be furnished by the Collector.

PRESENT :

## HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, under the authority conferred upon him by the 2nd section of the Act 52 Victoria, chapter 23, intituled "An Act further to amend 'The Steamboat Inspection Act,' chapter 78 of the Revised Satutes," and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the following sections of the Rules and Regulations relating to the Inspection of Boilers of Steamboats, established by the Order in Council of the 17th day of September, 1889, that is to say, sections 44 and 45, and sections 92 to 102, the last named section being included, shall be and the same are hereby rescinded, and that the following rules and regulations relating to safety valves which are practically in accord with similar rules in force in the United Kingdom, shall be and they are hereby substituted therefor.

JOHN J. McGEE,
Clerk, Privy Council.

---

## RULES RELATING TO THE INSPECTION OF SAFETY VALVES.

44. (*a*.) After the following rules come into operation, every boiler made or placed on board a steamboat shall be fitted with two or more lock-up safety valves of a construction approved by the Board of Steamboat Inspection, or by the Chairman, if the Board is not then in session ; the aggregate area of said lock-up safety valves shall not be less than that given in the following tables opposite the boiler pressure intended, the safety valves should be upon the boiler, or as near the boiler as practicable without pipes, cocks, valves or other possible obstructions between the safety valves and the boiler.

Every inspector, when inspecting, visiting or examining the boiler or machinery of any steamboat, shall

satisfy himself that the safety valves attached thereto are of suitable dimensions, sufficient in number, well managed and in good working order, and only loaded so as to open at or below the certified working pressure; and he may, if he thinks proper, order and cause two or more of such safety valves (which together shall be of sufficient dimensions to discharge all the steam the boiler can generate, and of such construction as he approves) to be locked up and taken wholly away from the control of the engineer when the steam is up; but the engineer shall have access to the safety valves when the steam is not up, and shall see that they are kept in working order, and the master of the steamboat shall see that the engineer has access to them for that purpose, and keeps them in proper working order.

The cocks and valves attached to the boilers shall be substantially made, and in no case shall they be attached to the boilers by screwing into the plate, unless, as an additional security, bolted flanges are used in addition to such attachment.

No valve, under any circumstances, shall, at any time, be so loaded or so managed in any way, as to subject a boiler to a greater pressure than that allowed by the inspector at the then last inspection thereof:

Every safety valve made or placed on board of a steamboat and attached to a boiler shall have a lift equal to at least one-fourth of its diameter; the openings for the passage of steam to and from the valve shall each have an area not less than the area of the valve, as shall also the waste steam pipe, and the valve box shall have a waste water pipe; if the lever of a lever safety valve is not bushed with brass the pin shall be of brass,—iron and iron working together shall not be allowed; every such safety valve shall be fitted with lifting gear so that it can be worked by hand, either from the engine room or the fire hold, or by the master or person in charge on deck;

(*b.*) Safety valves should not be passed of a diameter less than two inches, except in the case of small boilers where the area of grate surface is less than fifteen square feet, when safety valves of less diameter may be used, but in no case shall their diameter be less than one inch, and provided they are of approved construction, and the proportion of area of safety-valve to area of grate be complied with as given by the tables of safety-valve areas.

(*c.*) The grate area shall be ascertained by measuring the length of the grate from the inner edge of the dead plate to the front of the bridge and the width from side to side of the furnace on top of the bars at the middle of their length.

(*d.*) The safety-valve should be tested (by the Inspector) on new boilers, or on other boilers if he wishes to test their efficiency, under full steam and full fires, for at least 15 minutes with the feed water shut off and stop-valve closed, if the accumulation of pressure exceed 10 per cent. of the loaded pressure, he should not issue a certificate without reporting to the chairman full particulars of the test, and the strength pressure of the boiler with sketch of safety-valve, and in no case is an Inspector to give a certificate for safety-valves, unless he has examined them and is acquainted with the detail of their construction.

45 (*a.*) Inspectors are instructed that in all new boilers and whenever alterations can be easily made, the valve chest should be placed directly on the boiler, and the neck or part between the chest and the flange which bolts on to the boiler should be as short as possible.

(*b.*) In any case in which an Inspector is of opinion that it is positively dangerous to have a length of pipe between the boilers and the safety-valve chest, he shall at once insist on the requisite alterations being made before granting a certificate.

(*d.*) If lever safety-valves are used the distance between the centre of the valve and the centre of the fulcrum should not be less than the diameter of the valve.

(*e.*) Safety valves must be placed in convenient and accessible places, that their adjustment and examination may be readily and efficiently made. The inspector in his examination of the boilers and machinery is particularly to direct his attention to the safety valves, and whenever he considers it necessary he is to satisfy himself as to the pressure on the boiler by actual trial. The inspector is to examine the safety valves, weights and springs at every inspection.

(*f.*) The valve seats should be secured so that they cannot lift with the valve.

(*g.*) The spindle should be so attached to the valve, that when the spindle is lifted the valve will also lift.

(*h.*) The size of the steel of which the spring is made in spring safety valves is found by the following formula taken from the Imperial Board of Trade Rules:—

$$\sqrt[3]{\frac{S \times D}{c}}=d$$

$c = 8000$ for round steel.

$c = 11000$ for square steel.

$S =$ The load on the springs in pounds.

$D =$ The diameter of the spring (from centre to centre of the wire in inches).

$d =$ diameter, or side of square, of the wire in inches.

The spring should be protected from the steam and impurities issuing from the boiler, and in case of the spring breaking means be provided to keep it in position on the valve.

(*i.*) A standard spring if made of the best square cast steel contains ·25 of a square inch, the inside diameter is two inches, and the outside diameter is three inches, it has thirteen complete coils with the ends and is 11½ inches long. The working load is assumed at 600 lbs., one-sixth of its breaking load when hardened to a temper, just sufficient to break it, at which load it should deflect just one inch.

(*j.*) To find the sectional area of any other spring the pressure or weight on the valve being given:—

600 : : 700 : ·25 : ·29 = sectional area of spring at 700 lbs. load. The other dimensions of the spring would be in like proportion, the number of coils thirteen being constant.

## AT THE GOVERNMENT HOUSE AT OTTAWA.

The 5th day of July, A.D. 1890.

PRESENT :

### HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON the recommendation of the Minister of Inland Revenue, and under the provisions of Chapter 104 of the Revised Statutes of Canada, intituled "The Weights and Measures Act,"—

His Excellency in Council has been pleased to order, and it is hereby ordered, that the following regulations for the governance of the inspection of weights and measures be, and the same are hereby made and established :—

### REGULATIONS RESPECTING WEIGHTS AND MEASURES.

Section 1. The following balances are to be admitted to verification :—

A. Balances having equal arms, and on which the load is suspended below the fulcrums.
B. Balances commonly known as steelyards, or Roman balances, having unequal arms.
C. Weigh-bridges.
D. Balances with equal arms, and on which the load is placed above the fulcrums.
D 1. Hydrostatic balances for weighing coal.
D 2. Perfection scales.
D 3. Duplessis portable track scales.
D 4. Household scales.
D 5. Spafford improved platform counter scales.

Sec. 2. A. Balances with equal arms are only to be admitted to verification when :—

1. The beam shows no material difference as regards the form or magnitude of the two arms.

2. It is provided with a tongue pointing upwards or downwards from its centre, at right angles with a line joining the extreme bearings, or with some equivalent arrangement for indicating the position of the equilibrium.

3. It is in equilibrium when a line joining the extreme bearings is perfectly horizontal, and returns to that position after being put into vibration.

4. Its arms are equal within the specified limit of error.

5. The balance is sufficiently sensitive to be turned decidedly and promptly by the addition or withdrawal of so much of the load as represents the error tolerated by regulations in a commercial weight representing the load.

6. No balance balls or detached parts other than the pans and connections necessary for attaching them to the beam are used for adjusting the balance.

7. The balance, as a whole, is of sufficient strength, and on a sufficiently stable base, to secure it against change of form or position under the maximum load it is to carry.

8. The beam will carry its maximum load without deflection.

9. The maximum load for the weighing of which it is to be used is distinctly engraved or marked on the beam.

10. The knife edges are permanently fixed to the beam.

Sec. 3. B. Balances commonly known as *steelyards* or Roman balances, having unequal arms, are only to be admitted to verification when :—

1. There is sufficient room for oscillation, and the knife edges on which the beam oscillates are sufficiently fine to permit it to move freely.

2. The beam is sufficiently strong to carry its load without deflection.

3. The bottom of the notches by which the divisions of the long arm of the lever are indicated, and from which the weight is suspended, are in close approximation to a right line drawn through the knife-edges forming the points of suspension, and when such straight line passes near to and a little above the centre of gravity of the whole apparatus.

4. The divisions on the long arm of the lever are equal among themselves.

5. The weight used with the lever—if it is changeable or can be readily detached therefrom—is some multiple or sub-multiple of the pound avoirdupoids, and has distinctly marked on it its true weight.

6. The maximum weight intended to be weighed on it is either distinctly marked on the beam or indicated by its construction.

Sec. 4. C. Weigh-bridges, hay scales and platform scales will only be admitted to verification when :—

1. The foundation or supporting base is sufficiently firm, and capable of carrying without change of level or of form or other disturbance, the maximum load for which it is to be used.

2. If movable from place to place, some satisfactory arrangement, such as a level or plummet, is provided and permanently attached, for indicating whether the machine is perfectly level.

3. The platform is so arranged that any obstruction to its free movement can be easily detected.

4. All the beams, levers and other parts are of sufficient strength to carry the maximum load to which they will be respectively subjected without deflection.

5. The knife-edges are firmly and permanently fixed in the levers, have sufficient room to permit free oscillation, and are sufficiently firm.

6. The knife-edges and fulcrums of each set of levers are in the same plane.

7. The oscillations are sufficiently evident.

8. The weights used with the instrument are equal to the avoirdupois pound, or to multiples or authorized sub-multiples of the avoirdupois pound, or special weights for the barrel of flour or for the bushel of wheat, their actual weight and the weight or special quantity they are intended to indicate on the scale being plainly marked thereon.

9. The weights used as above are a decimal sub-multiple, as $\frac{1}{10}$, $\frac{1}{100}$, $\frac{1}{1000}$, or a binary sub-multiple as ½, ¼, ⅛, &c., of the load indicated by them.

10. There are no detached parts for the adjustment of the balance accessible, or so placed that they can be used for fraudulent weighing.

11. The apparatus indicates the same weight, whether the load is placed in the centre of the platform, on one side of it, or at either corner.

12. The maximum load which the apparatus is intended to weigh and the maker's name and shop number are conspicuously cast, engraved or stamped on some essential part of it.

### *Platform Scales, Weigh-bridges, and Balances with Unequal Arms.*

Sec. 5. All these weighing machines will be rejected :

1. When with a full load, and truly balanced, the movement of the lever-weight one " notch " or division on the graduated lever, in either direction, does not cause the lever to turn decidedly in accordance with such movement.

2. When, with a full load, or with any less load, and with the balance in equilibrium, the addition or removal of one two-thousandth part of the load, to or from the load, does not turn the lever decidedly in accordance with such addition or removal.

3. When the maker's name, shop number and maximum capacity are not legibly cast, engraved or stamped on them. And when the knife-edges are not made of properly tempered steel, and the bearings of the same material or of chilled or case hardened malleable iron. (This clause applies as well to balances with equal arms, but shall in all cases apply only to original verification.)

4. When unprovided with check-rods to hold the bearings in place. *

Sec. 6. D. Balances with equal arms, and on which the load is carried above the fulcrums, will only be admitted to verification when :—

1. There are no material difference as to the magnitude or arrangement of the two arms.

2. Its arms are of equal length within a limit of error equivalent to that tolerated in commercial weights.

3. There are no balance balls, loose counterpoises or detached parts other than the pans necessary for carrying the load weighed, and the weights used for weighing it.

4. Its parallel rods, guides, levers and pivots, by which the adjustment of the scale is affected, are so constructed that they cannot be put out of adjustment without the use of violence, which may be readily detected on inspection.

5. The knife edges or fulcrums of each set of levers or guide-rods are in the same plane.

6. The balance is sufficiently sensitive to turn decidedly and promptly by the addition and withdrawal of so much of the load as is equivalent to the error tolerated in commercial weights.

7. When there is a tongue or pointer, or some equivalent arrangement for showing when the balance is in equilibrium.

—

D1. Weighing machines known as "hydrostatic balances," being such as are commonly used for determining the weight of coals delivered at the pit mouth, may be verified for use for such purposes, and also for weighing coals as delivered from vessels and barges, provided they give true indications within one two-hundredth part of the load.

D 2. Weighing machines known as " Perfection Scales," when manufactured in accordance with specifications deposited in Patent Office at Ottawa, may be admitted to verification when found to weigh correctly.

D 3. Weighing machines known as " Duplessis Portable Track Scales " used for determining the weight of cars on railway tracks may be admitted to verification for use for such purposes, provided they give indications within one four-hundredth part of the load.

D 4. A weighing machine known as the " Household Scale," a balance with equal arms to carry a load above the fulcrums of not more than ten (10) pounds in each pan. In its construction and verification it must in every respect comply with the requirements of Paragraph D, above. The words " Household Scale " must be engraved or stamped in bold legible letters of not less than one-fourth of an inch in height, on some conspicuous part of each scale so that at a glance its classification may be known. This scale shall be used for household purposes only, and should any such scale be found in use for trade purposes of any description it shall be seized and confiscated by an inspecting officer, and the fee for the verification of the above described " Household Scale, D 4," shall be ten (10) cents for each scale.

D 5. A scale known as the " Spafford Improved Platform Counter Scale," and all scales of similar construction as regards the scoop counterpoise, are also added to the schedule of scales to be admitted to verification.

No balances other than such as will come within the conditions under one or other of the heads, A, B, C or D, are to be verified or stamped.

### *Weights and Measures—Regulations.*

Sec. 7. E. Verification and stamping of weights, measures and weighing machines on the premises of the manufacturer, and their removal therefrom.

1. The article shall bear the name of the maker, capacity and consecutive shop-number or other marks whereby it may be designated for identification, with the certificate of verification.

2. The verification and stamping must take place before the articles are packed for removal, and at that state of completion at which they are finally adjusted by the manufacturer.

3. For the first verification and stamping of weights, measures and weighing machines at the place where they are manufactured, the fees may be paid at once, or payment may be postponed for such period not exceeding three months as the Minister of Inland Revenue may authorize. Sufficient security being taken for the payment thereof at the time stated in the Departmental Regulations under which the delay is granted.

Sec. 8. F. Weights, measures and weighing machines imported into Canada are to be dealt with as follows :—

1. The Collector of Customs at the port where such articles are imported will notify the nearest inspector or assistant inspector of weights and measures of the entry for consumption of any weights, measures or weighing machines at his port, which notice will state the number and description of such articles as are invoiced, and the names and residence of the parties to whom they are delivered.

2. So long as such articles remain in the original packages they may be removed from the Custom house or from a Customs warehouse to the premises of the importer without inspection.

Sec. 9. G. Nothing in these regulations, nor in any previous regulations is to be construed as preventing the importation, manufacture or removal of and setting up, before they are verified, of dormant* scales or weigh-bridges of any description, coming within the requirements of the law, but which cannot be used nor properly verified until they are placed on a fixed foundation. But it shall be the invariable duty of the manufacturer or importer of such weighing machines to duly notify the inspector of weights and measures nearest to his place of business, of the shipment and destination of each of such articles ; and said manufacturer or importer shall be held responsible for its verification before being used for trade purposes.

Any trader not being a manufacturer of, or dealer in, such weighing machines, who imports such articles for his own use, shall be considered an importer, and therefore subject to the above regulations.

Sec. 10. H. 1. Iron weights of the denomination of half a pound or under may be admitted to verification, provided they are of such substance that a soft metal plug on which the stamp may be impressed, can be securely fixed therein, and when such soft metal plug is so fixed in them by the parties who present them for verification ; but,—

2. When any iron weight is presented for verification, or when any such weight is found in use from which a soft metal plug has been lost, it shall not be adjusted or restamped until the hole in which the plug was inserted has, in the presence of the Inspector, been enlarged at the bottom, so that the expansion of the lead used for adjusting it will prevent it subsequently falling out.

---

* Note.—Nothing in the above 4th section shall apply to weighing machines constructed on the *Howe* principle.

* The term "*dormant*," shall be understood to cover only such weighing-machines as weigh-bridges, hay and track scales, or such weighing-machines only as require to be placed on a specially prepared foundation

# MILITIA GENERAL ORDERS.

## HEAD QUARTERS,

Ottawa, 31st July, 1890.

General Orders (10).

No. 1.

### Regulations and Orders for the Militia, 1887.

### *Leave of absence.*

The following are added as sub-sections 4 and 5 to paragraph 119, Regulations and Orders, 1887 :

(4.) Officers are to be present with their corps on the day on which their leave terminates. On rejoining they are to make themselves acquainted with all orders issued during their absence.

(5.) When an officer during leave of absence is promoted or removed to another corps, or exchanges, the leave of absence is cancelled by such promotion, removal or exchange.

### *Clothing and Equipment.*

The following are added to paragraph 238 Regulations and Orders, 1887 :

(2.) On all occasions of consignments of clothing or stores being delivered, the officers or others receiving them, before any receipt is given to the carrier for them, or for their transport, will ascertain whether the packages have been damaged in transit either by wet or by being opened, or in any other way. Should such be the case, or should any suspicion arise as to the packages having been tampered with, the circumstances must be at once pointed out to the person or transport company conveying the articles, and the packages opened, as soon as possible, in the presence of a Board of Survey and the contents counted, notice being given to the carrier, or company or his or its representative, as the case may be, of the time fixed for the opening, in order that he, or his or its representative may be present on the occasion if he or they so desire.

The officer to whom the packages are addressed will not give a receipt to the carrier for the same without noting upon the paper that the packages were not received in good order, and when damage, or loss, or appearance of tampering is apparent, he is to make a note upon the requisition for transport, before signing it, so the carrier can be held to account for the value of the damage or deficiency.

(3.) When a Board assembles the packages in which the articles to be inspected are contained, must be examined in order to see if they have been opened or tampered with in any way *en route*, or after being received at the place. The result to be noted in the Board report.

(4.) The Board will then cause the package to be weighed, if possible, and count the contents, every instance of excess or deficiency in numbers as compared with the notification of shipment and contents, is to be reported.

(5.) The commanding officer should not be a member of the Board.

### *Annual Drill.*

The following is added as sub-section 2 to paragraph 350 of the Regulations and Orders, 1887 :

(2.) When City or other Corps are inspected at places other than in Camps of Exercise or at district head quarters, the muster of the corps is to be made by the Inspecting Officer. The District Paymaster is not to accompany him at the public expense, for the purposes of any such inspection.

### *Ammunition.*

The following is added to paragraph 437 :

(2.) 20 of the rounds for City Corps must be expended by each man as required by regulation. The additional 20 rounds may be expended as the Deputy Adjutant General of the District directs.

(3.) No Rural Corps is to receive the allowance of 20 rounds, except under proper arrangements to insure each man belonging to it firing his share at target practice. An undertaking to this effect must be given by the commanding officer, to be attached to the requisition. If the ammunition is issued, the Deputy Adjutant General of the District must see that proper returns of the target practice are made to him before the following 1st day of December.

(4.) No Rural Company, not ordered for paid drill, which does not possess a rifle range can comply with the condition of issue.

### *Illness or Injury at Annual Drill.*

The following is added to paragraph 449 Regulations and Orders, 1887 :

(2.) The Board will be appointed by the local senior officer at the place. When it assembles for work the written record of the proceedings should begin as follows :

"Proceedings of a Board of Officers, assembled at
on the 18 , by order of
for the purpose of

*President.*

*Members.*

The Board having assembled pursuant to order, proceed to &c."

Note.—*Each officer composing the Board should sign his name at the end of the proceedings and report.*

(3.) The certificate of the commanding officer, Form No. 37, and of the Surgeon, Form No. 40, are to be sent in with the proceedings and report of the Board.

(4.) If the incapacity lasts beyond the period the corps is, or are out for drill, the certificates specified in paragraph 907 must be sent in when a claim for compensation is made. Forms A. B. C. and D. used when claims arise from actual service, do not apply to illness or injuries which occur during annual training.

(5.) No claim for compensation, for illness or injury, is to be made for days on which drill pay is issued. Nor for illness or injuries arising from causes other than those incident to militia service.

The following is inserted after the words "ordered" on the 5th line of sub-section 6, or immediately after it arrived in camp, if the examination could not be made at corps head quarters without incurring expense for transport.

### *Honours and Salutes.*

The following is added as 477*a* :

477*a*. If any corps not on permanent service is required to furnish more than one escort or guard of honour on the same day, and more than three hours intervene between the furnishing of such escorts or guards of honour, the same officers and men shall perform the several duties, and the corps will be entitled to claim, in addition to their pay for one day, the same allowance as is authorized for corps called out in aid of the civil power, namely, one dollar for each officer and fifty cents for each man or horse for that day.

### NOTICE TO MARINERS.

No. 33 of 1890.

### TRACADIE RANGE LIGHTS.

In consequence of the formation of sand spits and banks in the alignment of the range lights at Tracadie, Grand Tracadie Harbour, in Queen's County, on the Gulf coast of Prince Edward Island, it has become necessary to discontinue the lights as usually shown from the established towers, which must not be used as marks to enter either upon the bar or in the harbour channel.

Two temporary range lights, consisting of lanterns hoisted on masts, have been established on the western side of the harbour. The masts stand on the sand hills, the front one being 12 and the back one 18 feet high. The alignment shows the best water over the bar.

The present channel is crooked and unreliable, and vessels drawing more than 5 feet water should not attempt to enter the harbour without a pilot.

Les vacances parmi les étudiants-ingénieurs dans la marine de Sa Majesté seront remplies principalement au moyen d'examens de concours ouverts à tous fils de sujets britanniques, de l'âge voulu et de bonnes mœurs, mais Leurs Seigneuries se réservent le droit de nommer un petit nombre de candidats à chaque entrée lesquels seront admis s'ils passent l'examen spécifié au paragraphe 11.

Les candidats à nommer le seront par le Bureau de l'Amirauté parmi les fils d'officiers de l'armée, de la marine ou armée de marine qui ont été tués dans un engagement, ou qui ont été perdus en mer en service actif, ou tués en devoir, ou qui sont morts de blessures reçues dans un engagement ou de blessures reçues en devoir dans les six mois à dater de cet engagement ou cette blessure ; ou parmi les fils d'officiers de la marine ou de l'armée de marine qui ont servi longtemps et avec distinction.

Le nombre à nommer ainsi n'excèdera pas un cinquième du nombre total des étudiants-ingénieurs à admettre. Sauf quant à l'exemption de l'examen de concours, ces candidats seront soumis sous tous rapports aux présents règlements.*

Trois brevets d'étudiants-ingénieurs seront donnés annuellement à des fils de gentilshommes dans les colonies sur la recommandation du Secrétaire d'Etat pour les Colonies, pourvu qu'ils passent l'examen requis. Ces candidats seront sujets aux mêmes règlements que les candidats de service nommés.*

2. Le nombre des admissions qui seront faites chaque année, sera fixé par Leurs Seigneuries.

3. La liste des candidats pour ces admissions par concours public sera gardée au bureau du commissaire du Service Civil. Toutes demandes de formules à remplir par les personnes désirant concourir doivent être envoyées au "*Secretary, Civil Service Commission, London, S.W.*, le ou après le premier de janvier de chaque année, et il faut veiller à ce que les formules une fois remplies soient renvoyées de manière qu'elles parviennent aux Commissaires du Service Civil le ou avant le 15 mars suivant, vu que les formules reçues après cette date seront mises de côté. La liste des candidats nommés sera gardée à l'Amirauté.

4. Les candidats ne devront pas être âgés de moins de quatorze ni plus de seize ans le premier jour de mai de l'année dans laquelle ils sont examinés.

5. Des certificats d'âge et de mœurs ne seront pas exigés avant l'examen, mais les candidats heureux ne seront éligibles pour admission qu'après avoir fourni des preuves sous ce rapport aux Commissaires du Service Civil.

6. L'examen médical des candidats heureux aura lieu sous le contrôle de Leurs Seigneuries aussitôt que possible après que le résultat de l'examen sur l'éducation aura été connu. Nul candidat ne sera inscrit comme étudiant-ingénieur à moins d'être certifié capable physiquement. Les candidats dans ou près de Londres seront examinés par le directeur général médical de marine à l'Amirauté. Ceux qui résident près d'un des chantiers de Sa Majesté, ou un des vaisseaux de la première réserve, ou vaisseaux-écoles de la réserve de la marine royale, ou le vaisseau-amiral à Queenstown, seront examinés par l'officier médical y attaché. L'examen médical sera conduit sous tous rapports strictement en conformité des instructions pour l'examen des personnes désirant entrer dans le service naval. Tous les candidats lors de leur examen médical devront prouver à la satisfaction des officiers examinateurs qu'ils ont été revaccinés, ou bien ils devront être revaccinés avant qu'ils puissent être considérés éligibles pour entrer dans la marine de Sa Majesté.

7. L'examen sur l'éducation sera tenu par les commissaires du service civil à Londres, Liverpool, Portsmoth, Devonport, Bristol, Leeds, Newcastle-on-Tyne, Edimbourg, Glasgow et Dublin, et auront lieu dans le mois d'avril chaque année. On pourra s'assurer de la date exacte en s'adressant au Secrétaire, Commission du service civil, le ou après le premier janvier de chaque année.

Tous les candidats seront éprouvés sur leur capacité de lire à haute voix, clairement, distinctement et correctement, et sans hésiter. Tout bégaiement ou autre défaut dans la prononciation sera censé être une cause de renvoi.

9. Un honoraire de un chelin sera exigé de chaque candidat se présentant à l'examen.

10. Les candidats dans l'examen de concours qui manquent sur les quatre premiers sujets (ceux marqués d'un astérisque *), ou dans la lecture à haute voix, seront renvoyés, et les autres papiers ne seront pas examinés. Les candidats heureux seront inscrits comme étudiants-ingénieurs dans la Marine de Sa Majesté, selon le nombre d'admissions qu'il sera décidé de faire chaque année ; ils seront pris à tour de rôle sur la liste d'examen. Les candidats qui obtiennent moins de 880 points en tout ne seront pas inscrits sur la liste.

11. Les candidats qui sont nommés par Leurs Seigneuries, et par le Secrétaire d'Etat pour les Colonies, seront obligés de passer le même examen d'épreuve dans les premiers quatre sujets et la lecture à haute voix, que les candidats qui se présentent à l'examen de concours. Ils seront aussi examinés sur les autres sujets afin de s'assurer de la somme de leurs connaissances et afin de fixer leur ordre de mérite, et nul candidat dont le chiffre collectif de points est de moins de 880 ne sera admis comme étudiant-ingénieur.

12. Les candidats seront informés par une lettre de la Commission du Service Civil, du résultat de leur examen, aussitôt que ce résultat sera connu.

13. Les candidats heureux seront inscrits comme étudiants-ingénieurs dans la marine de Sa Majesté, vers le 1er juillet de chaque année et seront portés sur les livres du vaisseau de garde de la réserve à Devonport, pour des fins de discipline. La période d'étude à l'arsenal de Sa Majesté à Devonport sera de cinq ans, mais elle sera réduite à quatre ans dans le cas des étudiants-ingénieurs du dernier service qui passent les examens décrits au paragraphe 29, clause 1, et passent aussi d'une manière honorable dans le Travail pratique, les sujets professionnels et la connaissance des devoirs de la chambre des machines mentionnés au paragraphe 32.

14. Les étudiants en construction navale au nombre de deux seulement par année seront choisis parmi les étudiants-ingénieurs qui ont fait preuve de capacité spéciale à la fin de leur troisième année de service. Les étudiants en construction navale doivent conjointement avec leurs parents ou tuteurs, fournir un cautionnement de 500*l.* d'entrer, s'ils en sont requis, au service de Sa Majesté comme aides-constructeurs, si, à l'expiration de leur cours ils obtiennent des certificats de bonne conduite et d'efficacité pour entrer dans le services. Ils continueront sous la discipline navale jusqu'à leur entrée comme aides-constructeurs. *(Voir* paragraphe 45.)

Un aide-constructeur n'aura pas la permission de quitter le service avant l'expiration de sept ans après qu'il a complété son terme au Collège Royal de Marine à Greenwich, à moins de payer la somme de £500. Le paiement de cette somme est dans le but de défrayer les frais encourus par le public pour son éducation.

15. Les étudiants en construction navale compléteront cinq ans de service à Devonport, dans l'Ecole de préparation pour les étudiants-ingénieurs, et seront assujétis aux mêmes conditions quant aux honoraires, solde, uniforme et autres détails que ceux prescrits de temps à autre pour les étudiants-ingénieurs. Leur cours d'instruction sera spécifié de temps à autre. (*Voir* paragraphes 40 à 48.*)*

16. Le parent ou tuteur de chaque étudiant-ingénieur inscrit sera tenu de payer la somme de £40 par année (*voir* paragraphes 30 et 31*)* pour chaque année que l'étudiant restera à l'école—quatre, cinq ou six ans selon le cas. Les lords commissaires de l'Amirauté auront la faculté, toutefois, de choisir, parmi les étudiants inscrits à chaque examen annuel, un nombre, n'excédant pas cinq, étant fils d'officiers de la marine, de l'armée de terre, ou de l'armée de marine, ou des officiers civils sous le Bureau de l'Amirauté, au sujet desquels le paiement annuel ne sera que de £25 seulement. Leurs Seigneuries se réservent aussi le pouvoir de réduire encore cette dernière somme dans le cas de fils d'officiers tués ou noyés, ou qui de toute autre manière ont perdu la vie en service. En faisant leur choix, Leurs Seigneuries ne considéreront que les circonstances pécuniaires des parents ou tuteurs des étudiants.

17. Les paiements seront faits semi-annuellement, à l'avance, au caissierde l'arsenal de Sa Majesté à Devonport, le premier paiement sera fait le ou avant le 1er de juillet, date de l'inscription de l'étudiant, et les autres paiements le ou avant le 1er de janvier et le 1er de juillet. Si un étudiant pour une cause quelconque quitte le service ou en est renvoyé, nulle partie des paiements faits pour lui ne sera remboursée.

18. Les parents ou tuteurs des étudiants seront aussi requis de procurer l'uniforme (*voir* paragraphe 51*)* ou autres vêtements, blanchissage et choses nécessaires de chaque étudiant. L'Amirauté fournira la pension, le logement et les soins médicaux. Les étudiants seront tenus de résider dans l'école de préparation à Keyham.

19. La paie hebdomadaire des étudiants pendant leur cours sera comme suit, à condition qu'ils aient de bonnes notes des officiers :—

21. Les étudiants ne perdront pas de paie lorsque en congé, ou lorsque blessés en devoir. Lorsqu'ils sont malades ou sont envoyés à l'hôpital pour des causes en dehors de leur contrôle, leur paie ne sera retranchée que s'ils sont absents six mois en tout dans toute période de douze mois. A l'expiration de ce temps un rapport spécial de chaque cas sera fait à Leurs Seigneuries. Si la maladie provient de causes sous leur contrôle leur paie sera retranchée. Si après douze mois d'absence pour cause de maladie ou de blessure les étudiants sont rapportés comme permanemment ou vraisemblablement incapables d'entrer au service de Sa Majesté comme aides-ingénieurs ou aides-constructeurs, ils seront congédiés. Si, dans le cours de son apprentis age, il se développe chez l'étudiant quelque incapacité physique qui le rende impropre au service, il sera congédié.

22. Les étudiants seront sous la surveillance du surintendant de l'arsenal et d'un corps d'officiers, et soumis aux règles et règlements que Leurs Seigneuries jugeront nécessaires.

23. Les étudiants recevront une instruction pratique dans les ateliers et seront mis au fait de la construction des navires en fer à l'arsenal de S. M. à Devonport. Tandis que les étudiants-ingénieurs étudient la construction des navires en fer ils seront sous la direction du constructeur-chef. Ils assisteront aux écoles de l'arsenal pendant les périodes, et suivront les études qui seront fixées de temps à autre ; ils passeront aussi une partie de leur temps dans le bureau de dessin. Il leur sera fourni les moyens d'acquérir les bases fondamentales des connaissances requises d'un ingénieur naval au sujet des machines et chaudières de marine, y compris les réparations qui peuvent être faites en mer, l'usage pratique des divers instruments employés dans la chambre de la machine, aussi de la construction et fonctionnement du mécanisme de l'éclairage électrique, des torpilles et des canons, et de connaître généralement les devoirs d'un ingénieur naval.

24. Les étudiants seront examinés une fois par année sous la direction du président du Collège Royal de Marine, Greenwich.

Ceux qui ne font pas de progrès satisfaisant et ne promettent pas de devenir des officiers capables, ou se rendent coupables d'inconduite continue seront sujets tous les ans d'être renvoyés du service.

## ORDRES EN CONSEIL.

### HOTEL DU GOUVERNEMENT A OTTAWA.

Lundi, le 30e jour de juin 1890.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plait à Son Excellence, en vertu de l'autorité qui lui est conférée par "l'Acte des travaux publics," chapitre 36 des Statuts Revisés, et par et avec l'avis du Conseil Privé de la Reine pour le Canada, d'ordonner que les règlements suivants pour l'usage des glissoires à bois et autres travaux du gouvernement construits pour faciliter la transmission du bois de construction, du bois de service et des billots de sciage sur la rivière Ottawa et ses tributaires, soient et ils sont par le présent faits et établis, et que les péages et droits ci-après mentionnés soient et ils sont par le présent autorisés, imposés et établis ; ces péages et droits remplaceront tous les péages et droits ci-devant imposés au sujet de ces travaux.

JOHN J. McGEE,
Greffier du Conseil privé.

### RÈGLEMENTS.

Afin de rendre uniforme l'application des droits, tous bois de construction et bois de service seront, sauf dans les cas spécialement prévus par le dit tarif ou quelque modification du dit tarif, classifiés comme suit :—

(*a.*) Le bois carré et en déclin ou à planche sera désigné bois carré, et sera imposé à tant par cage (crib), et dans le cas où du bois de cette description passe par aucun des travaux autrement qu'en cages, un nombre de pièces suffisant dans l'opinion du percepteur ou d'un député dûment autorisé par lui pour faire une cage d'une grandeur ordinaire (ne devant pas toutefois excéder mille pieds cubes) sera compté pour une cage.

(*b.*) Le bois rond, de 12 à 16½ pieds de longueur, communément appelé "bois de sciage," sera imposé à la pièce ou, lorsqu'il n'y est pas pourvu par le tarif ou aucun amendement qui y sera subséquemment apporté, alors soixante billots de sciage seront censés équivaloir à une cage de bois de construction et paieront en conséquence.

(*c.*) Le bois plat, rond ou en partie ébauché, d'un diamètre moyen de moins de 13 pouces d'une écorce à l'autre, paiera, lorsqu'il est mis en cages la moitié des taux du bois carré, et lorsqu'il est flotté en pièces détachées, chaque pièce paiera le taux d'un billot de sciage.

(*d.*) Le bois plat, rond ou en partie ébauché d'un diamètre moyen de 13 pouces et plus d'une écorce à l'autre (communément appelé bois de dimension) sera calculé en billots de sciage de 15 pieds de longueur et paiera en conséquence.

(*e.*) Les traverses de chemins de fer de huit pieds de longueur et au-dessous seront calculés au taux de cinq par billot de sciage et paieront en conséquence.

(*f.*) Les autres articles en bois seront, à la discrétion du percepteur, imposés aux taux proportionnels qui seraient imposables en vertu des présents règlements sur la classe d'effets qu'ils ressemblent le plus.

(*g.*) En calculant le bois scié, cent cinquante pieds en superficie mesure de planche seront censés équivaloir à un billot de sciage.

2. Nuls bois de construction, billots de sciage, bois de service ou autres articles de bois ne seront transportés au delà d'un rayon de trois milles plus bas que le pont suspendu des Chaudières, à moins que le paiement des péages et droits sur ces bois n'ait d'abord été fait ou garantie à la satisfaction du percepteur des péages et droits ; et tous tels articles ainsi enlevés sur lesquels les dits péages et droits restent impayés pendant 34 heures après qu'ils ont été déplacés, pourront être détenus par le percepteur en vertu du quatrième article de l'acte précité, et le percepteur devra de suite en faire rapport au ministre des Travaux Publics et pourra retenir ces articles jusqu'à ce que les droits de glissoires et tous les frais et dépenses aient été payés, à moins qu'il n'en soit autrement ordonné.

3. Le propriétaire ou la personne en charge du bois de construction, des billots de sciage, ou autres articles de bois lorsqu'il fait usage d'aucune des glissoires, estacades, barrages ou autres travaux dans la rivière, fera un rapport de ces articles au sous-chef des glissoires ou personne en charge des constructions, indiquant le nombre des cages (si ce bois est en cages) et, s'il en est requis, le nombre et les dimensions moyennes de chaque classe, et il signera et délivrera au sous-chef des glissoires ou personne en charge des constructions, un écrit en double nommant le propriétaire des articles et les glissoires ou autres travaux par lesquels ils sont passés, et pour toute infraction du présent article il encourra une amende de dix pour cent en sus du montant des péages et droits d'ailleurs imposables, cette amende ne devant pas excéder en tout quatre cents piastres.

4. Chaque propriétaire de scierie ou personne en charge d'une scierie, ou l'exploitant, et chaque autre personne commerçant sur le bois de construction, les billots de sciage, le bois scié ou autres articles de bois, fournira au percepteur des péages et droits le ou avant le trentième jour de septembre de chaque année un état attesté sous serment ou déclaration solennelle en vertu du statut à cet effet et sur une formule imprimée qui sera fournie par le percepteur sur demande, indiquant les détails sous-mentionnés quant à tous tels articles fabriqués ou acquis par lui, sauf le bois carré envoyé en radeaux à Québec dans le cours de la saison d'opérations précédente et jusqu'à la dite date ou depuis la fin de la période comprise dans son dernier rapport en vertu du présent article ou du suivant,—et le ou avant le 15e jour de novembre de chaque année un semblable état quant à tous tels articles fabriqués ou acquis par lui subséquemment au 30e jour de septembre ou date du précédent état. Ces états ou rapports donneront une description détaillée de tous articles qui y sont compris et énonçant les détails suivants :—

S'ils ont été fabriqués par la personne qui fait le rapport ou ont été achetés par lui d'autres personnes, et s'ils ont été fabriqués par lui-même le nom du contremaître employé, et s'il les a achetés, le nom du vendeur ;

La rivière ou cours d'eau d'où ils viennent ;

Où sont ces articles à la date du rapport ;

Les glissoires, estacades ou autres travaux où ils ont passé ;

Aussi près que possible leurs longueur et diamètre moyen (à l'exception des billots de sciage et du bois carré) et tels autres détails qui seront requis par la formule imprimée de rapport que fournira le percepteur.

Toute personne qui enfreint le présent article encourra et paiera, sujet à la limitation établie par l'article trois du dit acte, une amende de dix piastres par jour pour chacun des premiers trente jours de cette infraction, et pour chaque jour en suivant une amende de vingt-cinq piastres.

5. Le percepteur des péages et droits pourra en tout temps demander de toute personne tenue de faire rapport en vertu de l'article précédent, un état indiquant les effets alors en possession de cette personne ou les articles fabriqués ou acquis par elle depuis la date de son dernier rapport, et chaque état en vertu du présent article énoncera par rapport à ces effets ou articles ainsi fabriqués ou acquis, tous les détails mentionnés dans l'article immédiatement précédent, ou tels détails qui pourront être spécifiés dans la demande ; et tout rapport demandé en vertu du présent article sera fait dans les cinq jours qui suivront la demande, sujet aux mêmes amendes pour défaut que celles prescrites dans le quatrième article des présents règlements.

6. Si le percepteur des péages et droits est d'opinion qu'un rapport exigé par l'un ou l'autre des deux articles qui précèdent est incomplet sous quelque rapport, il pourra demander à la personne qui le produit de l'amender ou de le corriger, et si cette personne manque de se conformer à cette demande dans les cinq jours suivants elle encourra et paiera les mêmes amendes que celles prescrites dans le quatrième article des présents règlements.

7. Les droits et péages sur toutes les glissoires et travaux porteront intérêt au taux de sept pour cent par année à compter du trentième jour de novembre de l'année dans laquelle ils sont devenus dus, sans préjudice du droit de la couronne de contraindre paiement à toute date antérieure après que les travaux ont été employés.

8. Afin de faciliter le règlement et la perception des revenus, le percepteur des droits de glissoires pourra prendre des billets à ordre à son propre nom, ou des obligations au nom de la Reine pour le montant dû pour péages et amendes en vertu des présents règlements; mais ces billets ou obligations n'affecteront en aucune manière le privilège de la couronne, ni seront une exception au droit de saisie et de détention que donne la loi.

## HOTEL DU GOUVERNEMENT A OTTAWA,

Mardi, le 1er jour de juillet 1890.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

Il plait à Son Excellence, en vertu de l'autorité qui lui est conférée par le 2e article de l'acte 52 Victoria, chapitre 23, intitulé "Acte modifiant de nouveau l'Acte d'inspection des bateaux à vapeur, chapitre 78 des Statuts Revisés," et par et avec l'avis du Conseil Privé de la Reine pour le Canada, d'ordonner que les articles suivants des Règles et Règlements concernant l'inspection des chaudières des bateaux à vapeur, établis par l'arrêté en conseil du 17e jour de septembre 1889, savoir, les articles 44 et 45, et les articles 92 à 102, ce dernier article étant compris, soient et ils sont par le présent rescindés, et que les règles et règlements suivants relatifs aux soupapes de sûreté qui s'accordent en pratique avec les règlements en vigueur dans le Royaume-Uni, soient et ils sont par le présent substitués aux dits règlements.

JOHN J. McGEE,
Greffier du Conseil privé.

## RÈGLEMENTS CONCERNANT L'INSPECTION DES SOUPAPES DE SURETÉ.

44. (*a.*) Après que les règlements seront devenus exécutoires, chaque chaudière faite ou placée à bord d'un bateau à vapeur sera munie de deux soupapes de sûreté, ou plus, fermées à clef dont la construction sera approuvée par le Bureau d'inspecteurs de bateaux à vapeur, ou par le Président, si le Bureau n'est pas alors en session ; l'aire collective des dites soupapes de sûreté ne sera pas inférieure à celle spécifiée dans la table ci-jointe vis-à-vis la pression attribuée à la chaudière ; les soupapes de sûreté devraient être posées sur la chaudière, ou aussi près que possible de la chaudière, sans tuyaux, robinets, soupapes ou autres obstacles possibles entre les soupapes de sûreté et la chaudière.

Chaque inspecteur, lorsqu'il inspecte, visite ou examine la chaudière ou les machines d'un bateau à vapeur, devra s'assurer que les soupapes de sûreté y attachées sont de dimensions convenables, en nombre suffisant, bien disposées et fonctionnent bien, et ne portent que le poids nécessaire pour leur permettre de s'ouvrir à la pression ou au-dessous de la pression effective certifiée ; et, s'il le juge à propos il pourra ordonner que deux de ces soupapes de sûreté ou plus (lesquelles seront ensemble de dimensions suffisantes à laisser échapper toute la vapeur que la chaudière peut produire, et dont il approuvera la construction) soient fermées à clé et soustraites au contrôle du mécanicien lorsque la vapeur est levée ; mais le mécanicien aura accès aux soupapes de sûreté lorsque la vapeur n'est pas levée, et veillera à ce qu'elles soient tenues en bon état de fonctionnement, et le capitaine du bateau à vapeur verra à ce que le mécanicien y ait accès à cette fin, et les tienne en bon état de fonctionnement.

Les robinets et soupapes attachés aux chaudières seront solidement faits, et jamais fixés aux chaudières au moyen de vis dans la tôle, à moins que pour plus grande sûreté, des brides boulonnées ne soient ajoutées en sus de ces attaches.

Aucune soupape ne devra, dans aucun cas, porter un poids, ou être arrangée de manière à assujétir la chaudière à une plus grande pression que celle permise par l'inspecteur lors de sa dernière inspection.

Chaque soupape de sûreté faite ou placée à bord d'un bateau à vapeur et attachée à une chaudière devra avoir un jeu au moins égal à un quart de son diamètre, les orifices pour le passage de la vapeur en entrant et sortant, auront chacun une aire égale à l'aire de la soupape, de même que le tuyau de renvoi d'eau, et la boîte de la soupape aura un tuyau de renvoi d'eau ; si le levier d'une soupape de sûreté n'est pas emboîté dans du cuivre, la cheville sera de cuivre,—le fer en contact avec le fer ne sera pas permis ; chaque soupape de sûreté sera munie d'un appareil de levage de manière à pouvoir le faire fonctionner avec la main, soit de la chambre de la machine soit de la cale des feux, ou par le capitaine ou personne en charge sur le pont ;

(*b.*) On ne doit pas admettre de soupapes de sûreté qui n'ont pas au moins deux pouces de diamètre, sauf dans le cas de petites chaudières dont la surface de grille a moins de quinze pieds carrés, cas où l'on peut tolérer des soupapes de sûreté d'un moindre diamètre ; mais en aucun cas ce diamètre ne doit avoir moins d'un pouce, et pourvu qu'elles soient d'une construction approuvée, et que l'aire de la soupape de sûreté soit relativement à l'aire de grille dans le rapport indiqué dans les tables d'aires de soupapes de sûreté.

(*c.*) L'aire de grille sera constatée en mesurant la longueur de la grille depuis le bord intérieur de la plaque fixe jusqu'au devant de l'arche, et la largeur d'un côté à l'autre du fourneau au-dessus des barres à leur centre.

(*d.*) L'inspecteur éprouvera les soupapes de sûreté sur les nouvelles chaudières, ou sur d'autres chaudières s'il désire les éprouver, sous pleine vapeur et feux ardents pendant au moins 15 minutes, tenant le tuyau d'alimentation arrêté, et la soupape d'arrêt fermée. Si l'accumulation de la pression excède 10 pour cent de la pression voulue, il n'accordera pas de certificat sans faire rapport au président de tous les détails de l'épreuve, et de la pression dans la chaudière ainsi qu'un dessin de la soupape de sûreté ; et un inspecteur ne devra jamais donner un certificat pour des soupapes de sûreté, sans les avoir examinées, et s'être mis au fait des détails de leur construction.

45. (*a.*) Instruction est donnée aux inspecteurs que dans toutes les nouvelles chaudières, et chaque fois que des changements peuvent facilement être faits, la boîte de soupape doit être placée directement sur la chaudière ; et le col, ou la partie de la boîte et la bride qui est attachée à la chaudière, doivent être aussi courts que possible.

(*b.*) Chaque fois qu'un inspecteur croit qu'il est positivement dangereux d'avoir une longueur de tuyaux entre les chaudières et la boîte de la soupape de sûreté, il devra de suite insister pour que les changements nécessaires soient faits avant d'accorder un certificat.

(*d.*) Lorsque des soupapes à levier sont employées la distance entre le centre de la soupape et le centre du point d'appui ne doit pas être moindre que le diamètre de la soupape.

(*e.*) Les soupapes de sûreté doivent être placées dans des endroits convenables et d'accès facile, afin que leur ajustement et examen puissent être faits aisément et efficacement. Dans l'examen des chaudières et des machines, l'inspecteur doit surtout porter son attention aux soupapes, et chaque fois qu'il le juge nécessaire il doit s'assurer de la pression sur la chaudière en en faisant l'épreuve. L'inspecteur doit examiner les soupapes de sûreté, les poids et les ressorts à chaque inspection.

(*f.*) Les sièges des soupapes doivent être fixés de manière à ne pas lever avec la soupape.

(*g.*) L'arbre du tiroir doit être attaché à la soupape de façon à lever en même temps que la soupape.

(*h.*) La dimension de l'acier dont est fait le ressort pour les soupapes de sûreté à ressort, se trouve au moyen de la formule suivante prise des règlements du conseil du commerce Impérial :—

$$\sqrt[3]{\frac{S \times D}{c}} = d$$

$c = 8{,}000$ pour acier rond.
$c = 11{,}000$ pour acier carré.
$S =$ le poids en livres sur le ressort.
$D =$ le diamètre, du ressort (d'axe en axe du fil métallique en pouces.)
$d =$ le diamètre ou côté du fil métallique, en pouces.

Le ressort doit être protégé contre la vapeur et les impuretés sortant de la chaudière, et des mesures doivent être prises pour maintenir le ressort en position sur la soupape dans le cas où il se briserait.

(*i.*) Un ressort règlementaire fait du meilleur acier carré, contient ·25 d'un pouce carré, le diamètre intérieur est de deux pouces, et le diamètre extérieur de trois pouces ; il a treize tours complets avec les bouts, et a 11½ pouces de long. Le poids effectif est placé à 600 livres, un sixième de son poids de rupture lorsqu'il est trempé à un degré justement suffisant pour le casser ; avec ce poids il doit fléchir exactement d'un pouce.

(*j.*) Pour trouver l'aire de profil pour tout autre ressort, la pression ou poids sur la soupape étant donnée :—

·600 : ·700 : ·25 : ·29=aire de profil du ressort à une charge de 700 lbs. Les autres dimensions du ressort sont dans la même proportion, le nombre de tours, treize, étant constant.

## ORDRES GÉNÉRAUX DE MILICE.

### QUARTIERS GÉNÉRAUX.

OTTAWA, 31 juillet 1890.

ORDRES GÉNÉRAUX (10.)

No. 1.

RÈGLEMENTS ET ORDONNANCES DE LA MILICE, 1887.

*Congés.*

Ce qui suit est ajouté comme sous-sections 4 et 5 au paragraphe 119 des Règlements de 1887 :

(4.) Les officiers devront être présents avec leur corps le jour où se terminera leur congé, et devront prendre connaissance de tous les ordres qui auront été émanés pendant leur absence.

(5.) Quand, pendant la durée d'un congé un officier est promu, transferé dans un autre corps ou échangé, ce congé est annulé par tel déplacement.

—

*Habillement et équipement.*

Ce qui suit est ajouté au paragraphe 238, Règlements de la Milice, 1887 :

(2.) A l'occasion de l'expédition ou livraison des uniformes ou provisions les officiers qui les reçoivent, avant de donner un récépissé à celui ou ceux qui les auront transportés, devront s'assurer si les colis ont été endommagés en route soit par l'humidité, ou en étant ouverts ou en aucune manière. Si ce dernier cas se présente ou si un soupçon existe que les colis ont été fracturés, ces circonstances doivent être portées à la connaissance de la personne ou de la compagnie qui ont transporté les effets et ces colis doivent être ouverts, aussitôt que possible, et leur contenu vérifiés en présence d'un comité d'officiers. Avis de tel examen devra être donné à celui ou ceux qui ont transporté les effets afin que ces derniers puissent être présents s'ils le désirent.

L'officier à qui sont adressés les colis ne donnera par un reçu sans y mentionner que les colis n'ont point été reçus en bonne condition, et quand il y aura dommage ou perte il devra le mentionner sur la réquisition de transport avant de signer cette dernière, afin que le roulier puisse-être tenu responsable pour le paiement de tel dommage ou perte.

(3.) Quand un comité d'officiers se réunit les colis contenant les effets à être inspectés devront être examinés afin de constater s'ils ont été ouverts en route ou après réception à destination. Le résultat doit paraître dans le rapport du comité.

(4.) Le comité fera alors peser le colis et compter son contenu, et chaque cas d'excès ou de diminution après confrontation avec l'avis concernant l'envoi et le nombre d'articles expédiés, devra être mentionné.

(5.) L'officier commandant ne devra pas être membre d'un comité d'officiers.

—

*Exercices annuels.*

Ce qui suit est ajouté à la sous-section 2 du paragraphe 350 des Règlements de 1887 ;

(2.) Quand l'inspection des corps urbains ou autres corps se fait ailleurs que dans le camp d'exercice ou aux quartiers généraux du district, le rassemblement du corps doit être fait par l'officier préposé à l'inspection. Le payeur du district ne devra pas l'accompagner pour les fins de telle inspection, aux frais du gouvernement.

—

*Munitions.*

Ce qui suit est ajouté au paragraphe 437 :

(2.) 20 des cartouches fournies aux corps urbains doivent être tirées par chaque homme, tel que le veut les règlements. Les 20 cartouches additionnelles seront tirées d'après les ordres du l'aide-adjudant général du district.

(2). Les corps ruraux ne recevront les 20 cartouches allouées, si des arrangements n'ont pas été faits donnant l'assurance que chaque homme appartenant à ces corps tire sa quote-part au tir à la cible. ## DEMANDES AU PARLEMENT.

### RÈGLES RELATIVES AUX AVIS DE BILLS PRIVÉS.

Dans le cas de toute demande de bill privé, proprement du ressort législatif du Parlement du Canada, suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, et ayant pour objet, soit la construction d'un pont, d'un chemin de fer, d'un chemin à barrières ou d'une ligne télégraphique ; soit la construction ou l'amélioration d'un port, d'un canal, d'une écluse, d'une digue ou d'une glissoire ou autre ouvrage semblable ; soit la concession d'un droit de passage d'eau, l'incorporation de professions ou métiers, ou d'une compagnie de banque ou autre compagnie par actions, soit la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, soit le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement de même nature à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande, et signé (excepté s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit:

*Dans les provinces de Quebec et du Manitoba.*

Un avis doit être inséré dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

*Dans les autres provinces ou territoires.*

Un avis doit être inséré dans la *Gazette du Canada*, et et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie.

La publication de ces avis durera, dans chaque cas, la période de deux mois pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Un exemplaire des numéros des journaux, reproduisant la première et la dernière insertion de l'avis, devra être transmis au greffier de chaque Chambre.

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, le pétitionnaire ou les pétitionnaires devront, en même temps qu'ils donneront l'avis prescrit par la règle précédente, donner aussi, de la même manière, avis des péages qu'ils entendent exiger, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piliers pour le passage des radeaux et des navires ; et mentionner de plus s'ils se proposent de construire un pont mobile, et quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Il en sera imprimé 600 exemplaires en anglais et 200 en français ; la traduction devra être faite par les officiers de la Chambre, et l'impression par l'entrepreneur des impressions. Le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) une somme de $200, plus le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé—le dit paiement sera effectué immédiatement après la seconde lecture avant la prise en considération du bill par le comité.

L'honoraire payable sur tout bill privé, ne sera payé que dans la Chambre où il a pris naissance.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par l'une ou par l'autre Chambre après les dix premiers jours de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.
JOHN GEORGE BOURINOT,
Greffier des Communes.

### RÈGLES ADDITIONNELLES DE LA CHAMBRE DES COMMUNES CONCERNANT LES BILLS PRIVÉS.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle adopté par la Chambre, le 23 juin 1887, dont copie peut être obtenue du greffier de la Chambre ;

(*a.*) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression.

(*b.*) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets ;

(*c.*) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le traité du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer

à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(*a.*) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés, dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait ;

(*b.*) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

JOHN GEORGE BOURINOT,
Greffier des Communes.

### SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré, durant trois mois, entre l'expiration de la dernière session parlementaire avant l'avis et la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district ; autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire, faite en vertu de "l'Acte concernant les serments extra-judiciaires."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $200.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

PRESENT :

### HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada, has this day been pleased to approve of the following proposition to be made to the Government of British Columbia, having in view an arrangement for the administration by the Province of certain mineral lands in the Railway Belt in British Columbia, namely :—

(*a*.) The Government of Canada will not hereafter make any leases or other dispositions of any minerals in the Railway Belt in British Columbia, excepting coal, other than by patent in fee simple of the lands wherein they lie, to the intent that the minerals in the said belt, other than coal, may be administered under the mining laws of the Province.

(*b*.) All lands of the Dominion which may be for sale from time to time within the Railway Belt containing minerals within the meaning of the Mineral Act (B.C.) not being Indian Reserves or Settlements or portions thereof, and not being under license or lease from the Dominion Government, shall be open to purchase by the Provincial Government at the price of $5 per acre.

(*c*.) Any lands sought to be acquired by the Provincial Government under the last clause shall be set apart from alienation by the Dominion upon the Provincial

Government depositing in the Department of the Interior a written application therefor, with such a description thereof as to enable them to be identified, and thereupon the consideration money shall become payable, and in all cases where the land sought to be acquired has already been surveyed under the authority of either Government, such survey shall be accepted as conclusive and the grant issued thereon; but where the land sought to be acquired has not been surveyed, then, before the issue of the grant, it must be surveyed at the expense of the Provincial authorities by a Dominion Land Surveyor acceptable to both Governments.

(*d.*) Nothing in this agreement shall apply to coal lands or interfere with the operation of sub-section 4 of section 29 of the Dominion Lands Act.

(*e.*) The foregoing clauses of this agreement may be terminated at any time by either Government passing an Order in Council to that effect and communicating the same to the other Government.

(*f.*) It is understood that all minerals, including gold and silver, which may be in any Indian Reserve in British Columbia, shall be administered by the Indian Department and not by the Government of British Columbia.
